SEEDS

SEASON of 1935

GREENWOOD, SOUTH CAROLINA

Bodger's Mammoth Perfection Aster

FROM THE BODGER'S, famous for the development of Asters, Nasturtiums, and Zinnias. I have seeds of this glorious Aster to offer. A race that I consider the top notch of all Asters, superior in size, doubleness, rich range of colors, and variegations, and invaluable for beds as also for cutting. The plants, healthy and vigorous grow upwards of 3ft., branching and forming long leafy stems surmounted by the enormous flowers that are unsurpassed for showiness and beauty. For bedding it has no equal and being wilt-resisting the flowers develop perfectly and make a glorious display. It's a first class Bodger product. A flower is well represented on the fine wood engraving prepared for me by the skillful flower artist Mr. Ousey. But it's exquisite beauty must be seen to be realized. It is unrivaled in Asterdom. 100 seeds 5cts.

Bodger's Glorious Gleam Hybrids

**The Greatest and Finest
NOVELTY of the SEASON**

Be sure it is Bodger's
All Double and all Colors
Be sure it is Bodger's

MY Friends, the greatest and finest novelty of the season is Bodger's Glorious Gleam Hybrid Nasturtiums. The seeds grown by the Bodgers are well proportioned in mixture. I feel elated that I can offer these seeds knowing that they will produce double (not single) flowers and come in all the rich colors and variegations, strikingly distinct and attractive. The plants are vigorous and wonderfully free-blooming, making a bed of surpassing beauty and keeping up the rich display throughout the season. They also do well in pots and are showy and beautiful window plants of the easiest culture, blooming in Summer or Winter. The flowers are of great size, the petals deep and broad, borne on long strong healthy stems and deliciously fragrant. The seeds are sure to grow and the plants sure to bloom even under adverse conditions, no other novelty approaches Bodger's Gleam Hybrids in exquisite beauty and delightful perfume and no other plants are more easily grown. I cannot too highly praise this glorious novelty. Everyone of my thousands of patrons should get at least one packet and I am glad to offer it. A liberal packet of seeds, enough for a showy bed and will tell you just how to plant and care for it, all for 5cts. Be sure to buy nothing but Bodger's Gleam Hybrids and see that Bodger's Gleam is printed on the packet. You will then get seeds that produce double (not single) flowers in the greatest variety of colors and markings, (not simply a lot of yellows). Place Bodger's Gleam Hybrids first on your order sheet. It's a novelty you will succeed with and one that will give you unbounded satisfaction and pleasure. I urge all my patrons to get Bodger's Gleam Hybrids. They will rejoice in the glorious beauty of the flowers and thank me for this urgent plea—Do it— Price 5cts.

MacDonald's Ramona Petunias

THE MOST BEAUTIFUL AND DESIRABLE OF
ALL KNOWN GIANT-FLOWERED PETUNIAS

It is my candid opinion that nothing in the way of Petunias has yet been produced that equal Wm. MacDonald's Improved Ramona Strain. The plants are dwarf and compact, forming globes of big ruffled flowers of all the vivid colors and strikingly attractive variegations. They are magnificent pot plants and for beds far surpass the old hybrid varieties, as they bloom freely for months making a grand exhibition of colors in beds and charming pot plants covered with bloom, the large flrs. so completely ruffled that they appear as double flowers when seen at a short distance. I am pleased to offer new crop seeds of this magnificent strain direct from Mr. MacDonald, the seeds saved only from his finest flowers and sure to yield the most satisfactory results. Mr. MacDonald has been years in perfecting this strain of Giant Petunias, giving his special attention to every quality that would impose it in usefulness and beauty. It is an indispensable. 100s. 5c. See page 45.

Finest Perennial Gaillardias

Right here I want to offer Kelway's Giant Perennial Gaillardias. The Kelways have been giving the Perennial Gaillardias special attention and have developed a strain unsurpassed for size, variety and beauty. The Gaillardias also start readily from seeds and begin blooming the first season, but the plants are hardy and continue to do service for many years. They are splendid for planting on the edge of shrubbery on the lawn, fine for permanent beds and very desirable to use as cut flowers. They are very large ranging from 4 to 6 inches in diameter and are of the richest colors and variegations. They grow freely in any good soil and will thrive in partial shade as well as in sun. I offer the seeds with confidence, believing that they will yield the most satisfactory results. My seeds are direct from the Kelways, are of the latest and best strain, including the new and larger varieties. I offer some of the best named varieties as well as a first-class mixture. Packet 5cts.

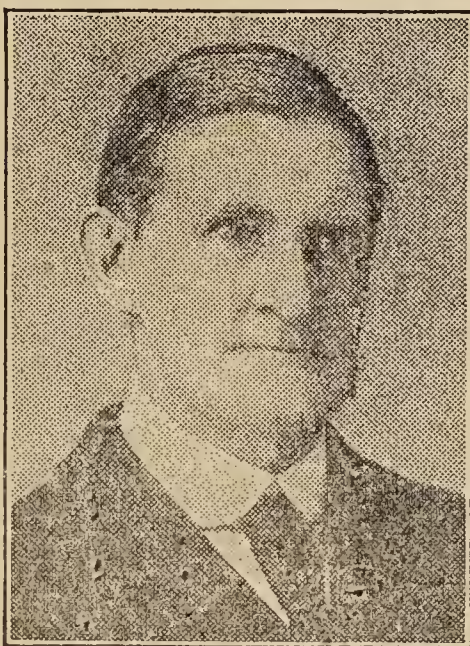

Cadwell's Fine Hollyhocks

Mr. Cadwell of Conn. has been giving his special attention to Hollyhocks and has developed a giant strain of single Hollyhocks, the plants growing from 6 to 10ft. high and producing great spikes of silky flowers, large and of the most brilliant and beautiful colors, new and distinct shades. These single Hollyhocks are even more showy and handsome than the double-flowered and are gorgeous in beds and borders, being rich and attractive. A few of the plants may produce double flowers of superior beauty, but most of them will be single-flowered in rich showy colors, finest mixed, pkt. 5c.

PLEASE WRITE OR PRINT YOUR NAME AND ADDRESS PLAINLY ON YOUR ORDER SHEET

INTRODUCTORY

MY Dear Patron-friends: I am pleased to meet and greet you once more on the entrance of a new year, and it is a special pleasure to me this year to hand you my Flower Book, revised, enlarged and improved in various ways, making it more attractive and more useful to you in the selection of your seeds and the care of your plants. I have considered every line with a view of making the statements truthful and reliable and have written and added new pages of matter that I trust will be helpful and of interest to you all. The past year, to me, has been one of success and real enjoyment. The liberal orders and friendly letters that have reached me have been fully appreciated and the sentiments expressed are warmly reciprocated and I may say they act as a stimulus to renewed energy and enthusiastic devotion to the service of my flower-loving friends, a service that has been a joy to me for more than three-score years. I am more than thankful to my friends for the greatly increased patronage they have accorded me during the past year and for the delightful letters of friendship and confidence accompanying their orders. I would be very ungrateful not to acknowledge and value their favors knowing that they were often the result of faithful effort and earnest endeavor. My friends, it has been my earnest effort throughout my long business career to deal justly, honestly and fairly with every patron. I would not willingly take advantage of any patron. I have a friendly feeling for every one and aim always to accord such treatment as will secure the confidence and friendship of those who favor me with their patronage. I have never aimed to be wealthy, as riches in my opinion do not promote happiness and yet my business methods and friendly sentiments have brought me a good share of the wealth and good things of life which I daily enjoy. For this reason I do not care for an exorbitant profit or to exact prices that are far beyond cost. These facts have resulted in hosts of friends who appreciate my efforts and recommend me to others, thus adding greatly to my patronage and the prosperity of my delightful avocation.

GEO. W. PARK
SEEDSMAN, FLORIST, PUBLISHER,
Began 1868, still at it.

My seeds are all sold at the uniform price of 5 cts. a packet, 22 packets \$1.00, 50 packets \$2.00 and 77 packets \$3.00. At these prices I pack and deliver the seeds by mail, guaranteed to reach you in good condition and in due time. If mistakes occur they will be cheerfully corrected. I aim to fill all orders within 24 hours after they reach me. During the height of the busy season, however, there may be a little delay, but special efforts are made to get all orders off promptly. Sums under \$1.00 can be sent in postage stamps and larger sums by money order, registered letter or check. I guarantee the receipt of the money. Now, notwithstanding my generous prices and terms, I wish it distinctly understood that I do not handle cheap seeds or seeds inferior in vitality or quality, the best are not too good for my esteemed patrons. My seeds are all of the new crop or that bear such a test as will satisfy and please those who sow them. The finer strains are all the growth of famous specialists who excel in some particular flower. They come from the celebrated growers of England, France, Germany, Holland and America. They are not the product of one firm, you can therefore rely upon getting the very best seeds that can be produced throughout the world. The many enthusiastic letters about my seeds attest these facts: "You never err in buying my seeds," and I challenge a comparison with those of any other seedsman, regardless of price. With every package I send full directions for the preparation of boxes and beds, soils, sowing, and treatment to insure success. I guarantee my seeds true to name and sure to grow under favorable conditions. Can anyone do more? My friends I fully appreciate and thank you for your efforts to introduce my seeds among your neighbors. This is an evidence of friendly feeling that I would be very ungrateful not to acknowledge, but where a patron visits her neighbors and secures orders at 5 cts. a packet from them, a liberal reward is offered in the lower terms at which large orders are accepted. For instance, an order for \$3.00 offers a selection of 77 packets, which at 5 cts. a packet would be \$3.85. The solicitor would be allowed to select 85 cts. worth of seeds or 17 pts. for her trouble, for a \$2. order 10 extra pkts.

My friends I await your favored orders and will give them my best possible attention.
Very Truly, Geo. W. Park, Greenwood, S. C. Jan. 1, 1935.

INDEX AND GERMINATION TABLE

WHEN sowing seeds it is best to always divide the packets and sow at different times. Note the time and give good care until the plants have had time to appear. Figures here indicate pages, and letters indicate, as per key, the time needed for germination. Do not condemn seeds until you have given them at least two or three trials. Those marked z will often lie dormant for a year or more.

REMARKS AND SUGGESTIONS

GOD'S LOVE, AND BEAUTY

"My Father in Heaven, help me never to forget Thy Love to me. It comes with the light of the morning, and it remains with the light of the stars of the night. It looks up at me in the beauty of the flower. It shines upon me in the smile of a friend. All beautiful things are the gifts of Thy love. Help me to be thankful, and to link every beautiful thing with Thee. Amen."

JOHN HENRY JOWETT.

My friends are these your sentiments? If not, why not?

PARK

MY Esteemed Patrons: When I was a small boy one day in early Spring, my mother let me go to visit my aunt on the old Springtown farm. The sun was shining brightly, the robins held a concert in the blooming orchard, the golden daffodils waved their trumpets in the breeze as I passed along. It was a happy day for me and before I left, cousin Mary took down the little bag that hung by the window and divided her flower seeds with me, one was labeled Moon-seed and I wondered why, for the little seeds were not like a moon. The next day, however, I took the seeds to my little garden and sowed them in rows, carefully labeled.

In due time the plants appeared, standing erect like soldiers on parade, and grew from day to day until about 2ft. tall, branching into little trees. At last clusters of little buds appeared at the tip of every branch. These opened into red phlox-like blooms and I thought I had never seen such beautiful flowers before. After some time, the flowers faded and dropped off, but I was surprised to find the little stems holding up broad thin disks that really appeared like little moons about the size of a half-dollar.

I knew then why the plant was called Moon seed, for each disc held a small seed that was apparent through the thin covering. As these ripened, I cut off the branches, tied them in a bunch and dried them for room decoration during the Winter. Park.

ROYAL MIMULUS (Imperialis)

A MAGNIFICENT POT PLANT FOR THE PORCH OR WINDOW

Away back in the early '70s when I built and cared for my first greenhouse, two of the seedling plants that I particularly enjoyed were Nierembergia Gracilis, page 42, and Mimulus Tigrinus, page 40. The latter was given a rather shady place and moist sandy soil and the plants grew thriftily and bloomed abundantly. The flowers were single and quite large and the color was golden yellow blotched and marked in the most picturesque manner. They made such a fine display and were so much admired that I have ever since had a warm feeling for the entire list of Mimulus, or so-called Monkey Flower. New varieties of Tigrinus have been added, varying in colors and markings from canary to orange scarlet, adding greatly to their diversity and beauty. Queen's Prize with its variegations is a marvelous mixture, the flrs. being very large, of many shades and richly marked. Recently, however, a strain with hose-in-hose or duplex flowers has been developed, known as Royal Mimulus, or Imperialis and I am pleased to give an engraving of a plant of this beautiful variety. It is a Mimulus of rare merit, very free-blooming and marvelously beautiful.

REMARKS AND SUGGESTIONS

YEARS ago when I began to cultivate flowers, I knew nothing of the *Dianthus Hedewigii* and *Laciniatus*, beautiful Pinks that came from Japan and bloom the first season. The first varieties were single flowered but the skillful florist began to improve them in size and form and new dble-flowed varieties were developed and introduced. One of the most beautiful of these was introduced by Vil-morin under the name of Diadem Pink, the flowers being large, very double and every petal richly variegated, red, pink and purple and distinctly margined with white. The handsome wood engraving here given, I found in the American Agriculturist at that time from whom I got it. That exquisite Japan Pink has never been excelled or displaced, it is still beautiful and makes a gorgeous bed. I take pleasure in still supplying the seeds of this superb old Pink. It well deserves its place among the finest varieties of Japan Pinks yet introduced. Packet of 200 seeds 5cts. See page 34.

Beautiful Ipomoeas. Some years ago I sowed seeds of *Ipomoea Viola-cea Vera*, Heavenly blue also white, known also as *Rubro-coerulea*. I sowed of both colors and the vines grew rapidly during Summer, attaining the height of 30 to 50 feet and in early Autumn the buds began to appear in great numbers and such a display of lovely *Ipomoeas*, I had never before seen. The plants revelled in the vinery and became almost smothered with bloom, eliciting the admiration of all beholders. The new *Viola-cea Vera Præcox* blooms earlier and the Heavenly blue flowers are always a source of pleasure to all who grow them. The light blue color especially handsome, is not found in any other *Ipomoeas*, the nearest to approach it is that of *Nil Grandiflora Ferrandiana*, a vine that blooms more promptly and is a novelty worth growing. Plants are readily started from seeds, easily transplanted and thrive in any rich sunny bed. See page 52.

A Lovely Vine. One of the most beautiful of seedling vines is *Thunbergia Alata*. The seeds start readily and the plants come quickly into bloom. In good soil and a sunny situation they will grow rapidly to a height of fifteen to twenty feet and be covered with bloom from early Summer until frost. The foliage is handsome, and the flowers large and attractive, mostly shades of yellow with a distinct black eye, or pure white with a black eye. For a

porch, or to cover a summer house, hardly anything better could be recommended. If the plants are grown in pots they will soon cover a pot trellis and if transferred to the window will bloom freely throughout the Winter. It is one of the good vines that I heartily recommend.

A Rare Vine. On page 15 is an engraving and description of the new wax Gourd, ornamental and nutritious as food and as easily grown as a squash. Try it, only 5cts. per packet.

About Success. As a rule my patrons send glowing accounts of their success. One stating that she grew plants from each of 70 packets except one packet and she thought that it did not have time to come up. It is annoying to have a report from another that out of 50 packets, she got but one

plant. Such reports excite my sympathy and regret, sympathy for the one who would waste money for choice flower seeds and get no results because of careless sowing and regret on my part that so many of my good seeds were wasted for the same reason. These reports tell us who truly love flowers and who do not, but simply admire them.

The mother who truly loves her child gives it her best care and attention and it thrives and develops. The one who does not hold her child in affectionate regard, neglects it and it often suffers and dies. The same is true of the love of flowers and plants. Most of my patrons are enthusiastic flower lovers and are successful.

They are delightful people to deal with and I am always glad to give them such information and help as will promote the best results. To the careless and neglectful patron of

DIADEM PINK

An old Japan Pink that has never been excelled in beauty.

which I have but few, I sometimes send a second package embracing such seeds as Sunflowers, Four-o'clocks, and common Zinnias, flowers that will afford beauty even if thrown into the soil and allowed to be cared for by nature. I guarantee the vitality of my seeds, but to have them replaced, reports must be in accordance with the requirements given in the little booklet of directions, etc. sent with every package. In that little booklet I tell just how I sow seeds myself, there may be better ways, but as a rule, success will be attained by carefully following the explicit directions which I give, and by which I have the best success myself. It seems heartless and wasteful to spend money for first class seeds and get no results because of carelessness and neglect. Park.

NOVELTIES AND SPECIALTIES

AMARYLLIS Belladonna, a beautiful Lily-like plant blooming in Summer before the foliage starts.

AQUILEGIA Pearson's Crimson Star, new, rich crimson sepals and spurs, pure white petals, fine.

Vulgaris Double, Red Riding Hood, pure white corolla with old rose calyx, a charming variety.

ARMERIA Formosa Giant Hybrids, hp, 15in. A mass of leafy tufts during Winter from which strong scapes issue, surmounted by large globes of lovely flrs, bright colors from blush to dark carmine.

CACTUS, a splendid mixture containing many fine species and varieties; a liberal packet only 5 cts.

CALCEOLARIA Multiflora Nana, 1ft. Compact, showy sprays of small flrs in gay colors and markings.

CALENDULA "Shaggy" 18in. Distinct, big, flat, rich orange, fluffy, Chrysanthemum-like dble flrs.

CANTERBURY Bell Liberty. Blooms in 6 months, large intense blue bells throughout the season.

Angelus Bell, like Liberty but lovely deep rose. I urge every patron to get these bells.

CARDINAL Climber, hha, 20ft. A hybrid Ipomoea similar to Cypress Vine, but more robust and having larger more showy flrs; good trellis vine. 25 s.

CARNATION, Somerset Lady, a perpetual blooming border Carnation, immense double white flowers, on long stems, hardy, richly scented.

CHRYSANTHEMUM Nivellii, 2ft. A handsome bushy

annual covered with golden flowers 2 or 3 inches across.

CINERARIA Miniature, 1ft. Flrs small in compact masses, rich colors and markings.

CUT-FLOWER, Garden Mixture. Hardy annuals making a showy bed and yielding cut-flowers throughout the season. 1-4 oz. 5c. 1 oz. 15c 1 lb 50c.

GAILLARDIA, Indian Chief, ha, 1ft. Everblooming, big broad-rayed flrs., sparkling bronzy-red on long stems, in bloom all Summer; wonderfully showy in beds and fine for cutting.

HELIANTHEMUM Mutabile, hp, 1ft., indispensable rock plants for sunny places; cup-like flrs in many colors; new and beautiful sorts mixed. 50 s.

Rotundifolium, hp, 1 ft., fine sun-loving plant with pretty deep carmine flrs. in Summer.

HELIANTHUS Erectus, hp, 4ft. Stem hidden with big golden flrs. all fall; blooms first year.

GODETIA Finest Dwarf, 1ft.

Rich colors in splendid mixture, fine for pots.

Sybil Sherwood, 2ft., big trusses of salmon-pink flowers edged white, fine for pots or beds.

LARKSPUR, Giant Imperial Mac Donald's Improved Spiral; ha, 5ft. Glorious 4ft. trusses, Blue Bell, Lavender, Vivid Salmon Rose. Most showy, charming, finest annual Larkspurs known.

LEUCANTHEMUM Shasty Daisy, new giant double, white flrs 5in. across, fine stems, hardy, for cutting.

LUPINUS Armageddon, hp, 4ft. Rich deep blue shaded Heavenly blue, showy, very beautiful, fine.

Effective, 4ft. Branching, violet, yellow and white.

New King, ha, 4ft. Great spiral clusters of large flrs, exquisite oxford blue, and spotless pure white, elegant in beds, fine for cutting; see engraving.

MARIGOLD African, Bodger's Golden Emblem, 2ft. Finest of African Marigolds. Huge lemon-orange quilled flowers; everblooming.

NASTURTIUM "Scarlet Gleam," true; bears freely, very large, dazzling orange-scarlet, sweet flowers.

"Glorious Gleam Hybrids" big long stems, double

flrs in rarest, richest colors mixed. See pg. 2 cover.

NEMESIA, Superbissima New Dwarf, fine large flrs.

NICOTIANA Snowstorm, 18 in. Compact masses of miniature snow-white starry flrs. Showy and deliciously scented. Fine for beds and pots; open all day; a rare good thing for every flower lover.

PENTSTEMON Baby Hybrids, 2 ft. New; long, graceful sprays of miniature "Gloxinias". Fine to cut.

Heterophyllus Blue Gem, 18in. Lovely blue, rockery

PETUNIA Balcony Damask Rose. Dazzling sensational spectrum red; most brilliant of drooping

Petunias; flowers four inches across.

Giant Double Fringed. Huge pink feather balls edged white; a glorious double Petunia, 6 in. across.

Giant Double Fringed Rose Queen, 5in. feather balls, splendid bright rose; a glorious Petunia.

Nana Compacta Pink Gem. A new race; plants 6 in, smothered with small pink flrs., for pots, borders.

Periwinkle, 1ft. Compact, a profusion of lovely blue flowers, large, bold, five-pointed.

POPPY Begonia-flowered. Full double frilled flrs-like Begonias, transplants well; pink, rose, salmon in splendid mixture.

Nudicaule El Monte, enormous long stemmed flrs, extremely easily grown; blooms in 6 months; fine.

PRIMULA Elatior, Bright Eyes. Yellow to orange flowers, distinct scarlet eye, fluted petals, a beau-

tiful hardy perennial.

ROCK GARDEN Annuals Mixed. Embracing 25 of the best rock plants. Packet 5c. 1-8 oz. 15c.

Perennials Mixed, embracing 50 finest most beautiful rockery varieties. 5c. 1-32 oz. 15c.

RUDBECKIA Joy, 2ft. New, rich golden yellow, fine for beds.

SALVIA Farinacea, Blue Bedder. Intense blue flowers, fine.

Splendens, Plume of Rose, 1ft. Lovely rose color. Fine for pots and borders; rare.

Vesuvius Rose, 18 in. Compact plants; lovely sprays of rosy-pink, profuse, early flowering.

SCABIOSA Giant Hybrids, new improved race; huge flowers of the loveliest colors, mixed.

Goldingensis, lavender flrs.; long stems. Charming for beds or cutting. Fine perennial.

SILENE Siberica, 1ft. Rose and white flowers; for the rockery.

SOLANUM Hendersonii, 1 ft. A popular Jerusalem Cherry, scarlet berries, profuse, hand-

some, easily grown showy window plant.

Hlavacek's, compact, showy with red cherries.

STATICE Sinuata, improved brilliant deep blue flowers on 3 feet stems, invaluable for cutting.

SWEET WILLIAM, Purple Beauty, 2 ft. Big heads of very sweet flowers; richest purple, new, fine.

VERBENA Cerise Queen, 1ft. Compact masses of huge trusses of flrs one and a fourth inches across; beautiful soft salmon cerise; something new.

Spectrum Red, 1ft. The brightest of all Verbenas, dazzling scarlet; lustrous and beautiful, florets more than an inch across; in large heads; a charming outstanding Verbena.

VIOLA Cornuta, Lord Beaconsfield. Large flowers, purple standards, lower petals white penciled blue

Apricot, 8in. A rare tufted Pansy, rich apricot, orange center, large long stemmed flrs; showy.

VIRGINIA Stock, Crimson Gem, 1ft. Compact erect plants; profuse; a gem for beds or rockery.

ZINNIA Kelway's Super-giant Comet, 8 in. Double, richest crimson flowers; fine for beds and cutting.

ALL

THE BEST NEW SWEET PEAS

The Sweet Pea has all the good qualities of a perfect annual for general cultivation. It is of easy culture, growing in almost any soil or sunny situation, begins to bloom when small, and if freely cut the flowers will continue to develop for a long period. The flowers are of charming shape, rich and varied in color, delicate in texture, and all of the choice varieties offered are deliciously scented and borne on long stems, four or more flowers on each stem. There is a bewildering variety of named sorts, and to determine the most desirable sort in each color, the National Sweet Pea Society recently appointed a committee of expert specialists to select the very best varieties, and their report embraced the 16 named varieties I offer as the best and most distinct and beautiful of the entire list; you cannot, therefore, err in getting these finest varieties.

Avalanche, rich-frilled, pure white giant frs; best pure white.
Bonfire, soft cherry, white wings; huge frs well frilled; fine.
Fortune, rich indigo; immense finely waved flowers; outstanding.
Glen Eagles, true heavenly blue; big frilled long-stemmed frs.
Grenadier, intense Geranium-red; huge sun-proof, frilled frs.
Huntsman, sun-proof vivid scarlet; big, bold, 4 to stem frs.
Mary Pickford, lovely cream-pink with tan; huge, frilled, fine.
Olympia, vivid purple; glorious big frilled frs; robust, free.

Pinkie, clear rose-pink; long-stem mammoth frilled frs; fine.
Sunset, rose, amber and gold; like a sunset glow; a choice sort.
Supreme, exquisite soft pink; giant frilled long-stem frs; lovely.
Tangerine, improved; rich tangerine-orange, best orange.
Warrior, rich velvety maroon; big full-frilled, long-stem blooms.
Wembley, rich lavender suffused blue; extra in size and form.
What Joy, rich deep primrose; exquisite frills, the best yellow.
The Prince, intense glowing crimson; frilled; best crimson.

The above cream of Giant Orchid-flowered Spencer Sweet Peas, packets of 75 seeds 5cts., or the 16 varieties (16 pkts) 65cts., or 1 ounce of each (16 ozs) \$1.50. All are new seeds direct from the California grower. I also supply the following novelties:

Christmas Varieties

Apollo, soft salmon-pink, big beautiful, waved long stem frs.
Duplex Gem, (double) lovely pale rose; an outstanding duplex.
Fandango, duplex, bright pink big frs in 4's, long stems, fine.
Fragrance, mammoth clear lavender, the best of all; splendid.
Pal, an outstanding sort, entirely new shade, rich rose-crimson; big bold frilled blooms, fine.

Sweet Pea Novelties

Bonnie Briar, huge rose-pink frilled frs, showing a glint of amber; the finest of all rose-pink kinds. Awarded Silver Medal by Scottish S. Pea Society. 15 s. 5c.
Eleanor Blue, the fascinating new shade; big waved frs, profuse, 4 or 5 to stem; will displace the s. 15 seeds 5cts.
Little Bo Peep, dwarf (not a Cupid) 1 foot high, branching, for beds or pots; salmon-pink. 15 s. 5c.

Eileen, rich Begonia-rose with salmon shading to dazzling cerise; a beautiful rare variety.

Ramona, delightful coral rose with yellow and pink shadings blended to make an exquisite shade of Geranium-pink.

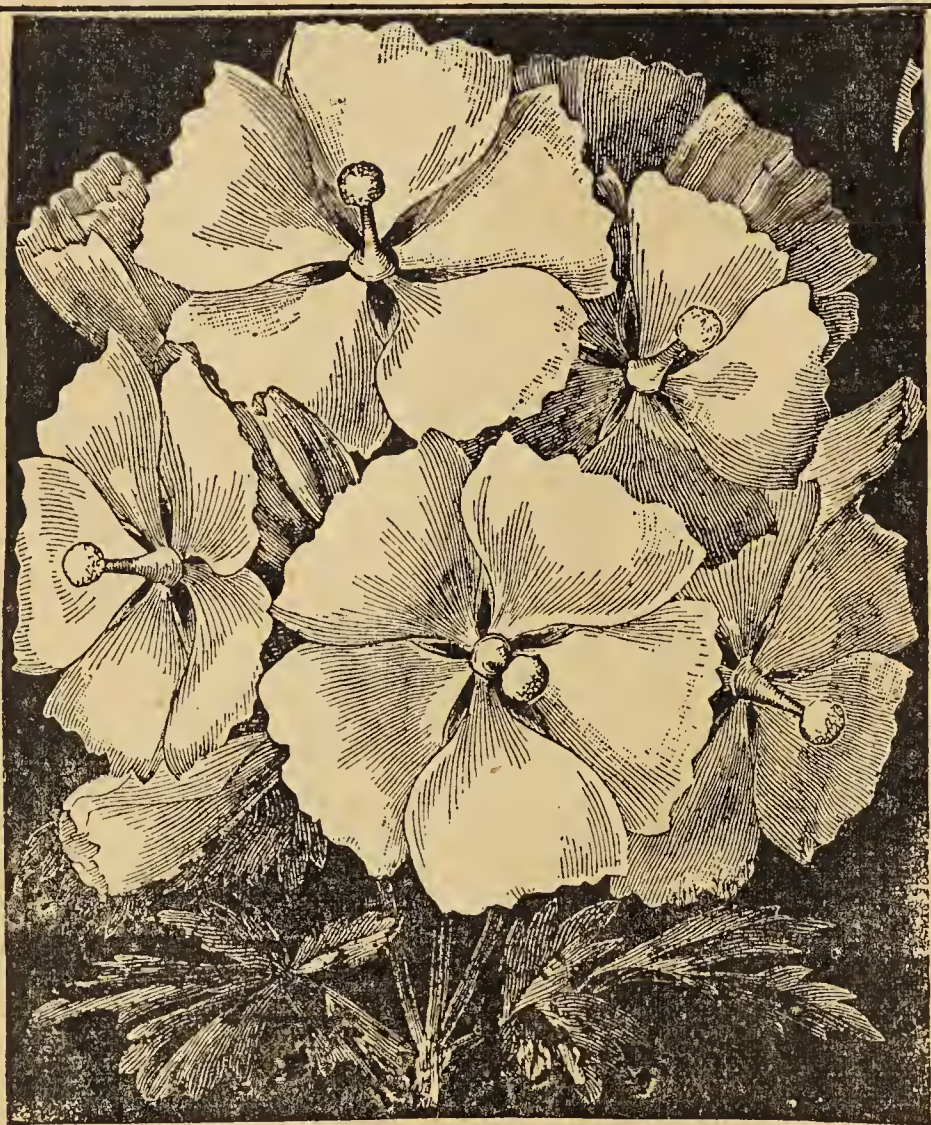

Lady Macbeth, dazzling spiral red with beautiful golden salmon shadings.

Sweet Briar, mammoth rich rose-pink, standards sparkling rosy-pink on a lovely white ground, toned to rich amber; a charming variety.

TOBACCO STEMS.—Chopped up, these are a first-class mulch, not only retaining moisture in the ground and enriching the soil, but is a reliable insecticide. Apply it to rows of Sweet Peas when they are a few inches high, and weave some into wire trellis. It is a sure protection against lice. Apply it around Asters to kill root lice. Spray infected plants with tobacco tea as hot as the hand will bear, or dip the plants to rid them of insects. Start seeds in a box or bed and transplant two feet apart. When in full bloom cut the stalks and hang up in a shed to cure. 1000 seeds of Insect-killing Tobacco 5cts.

A Fine Garden Annual

This double-flow'd Gaillardia is one of the most free-blooming, showy, and beautiful of our annuals. The plants start readily from seeds, begin to bloom early, and continue blooming until the ground freezes, rivaling the Calendula and Pansy. The flowers are produced on long stems, are double to the center, as large as a Chrysanthemum Aster, and come in rich colors, white, cream, yellow, red, variegated red and white, and red with yellow. If started in midsummer the plants will bloom during Autumn, endure the Winter, and make a fine display the next season. The flrs. are showy in the garden, and last well when cut; for bouquets or floral designs. See page 35. All colors, 50 seeds 5 cents.

Showy Musk Mallow

A showy and very handsome perennial of the easiest culture is *Malva Moschata*, shown in the engraving. Seeds germinate in five or six days, and the plants bloom freely the first season and remain, being a hardy perennial. The flowers are large and very attractive, pleasantly scented, and come in fine terminal clusters throughout the season. Young plants often spring up from fallen seeds. This is a splendid garden flower and excellent for beds or groups. The plants, two feet high, stool out, branch, and become a mass of big flowers, always showy and admired. You make no mistake in getting this fine perennial. Colors: Pure Rose also Pure White, Separate or Mixed, 200 seeds 5 cents.

A Fine Golden Annual

A very beautiful golden-flowered annual is *Cosmea Klondyke*. It's massive lacinated foliage is dark green, and richly clothes the plant from the ground to the top. The flrs. come in masses in late Autumn, at that time the plants have attained a height of 6 to 10 feet, the top freely branched and very showy. This plant will retain it's foliage firm and unaffected during a drought, while many other plants wilt and suffer. In a bed or border in the background this *Cosmea* can hardly be excelled for showiness and beauty. Sow as early as possible in a warm sunny bed where plants are to grow and bloom. This will promote earlier bloom as transplanting retards development. 40 seeds.

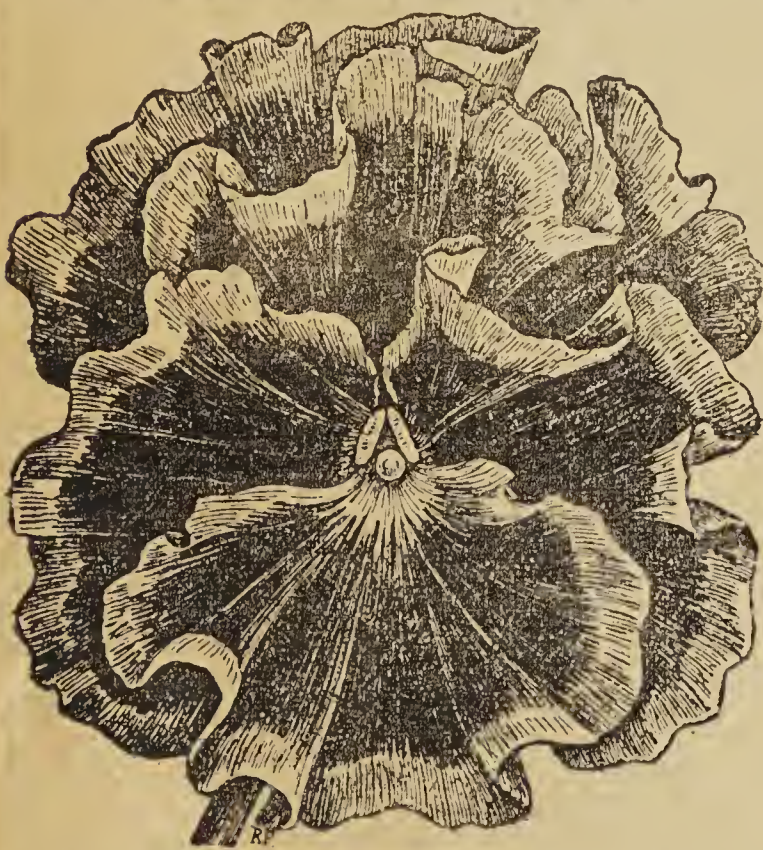

NEW GIANT EVERBLOOMING CARNATION

I gladly offer the Improved Giant Everblooming Chabaud Carnations, developed by Vilmorin of Paris, France, and my seeds are direct from his gardens. The seeds start in from five to ten days, the plants begin to bloom in six months, and bloom freely and continuously. They are splendid for beds, and when grown in pots they bloom well in the window in winter. The plants are stocky and strong, stool out into fine clumps, and produce terminal clusters of large perfectly double, deliciously fragrant flowers of many rich and charming colors. I supply the colors separately or all mixed. The seeds have been carefully tested and are of known vitality, and the high quality and genuineness are guaranteed by the character of the growers. I am confident these glorious big improved Pinks grown by Vilmorin will more than satisfy and please all my patrons. Separate or in special mixture 75 s. 5cts.

Snow White	Sulphur	Magenta	Flesh-color	Copper-red	Blood-red
Rosy Lilac	Yellow-flaked	Rosy Pink	Scarlet	Ruby-red	Salmon-rose

METTE'S MARVELOUS PANSIES

Last year I described Mr. Mette's Triumph of the Giants, a strain celebrated the world over for its size, variety, and beauty. The above fine wood engraving shows the charming ruffled character of the flowers. They are glorious Pansies and will surely please you. Seeds direct from Mr. Mette. 50s. 5cts.

FRENCH DOUBLE PICOTEE

The handsome wood engraving Represents a flower of the beautiful French Double Picotee. About 90 per cent of the seedlings yield double flrs., the various lovely colors, richly mingled and contrasted, together with the exquisite fragrance exhaled, elicit admiration and praise. 40 seeds 5c.

Notes from the English Garden with Comments

Note: For more than half a century The ENGLISH GARDEN, published at London, England, was the leading garden periodical of Europe, an authority read by all the prominent horticulturists of the world. I have bound volumes dating back from 1886 to the time of the World War. Unfortunately, the editor, who was superintendent of the Glasnevin Botanic Gardens, Ireland, and with whom I became well acquainted there, enlisted in the English army and was killed in battle. The publication was suspended and has never yet been revived. The notes here given were culled from my volumes, and I have added my own comments to them, all of which I trust will be of interest. PARK.

A DONIS Vernalis. Among plants suitable for Spring gardening, none, perhaps, excel the charming Spring Adonis Vernalis, represented in the annexed illustration. Its habit, fine graceful foliage, and large clear amber-yellow flowers make it far more effective in Spring than Tulips of the same color; over the latter, too, it has many advantages. It flowers annually with increased vigor, and even if the beds in which it grows were to be used for Summer bedding, the foliage of the Adonis would add rather than detract from their beauty. There is, moreover, no reason why this plant should not be permanently established in our wild gardens. It is perfectly hardy, being found plentifully over a wide area of Europe. Editor.

NOTE. This very beautiful hardy perennial, so common in Europe is but little known in America. This may be because the seeds start rather tardily and those who get them become impatient and neglect the seed-bed before the seeds have had sufficient time to germinate. The hardiness and great beauty of the first during the Spring months, however, fully justify the patience required in starting the seeds. My seeds are of the very latest crop and should yield the happiest results.

ERINUS Alpinus. This is a charming and distinct little plant, producing a profusion of violet-purple flowers over the tufts of abundant leaves. It will not endure Winter in a wet low place, but will run riot over old walls or ruins, and even on stone steps, where it has made itself thoroughly at home, running into every nook in the steps and flowering with utmost profusion. It is only necessary to sow seeds in the chinks where there is some moss or earth to root into, and leave the rest to nature. The plant will even flower on mere mossy stones and rocks without earth. Much beauty is lost to gardens by not sowing seed of such alpine gems as the Erinus. Editor.

NOTE. To get this Erinus started the seeds should be skillfully sown as they are very fine, and plants should be well cared for, setting them where they are to grow and bloom. Once established, they will propagate from self-sown seeds and spread, covering up bare spots and beautifying unsightly places, without further attention. It must not be supposed, however, that the seeds in a packet can be strewn over the soil carelessly if plants are expected to appear and flourish as above described. The seeds are expensive because they are difficult to get, and care must be used in getting the plants started. See page 60.

LATHYRUS Latifolius. I sowed seeds of this in March, starting the plants in pots and setting them out early, and nearly all of them began blooming in Autumn. They were of the white variety. The next year I got seeds of the red variety, treating them in the same way, and they bloomed in five months. At present our plants are very fine, having grown over eight feet high, while they are covered with flowers; many hundreds of the peduncles are from thirteen to fifteen-flowered, and this is but a repetition of the display last year, seventeen months from sowing the seed. J. C. Tallack.

NOTE. Lathyrus Latifolius is one of our best hardy perennials. It blooms freely throughout the entire season, the flowers being of pleasing colors and larger than those of the common Sweet Pea. Give it a trellis and remove the clusters when they begin to fade to prevent seed formation. Once established, the plants

will live for years without any further care. They thrive in dry weather, wet weather, or cold weather and other conditions that will ruin many other perennials. They are readily started from seeds. Don't fail to add this grand perennial to your order.

VIOLA, Tufted Pansies, do well in loamy soil. If the soil is sandy or very free it will not grow Pansies well until stiffened by the addition of loam. To have the plants bloom continuously throughout the Summer, the bed should be where it will be shaded for two or three hours during the hottest part of day. Plants

started in September will begin to bloom in Autumn and in a mild climate will bloom during Winter. Ed.

NOTE. Tufted Pansies will endure more heat and unfavorable conditions than the true Pansies under proper treatment. They are fine bedding plants and should have a place in every garden. See page 49.

BOCCONIA Cordata. This is at all times an interesting plant, handsome in foliage as well as flowers. Its tall stems are clothed with large, deeply-lobed, glaucous leaves, and terminated by panicles of creamy white flrs, which fade to a peculiar snuff-brown shade. The plants we have are in fresh deeply trenched ground, and cover several square yards. They are a mass of vigorous growth, flower panicles on stems 9ft. high. Some of the terminal panicles of flowers are nearly 1 yard long, and the shoots which produced them have thrown out laterals which have also flowered showing bloom among the rich foliage.

NOTE. Bocconia Cordata is a showy plant as a single specimen or for the back ground. It should be used wherever the grounds are large enough to accommodate it with taste. Lasts many years. See p 57.

ADONIS VERNALIS

A Beautiful Spring Flower. See above notes, also page 55.

Grand New Large Early-flowering Cosmos

The old-fashioned Cosmos bloomed so late that Jack Frost came and destroyed the plants just when the buds were ready to open, but this trouble has been entirely overcome by the new Early-flowering race I offer. The seeds start in five days, and the plants begin to bloom in about three months, and continue to bloom freely throughout the season, when not allowed to form seeds. I need hardly tell you that Cosmos are among the most graceful, showy, and beautiful of garden flowers. They are not only showy in beds, but are charming as cut flowers for room or table decoration. Plants grow three feet high, branch freely, and become veritable little trees of rich bloom. The graceful form and rich beauty of the flowers of this splendid race of Cosmos are well shown in the above handsome wood-engraving. Colors: White, Pink, Purple, Crimson, separate or mixed. 50 seeds 5cts. See also page 33. Don't fail to add one or more packets of this splendid Cosmos to your order.

New Giant Schizanthus

Finest of all Schizanthus

Several New Races of Schizanthus have lately been introduced, but the newest and finest of all are the Elegant Chislehurst Hybrids recently dissiminated by Vilmorin, of Paris, France. These hybrids are readily grown from seeds, and can be sown in a bed to stand three or four inches apart, or grown in four-inch pots, three plants in a pot, for room decoration. The flowers are orchid-like, displaying lovely rich colors and variegations, and their beauty cannot be described—the flowers must be seen to give an idea of their exquisite beauty. The plants branch freely, and the clusters of charming flowers are produced in such abundance as to almost hide the pretty foliage. This is one of the good things of easy culture, and deserves a place in every collection. Be sure to add it in your seed list. 150 seeds 5c. See page 47.

A Good Rare Edging.—A lovely flower-edging can be obtained by the use of Gamolepis Tagetes, a rare little plant recently found in South Africa. It grows about six inches high, branching freely, and the bright golden flowers, fragrant and beautiful, are borne in such profusion as to almost hide the charming lacinated foliage. Seeds germinate in ten days, and the plants started in the spring bloom until frost. 100 seeds 5cents.

None Better.—Dear Mr. Park: Just a word of praise. I purchased fifty packets last spring and all of them germinated to perfection, and I assure you that in the future I shall purchase none other than yours. I have also recommended your seeds to all of my friends. Mr. K. Sheeble, Onondaga Co., Syracuse, N. Y.

Another Page of Notes and Comments

AGAPANTHUS Umbellatus. I lately saw a clump of this "Lily of the Nile" growing at the foot of a greenhouse wall, the foliage being dense green. They were producing spikes of bloom very freely, each being not more than 1 ft above the leaves, which were of about the same height. The flower-heads, too, were much larger than usually seen, the color of the flowers being a deep blue. These were much superior to those grown in the greenhouse, being more healthy and vigorous, while the umbels of bloom were larger, richer in color, and held on shorter, stronger stems. S.

NOTE. This plant is easily grown from seeds; it is hardy in the South, and further North in protected situation, but will not endure freezing. Grown in large pots at the North and set out in saucers or water in a shady place in Summer, it will make a fine display of lovely big umbels of bloom. See engraving.

MORE ABOUT AGAPANTHUS. There is no fine-plant for a terrace or garden than *Agapanthus Umbellatus*. I have eight tubs of it on a terrace here—two of which have thrown up fifteen heads apiece. They are arranged along the terrace at intervals with tubs of *Hydrangeas* between. The plants are gross feeders and rapid growers, and the chief point in cultivation is to know when to divide. If allowed

to wait too long and the plants over-fill their pots or tubs they will dwindle away. They require shelter from Nov. until May, growing outdoors from May till Nov. W. W.

MYOSOTIS Palustris Semperflorens. This is certainly the best of the Forget-me-nots. It is the earliest to bloom, and will continue flowering quite late in the year. The individual flrs. are large and abundantly produced. Plants grow freely, especially in heat. Four small bits which were put in at the foot of a Rhodod-

endron last Spring have now developed into a mass, which covers at least a yard of ground, and is now a perfect sheet of blue. Given a fair start by the water-side it will hold its own with almost anything, and give no further trouble. J. C. T.

NOTE. There are more showy varieties of *Myosotis*, but they are not permanent as garden plants. The one above described is a tenacious perennial, and once established will not soon disappear. It is a good lasting everblooming perennial and will retain its place under trying conditions. See page 41.

LOBELIA Gracilis. This is a rather rare variety introduced from New South Wales. It is trailing in growth rather than compact. As an edging plant or for marginal lines in the flower garden it is not adapted, but when used as a carpeting to and among plants of taller growth, it is most useful and very appropriate. Its chief utility, however, lies in its valuable properties as a basket plant or for vases in the flower garden. For these purposes during the Summer months it is extremely useful, being easily started, of quick growth, and flowering profusely.

It can be also utilized as a pot plant for the margins of stages and in rustic basket arrangements. When using it thus my practice is to intermix it with either the common *Mimulus* or *Harrison's Musk* (*Mimulus Moschatus*) one being a pleasing contrast to the other. For planting promiscuously upon rockwork it is also valuable, as it does not require any great amount of soil in which to grow. J. H.

NOTE. These trailing *Lobelias* deserve more attention. The clusters of bloom are blue, rose, and white, and are produced on slender graceful stems, always exciting admiration. The light, or heavenly blue variety is especially handsome, as also the dark blue with white eye. The seeds should be sown thinly in rows, and when the plants appear place a layer of coal dust over the surface to ward off a fungus that causes damping off of the plants. When large enough pick out the little plants with a pen knife and reset them in a shallow tray of good sandy soil until large enough to transfer to their blooming quarters, either baskets, vases, or beds. They thrive in a mixture of equal parts of sand, rich loam, and fine stable litter, and delight in partial shade during the hot days of Summer. Be sure to try this grand *Lobelia*.

COMPACT SCABIOSA in Pots. Within the last few years the compact *Scabiosa* has been grown

somewhat extensively for flowering during the winter, and very useful the plants are for that purpose, with no more heat than that of afforded by an ordinary greenhouse, they will bloom for a considerable time, and the long stalks of flrs. being used in a cut state for a variety of purposes. The cultivation of the plants is simple; all that is required being to raise them early in the season, and grow them in pots placed out of doors until the cold weather sets in then place inside. H. P. (Eng. Garden).

The Beautiful Easily Grown

LILY OF THE NILE, (*Agapanthus Umbellatus*)

RUDBECKIA (Echinacea) Purpurea. I am glad to see that year after year this is coming more into use. Those who have seen flowers on their young plants, at a stature of perhaps 18" will no doubt have been pleased by the singular colors and quaint form of the heads; but provided they grow the plant well for another year or two, they will find that it attains a height of 5 feet or more, and that the red-purple ray florets will each measure 6" across. It is after seeing a specimen of my own that has been growing in a new border for three years that I have been induced to pen this note. I am sure that everyone that may try it will be delighted with it. J. W.

NOTE. Plants of this hardy perennial are readily grown from seeds, and for a bed or border they are showy and attractive throughout the season. The new hybrid varieties show flowers of various shades, and are desirable for cutting. See page 46.

CENTAUREA Moschata. This is grown at Kew as a pot plant for the conservatory, and is an extremely pretty and deliciously fragrant plant. Its silvery foliage goes so well with the tassel-like flrs.

Amberboa Muricata Rosea

The new Amberboa Muricata Rosea is a hardy annual that deserves a place in every garden, not only as a showy bedding plant, but to afford flowers for cutting. Plants grow two feet or more in height, branch freely, and are covered with lovely bloom from July until October. The flowers are rosy-pink in color, two to three inches across, borne on long stems, and very graceful. See engraving. They keep well when cut, and are excellent to work into designs or bouquets. 50 s. 5c.

To Destroy Beetles.--To get rid of the beetles that eat the Aster and Dahlia flowers, as also to destroy the Mexican Bean beetle, place some Slug-shot in a coarse sack and shake over the plants. The thin film of dust thus deposited is a complete remedy. "Slug-shot" can be obtained at almost any drug store. This is not a paid-for notice, but the remedy is so effective I want my friends to know of it.

Charming Trionum

Hibiscus Calisureus is a well-known hardy annual from Africa, 2ft. high with rather showy white flowers. From this species, however, has been developed the elegant Hibiscus Trionum, branching and bearing flowers 6 inches across, pleasing white with an attractive dark center as shown in the engraving. This flower is very beautiful, blooming freely for a long time during Summer and Autumn, new flowers opening for several hours every day. Sow in Spring or Fall. Once started the flower will take care of itself. Give it a trial. 5 cts.

Hibiscus Coccineus.--This remarkable plant, so rarely seen in Europe, is now in bloom in Kew gardens. It is a herbaceous perennial growing 8ft. high, the flowers not unlike those of the Chinese Hibiscus. The stems are tall and slender, with leaves like those of Hemp. It is a native of Florida and is not hardy at the North. Being so handsome, both in foliage and flower, it is quite worthy of general culture. English Garden.

The Glorious Sunset

You may apply this to the very attractive flower represented in the engraving. Hibiscus Sunset is an improved variety of Hibiscus Manihot, a species found in Eastern Asia. The plants start readily from seeds and bloom during Autumn, the big yellow flowers with a central crimson eye coming in clusters at the tips of the branches. May be grown in pots as well as in garden beds. Plants grow from 6 to 12 feet high, and the flowers are from 6 to 7 in. across and quite attractive. 40 seeds 5cts.

● **Pot Marigold.**--We sowed patches of this annual (Calendula) in the kitchen garden in April, and the plants began to flower in July, and kept in bloom throughout the season. At times they bloomed more freely than any other annual, and the large flowers were exceedingly showy. I do not know of a better late-flowering annual. E. Garden.

Note.--I have all the improved varieties of the old Pot Marigold (Calendula). See page 29. They are also fine for window pots in Winter. Park.

About Bodgers and Their Seeds

YEARs ago I dealt with John Bodger, the founder of the Bodger business and the father of the members of the present firm. I found him an honest and honorable seed-grower, and his seeds could always be depended upon for vitality and quality. When he passed on he left a noble heritage to his family in like inherent virtues, as well as a prosperous business. That business is today a leader in the seed industry, enterprising and progressive; and everything they introduce and recommend is outstanding and acclaims the attention of the most wide-awake and up-to-date horticulturist in the world. It is my great pleasure, therefore, to offer their products to my friends because I know they will give unbounded satisfaction to all who get them. Let me mention and recommend here a few of those products:

Bodger's New Wilt-resisting Double Asters. Away

back in my boyhood days I grew glorious beds of Asters and we never knew anything of Aster disease or wilt. Recently, however, the plants become diseased just when the buds are beginning to open, the leaves wilt and the plants die, if grown from ordinary seeds. The Bodgers, realizing this condition, have, by painstaking efforts and experiments, developed a way of overcoming this trouble; and once more we rejoice in being able to grow healthy and vigorous plants and flrs from Bodger's seeds. This has proven a great boon to the hosts of Aster-loving people who were discouraged by their efforts with the common Aster seeds. But this was not all. By energy and skill they so improved the Asters in cultivation that we have today the very finest strains of dble Asters known. I will not enumerate them here, but refer you to page 27, where I offer and describe the best of these strains. My earnest advice is to get and sow only wilt-resisting Asters if you would avoid disappointment.

Bodger's Dahlia-flowered Zinnias. These, developed by Bodger's from the common double sorts are marvelous in size, form, and range of shades and colors. The plants are vigorous, branching and wonderfully free-blooming, while the flowers are showy as Dahlias and almost as large. The Bodger's have not allowed the flowers to deteriorate, but have constantly given them the best attention and have improved them in size and general beauty from year to year. Today these Zinnias are perhaps the most popular annual flowers under cultivation. They have no enemies, begin blooming early and continue to bloom throughout the season, becoming more showy and beautiful with age. On page 50 I offer these magnificent Zinnia seeds of the new improved crop from the Bodgers, and every seed can be depended

upon for a fine plant and elegant flowers. I have all the new shades and colors, and they are all included in the fine mixtures which I supply. Sow only Bodger's Zinnia seeds if you want the best results.

Snapdragons. The Bodgers are now giving special attention to Snapdragons with a view of developing rust-resisting seeds of the finest named varieties, as we now offer Aster seeds. The rust is not as troublesome yet among Snapdragons, so that they can be satisfactorily grown from imported seeds of Snapdragon specialists. It is probable that err long the disease will become general, a condition much to be regretted.

Bodger's Double Nasturtiums. The latest Bodger product is the improved double Nasturtiums in many bright and charming colors. Golden Gleam, introduced by them several years ago, created a sensation, and it is indeed

a grand acquisition for both greenhouse and garden. But this year new colors and shades some with peculiar and rich markings, surpassingly attractive and pleasing, are offered. And what is more, the flowers are giant in size, borne on long strong stems and produced in great abundance. They also show new shades of color not to be found in common Nasturtiums. If you want the finest bed of double Nasturtiums, be sure to get Bodger's new mixture. You can depend upon the seeds producing double (not single) flowers of the many rich colors, and not a great surplus of the Golden Gleam variety which you may expect from other mixtures. I am glad to offer Bodger's Gorgeous Gleam Hybrids in mixture prepared by the Bodgers for my use. I offer them with confidence that you will be more than pleased with the re-

sults. This should be a "must have" in every order. Each packet of seeds 5c.

Bodger's Gold Medal Dahlias. These also should be mentioned as the Bodger's Dahlias are unrivaled in size, variety of colors, and charming graceful form. The climate of California is just suited for the perfect development of these flowers, and the seedlings afford the happiest results.

Now, in closing I want to say that Mr. John Bodger, a senior member, has just made a tour of the world, going to Australia and from there to some of the leading florists in the world with a view of getting information about foreign gardens and their products and getting a knowledge of new and rare flrs that would be an acquisition to our present subjects. We may, therefore, look forward to other introductions of high character from this energetic and wide-awake firm during the coming months. It is a model of enterprise, activity and skill.

BODGER'S MAMMOTH PERFECTION ASTER

Note: The above beautiful original engraving was prepared for me by the skillful flower artist Mr. Ousey. He drew the flowers on fine boxwood and carved every line with little tools made for that purpose. The fine art of wood engraving is passing out, being replaced by photo engraving, which in my opinion does not generally show the subject so plainly or satisfactory. PARK.

Showy Vine, Delicious Fruit

I offer a rare and handsome ornamental vine from Asia, grown largely in China for ornament and fruit. It is thrifty and vigorous, climbing over the ground or upon a strong trellis. The foliage, 8 or 10 inches across is attractive, the rich golden flowers 4 in across, showy and freely produced, the large watermelon-shaped fruits, 12 to 16 inches in length, are pure white when ripe, being covered with a vegetable wax that is peculiar and interesting. The vines elicit much admiration and praise when properly trained, being something entirely new. The fruits are edible and used for pies, sauces, and are much prized for these uses. Plant the seeds edgewise in a deep rich sunny bed and water in time of drought. Treat about as you would watermelon. Packet 5cts. See page 51. Mrs. Jones of Illinois writes:

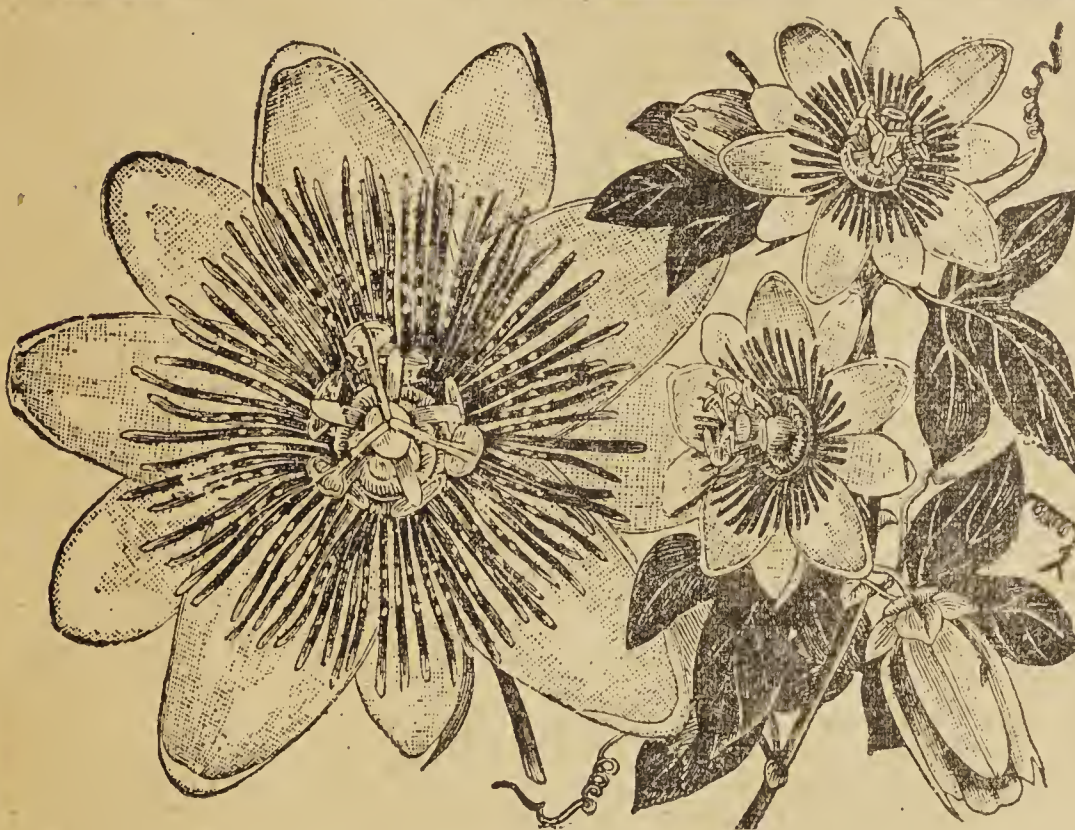

Dear Mr. Park: My Benincasa Cerifera, or wax gourd, had many admirers for its flowers, foliage, and fruit. I made preserves from the fruit and they were delicious. My tree tomato, Cythomandra, plants also had many admirers. Your seeds have aided many I know, and here is a prayer that you will long continue actual supervision. Mrs. H. Jones, Lake Co., Ill., Feb. 1934.

Beautiful Flowers AND Delicious Fruits

Why not grow both on the same vine? You can do so by sowing seeds of Passiflora Edulis, as shown in the illustration. The large, egg-shaped purple fruits are delicious as a dessert. The foliage is also charming, and no vine will excite more admiration or praise, as well as curiosity or interest. Add it to your order. Seeds are large and plants of easy culture. 15 seeds. 5c.

It is hard to give a reason for the neglect of this vine for its fruit, as it bears enormous crops of the most luscious fruits, a valuable addition to the dessert. Its culture is of the simplest, requires but little care, thrives and bears three crops a year. E. G.

THE GOLDEN THISTLE — A NEW VEGETABLE

Scolymus Hispanica is the Golden Thistle, popular in Spain as a vegetable. The plants grow 2 ft. high, branch freely, the foliage variegated and spiny, the flrs are thistle-like in form and golden yellow; the fleshy roots, 1 in. in diameter, are used like Salsify or Cardoon and can be dug and stored for Winter use, when so desired. They like a rich deep soil and sunny situation, and are of the easiest culture. The plant is rare in America, but might become popular as a vegetable when better known. Try it. 100 seeds 5 cts.

Nierembergia Frutescens.— One of the most enduring and handsome of perennials is *Nierembergia Frutescens*, a shrubby species from Chili. Easily propagated from seeds, the little plants soon begin to bloom, and keep blooming and increasing all season. They grow two feet high, become a mass of slender, flax-like branches and foliage and produce lovely cup-like blue flowers an inch across, which at a distance appear as a fluttering swarm of pretty butterflies. In Winter the plants retain their handsome green color, and quite early they don their fresh foliage, and swing their exquisite chalices to the breeze. My friends, if you want a charming everblooming perennial for either house or garden, here it is. I am sure if you knew of its beauty and usefulness you would not be without it. It thrives in heat or cold, rain or drouth, sand or clay, cultivated or neglected, has no enemies, increases from self-sown seeds, and is always profusely in bloom. It never tires nor sulks, but greets you with a nodding, loving smile every time you come into it's presence. Requires protection at the North.

Interesting Letters from Pleased Patrons

NOTE: I began business when a farm boy, sixty-six years ago. My first advertisement was a seed collection offered in the Rural American then published at Clinton, New York by T. B. Minor. The next year I selected four papers from the list of Geo. P. Rowell, then starting in the advertising business at New York. In 1870 I began the monthly publication of Park's Floral Magazine which I continued to edit and publish for 47 years, the circulation attaining 600,000 monthly. During that long period of business I made many warm friends, whose friendship was feelingly reciprocated. Many of these valued friends are still living, and my life pleasure is often enhanced by their interesting letters, a few of which are here published. GEO. W. PARK.

Fascinating. Dear Mr. Park: A friend got two copies of your flower book and gave me one, the first I had seen. I have been pouring over it all afternoon. It's the most fascinating flower catalogue I ever saw, and I see a great many. I should like six copies of your catalogue for members of our club who order seeds as I would like them to be benefited by your large and varied stock as well as prices. Mrs. J. P. Metzger, Washington Co., Tenn., March 15, 1934.

Will Order No Others. Dear Mr. Park: Last year a friend wrote me of your good seeds at such low prices, and I ordered a good many from you. They gave me such satisfaction that this year I shall order no others. I am glad to have my friends receive the same information that I feel most grateful for myself. Mrs. W. D. Kauffman, Rockingham Co., Va., Mar. 24.

Park's Magazine. Dear Mr. Park: I have been your patron for 40 years, and enjoyed your floral magazine during that time. It was a companion to me for many years, and I was with you in imagination in your travels, and always enjoyed your letters about them so much. I regret that Park's Floral Magazine is not still published, as it was truly appreciated. Mrs. R. McIntosh, Adams Co., Colo., Feb. 16, 1934.

An Old Patron. Dear Mr. Park: An appreciative customer of yours handed me your 1934 Flower Book, and I am glad to get in touch with you once more, as I had lost your address. I bought seeds from you when you were at LaPark, Pa., and read your floral magazine for years. I am glad to know you are still selling good seeds and publishing a Flower Book. You will have me for a regular customer in the future. S. Bolling, Matagorda Co., Texas, March 15, 1934.

70 Years. Dear Mr. Park: I had the loveliest flowers from your seeds last year and such lovely big Dahlias! But you know how pleased I have always been with everything I bought of you, the first more than 35 years ago at Belvidere, Ill., and every year since except two. I have so many different kinds, which I could not have afforded if I had to pay the high prices most seedsmen charge. I will be 70 my next birthday and hope to be able to buy seeds of you for a while yet. Inclosed find money order for \$4.90. Mrs. J. Konzelmann, Outagamie Co., Wisc., Feb. 14, 1934.

Complete. Dear Mr. Park: I saw your catalogue this year for the first time and to say I was delighted would be putting it far too mildly. It is by far the most complete flower catalogue I ever saw. I wish your catalogue had reached me sooner. A. Windsor, Macoupin Co., Ill., March 31, 1934.

Happy. Dear Mr. Park: You can never know how happy your Flower Book made me. I was five years old when you went into business. Thank God for such a man as Park. Here's wishing you many more years of service. F. A. Miller, Los Angeles Co., Calif.

A Great Pleasure. Dear Mr. Park: Many, many years ago when I was a girl my mother bought seeds and plants from you, and it has been a great pleasure for me to buy seeds of you for the past few years. I am also glad to find so many kinds that are not in usual seed lists and at so moderate a price. You surely are helping to make the world more beautiful and a better place to live. C. McIntosh, Summit Co., O.

50 Years a Patron. Dear Mr. Park: I want to say I bought seeds of you 50 years ago, later I lost track of you, but a few years back some one sent me one of your catalogues and I've ordered seeds of you ever since, and have found them equal, if not better, than the higher priced seeds of other seedsmen. I find your packets are large enough for home use. C. M. Armstrong, Mercer Co., Ill., March 10, 1934.

Nemesia Strumosa Nana Compacta

This supremely handsome annual was found in South Africa and improved and introduced by Sutton's of England. I offer further improvement in Nana Compacta the flowers of which are large, showing a wonderful range of colors and variegations and produced in huge clusters in marvelous profusion. It rivals Annual Phlox for beds, and inspires the most enthusiastic admiration. I offer a splendid mixture of the best strains that will give untold satisfaction and pleasure. Geo. W. Park.

Germination. Dear Mr. Park: Your seeds show marvelous germination. Some I sowed on March 27, setting the box aside, and within five days I chanced to look at it and to my surprise it was green with tiny young plants. I have transplanted Asters, Pansies, Stocks, Carnations, and nearly all are ready. Think of it! And planted Mar. 27. I surely wish your Flower Book had been mine earlier in the season. H. Rees, Peoria Co., Ill. Apr., 1934.

Wonderful. Dear Mr. Park: Your catalogue is wonderful. I have never seen so many varieties listed by one place, and it is a mine of information. I am looking forward with great pleasure to trying your seeds. Mrs. J. B. Hawley, Nassau Co., N. Y., March 1, 1934.

Instructions. Dear Mr. Park: Due to your very careful coaching I am having most excellent results with your seeds. I have never before had such teaching. Your instructions alone are worth many times the cost of the seeds ordered. Be sure if failure results, I think neither you nor I will be to blame because I intend to follow your instructions as religiously as you have given them. J. S. Holt, Butler Co., Pa., May 5, 1934.

Better than a Novel. Dear Mr. Park: How I have enjoyed your comprehensive and delightful catalog! It is better than a novel, really you should charge for it. I just can't see how you can offer seeds for 5cts a packet of such varieties as Saintpaulia Ionantha, Gloxinia, Cineraria, etc., that I have paid 35 to 40cts. a package for of others. You are doing a really wonderful thing for us flower lovers. May God bless you! While this is my first acquaintance with you, Mr. Park, I feel as if I had known you for many years. D. Crittenden, Bristol Co., Mass., Feb. 20, 1934.

Plants Galore! Dear Mr. Park: Your seeds are coming up wonderfully. I never saw so many small seedlings and plants from each package of seeds. I have told many friends about them and some want your catalogue, so I am giving you their names. W. Wilkins, Middlesex Co., Mass., May 25, 1934.

75 Years. Dear Mr. Park: I am again ordering a few seeds, not many as I am now 75 years old and cannot care for so many as formerly. I cannot find words to express the happiness and satisfaction I have had with your seeds, and with the Floral Magazine you used to publish, copies of which I have to enjoy back as far as to the '80s. You surely have been a blessing and a benefactor to mankind, and I trust your last days will be peaceful, pleasant ones. Augusta Lockwood, Mercer Co., Ill., May 25, 1934.

Like a Letter. Dear Mr. Park: When your Flower Book arrives it is like a letter from a friend and is even more lasting, for one does not read a letter for a whole year, and that is what I do with your catalog. My Pansies and Asters from your seeds were wonderful. Some of my things have not bloomed yet and some I lost, but on the whole my seeds pay me a rich dividend, not in money, but better. Mrs. E. Rhoads, Berks Co., Pa., Feb. 16, 1934.

Wonderful. Dear Mr. Park: Your seeds have been wonderful this season. The Centaurea, Picotee Zinnias and Scabiosa-flowered Zinnias are a revelation. The Zinnia shows a formation that is new to me, and has been much admired. W. H. Ford, Lake Co., O.

About Dahlias. Dear Mr. Park: I want to thank you for the nice Dahlia tubers I received a few days ago from you. They were packed the nicest of anything I ever sent for, not a sprout broken. I shall enjoy watching them unfold later on. Mrs. Frank Howard, Kennebec Co., Me., June 11, 1934.

More Dahlias. Dear Mr. Park: I have received the Dahlia tubers and am more than pleased with the size and condition of them. I got Thos A. Edison from you for 60cts., but paid \$1.00 for it from another company. You may be sure of receiving a much larger order from me next Dahlia season. Mrs. Mary Valiekes, Middlesex, Mass.

Dependable. Dear Mr. Park: You will be interested in this report: I have 70 plants of Bodger's Giant Aster all about 3 feet tall, and all budded, ready to bloom in about 10 days. I also have 62 Hufeld Giant Daisies, 42 Salmon Queen Pinks, 37 Bismarck Giant Stocks, and 40 Cheiranthus Allioni plants, 6 of which are in bloom, lovely orange blossoms. The Golden Gleam Nasturtiums are beautiful; I shall always have a few of them. My Dahlia-flowered Golden Zinnias were beauties, perfectly double to the center. I shall always send you my orders. C. Leyda, Calhoun, Mich.

Park Gets the Order. Dear Mr. Park: As planting time approaches we study the seed catalogues to select our seeds for the new season. Some are very fancy, some less so; but after going through some 20 or more times we get down to real thinking, and send our order to Geo. W. Park, Greenwood, S. C., whose offers, descriptions, wood engravings, and prices are really the most attractive. At my advice some friends ordered seeds of you last year and I hope more will do so this year. Mrs. R. Miller, Stutsman Co., N. D.

Passiflora Edulis. Dear Mr. Park: I raised a number of plants from the Passiflora Edulis, and they are now growing in large pots. How should they be cared for in Winter? Miss M. Loew, Cuyahoga Co., Ohio.

Answer. Started early in Spring and given a rich sunny bed, this Passiflora will bloom the 1st year. It is a true perennial, however, and the plants grown in pots can be set in a cool room or an airy cellar and watered sparingly, to be planted out in Spring, when they will produce their showy flowers.

A Good Letter. Dear Mr. Park. We have something like twenty different kinds of your seeds planted or seedlings just started, and will say that we are very much pleased with your seeds which we have now used for the second year and find that they are just what you represented them to be.

Petunia. Our Giant Ruffled Petunias are exceedingly nice. We potted in three and four-inch pots about forty plants from our first planting of seed, they made a wonderful growth, some of the plants are now 24 inches high. I had read of Petunias grown in pots that made six-inch flowers and could not be satisfied until I tried it. We have succeeded in getting flowers more than six inches in diameter. One in particular, an old rose color with almost black throat, very heavily veined, and was six and one half inches across this was admired by every one who saw it. We now have more than 140 plants growing out in the open garden that are very nice, some of the plants are more than one-half inch in diameter of stem, and about one foot high with great big broad, thick leaves and are showing many buds now. These were from a later sowing of seed than the potted plants spoken of.

Pansy. Our Pansy bed of Mette's Ruffled Giants is sure a thing of beauty, most of the plants have from ten to fifteen open flowers all of the time. We keep

them cut pretty often and they just keep coming; some of the flowers are three inches or more across. They are the first ruffled ones that any one around here has seen; hence, they are quite an attraction. See page 43.

Violet. And the Eureka Violets, my what beauties, and how people do marvel at them, they being something entirely new here. Our seed came fairly true, there being only a few rogues to appear, and they are pretty, so we are well pleased. Pg 49

Dianthus. Our bed of about one hundred plants of the Japanese Dianthus is a riot of color with its hundreds and hundreds of flowers, no two plants have flowers alike. One can spend hours looking at them and studying the different color combinations and the wonderful markings of the different flowers; some of them are very double, almost like a Carnation. P 34

Tithonia. I must tell you about our Tithonias. We planted the seeds April 16th; the first flower was fully open on July 5th - just 80 days from planting. My what growth they made; they were 8 feet high with branches 4 to 5 ft. long and covered with hundreds of blooms all Winter, and are still full of blooms at this writing. They are a fine flower for this section. Pg. 47.

Zinnia. The Zinnias we bought from you surely did well; we had our first bloom about the first of May; cut one bunch of twelve blooms, the smaller of which was more than six inches across. The County Demonstration Agent here held a flower show the first of July. We entered 36 different containers of flowers in all, most of them Zinnias. We exhibited 15 different named varieties from Bodger's seeds, the Early Wonder and the Baby Zinnias. Our exhibit looked more like a table of blue flowers than anything else after the judges got through attaching blue ribbons. Strange as it may seem to you, there has not been a day since the first of May that we have not had one or more Zinnia blooms in our garden; up to the present day, and we could cut a fine bouquet today. They come up from seeds from the older plants and grow nicely and bloom freely. Of course, we have had no killing frost here this Winter so far. Page 50.

M. J. Stout, Osceola Co., Fla., Mar. 10, 1934.

A Splendid Annual

Here is the rare and charming Obelisk Flower. The showy velvety brown Obelisk with a circle of red petals drooping from its base, each petals margined with a distinct broad gold band; strikingly attractive. These odd and beautiful flrs. are borne on long strong stems and are fine for cutting, as well as for beds. Anyone can grow it and I wish every one of my patrons to have it. Do add it to your order. 30 s 5cts. See page 42.

THE FINEST KNOWN DELPHINIUMS

I offer the Finest Strain of Hybrid Delphiniums known, and at the head of the list is Vis Bros.' Improved Mastodon. The plants of this superb strain grow from 5 to 7ft high, are hardy and stool out into several strong branching stems, each of which bears an immense spiral-like truss of huge single or double flowers. These embrace a wide range of colors from white to indigo blue, many with shadings of pink, violet, red, and black in the most exquisite contrast. If the trusses are freely cut, so that seeds are not developed the plants will keep in bloom throughout the season. This splendid strain of Hybrid Delphiniums can hardly be surpassed, and I am glad to offer new-crop seeds direct from the Vis Gardens, saved from their best plants and flowers. Packets of 60 seeds 5cts.

Blackmore and Langdon Strain 50 seeds.

Hurst's Monarch Strain. Of this high class strain, Hurst says, "this is the finest of Delphiniums extant, many of the plants in our seed-beds this season were equal in merit even to the latest introduction in Delphiniums." Reports on Hurst's Delphiniums, coming from my patrons, attest their high quality. Here are some of them:

Delphinium. Dear Mr. Park: The Hurst Delphinium seeds I purchased from you last Spring germinated nearly 100%, and last Fall the seedlings produced the most beautiful flowers I have ever seen, on four foot spikes. I want to try more this year. Mrs. H. P. Conrad, Saint Clair Co., Mich., Jan. 20, 1934.

Dear Mr. Park: I wish to tell you at this time of the beautiful Delphinium blooms I had last year from seeds sown in the Spring. The seeds came up so well I was really surprised at the large number of plants I had from one packet of Hurst's Monarch seeds. The flowers were so large and of such varied colors. L. M. Wegner, Lenawee Co., Mich., Feb. 6, 1934.

Dear Mr. Park: From the seeds purchased of you last year I had very satisfactory success. Both the Delphinium Iceburg and Monarch grew and bloomed late in the Fall. The Mette's Giant Pentstemon was very much admired and took second place at the Flower Show. Mrs. J. Braun, Stillwater Co., Mont.

Dear Mr. Park: I must tell you how wonderful my Delphiniums were grown from your seeds, the first were so large, and in fine big spikes. We can hardly wait to see if the plants survive the Winter. The Eureka Violet plants did not all come true, but I never saw so many flowers. I had the most beautiful Pansies, they were still blooming when snow came. Mrs. F. D. Mack, Wabasha Co., Minn., March 5, 1934.

New Charming Carmine Globe Verbena

A good compact dwarf Verbena superior for beds has long been in demand and I am pleased to offer here a splendid variety that "fills the bill." The plants start readily, quickly come into bloom, and branch freely at the base forming a mass of leafy stems, each tipped with a huge cluster of bloom, color bright lustrous carmine, vivid and beautiful. The plants form a globe ten inches high and one foot across, dense and literally covered with bloom-clusters throughout the season. Often from 50 to 60 trusses open at one time. Nothing in the way of a bedding Verbena approaches the beauty and showiness of this elegant variety. But while so valuable for beds or borders, it is equally adapted for pot culture and is a charming window plant for Winter blooming as well as for porch decoration in Summer. You should have this magnificent Verbena. Don't omit it when ordering. 40 seeds 5cts.

Benary's Super-Giant Double Fringed Petunia

Mr. Benary of Germany is a famous specialist in Petunias and his Super-Giant Double Petunia raised by careful artificial fecundation is the top-notch of Double Petunias. The flowers appearing like great feather-balls in white, rose, crimson, violet and intermediate shades and often with lovely variegations. My seeds are grown by Mr. Benary, a man who would not allow his reputation to be sullied by inferior seeds. You can therefore depend upon getting the best in Super-Giant Double Petunias when you buy of me. Being fresh they are sure to grow and produce the finest and largest flowers in all the lovely colors and variegations. 25 seeds only 5cts, 125 seeds 20cts. See page 45.

Double Petunias. Dear Mr. Park: My Double Petunias from the seeds I bought from you were extra fine and of all colors. In the porch boxes I trained some branches up to the eaves, some people passing thought they were a new kind of wall shrub. Some branches of the Petunias measured 6ft. from the soil in the box. The flowers were as large as saucers and admired by all who saw them. Mrs. Rosa Trinckel, Angelina Co., Texas, Jan. 28, 1934.

Hufeld's Super-Giant Daisy

When the Monstrosa varieties of *Bellis Perennis*, the double English Daisy, were developed we thought the last stage of improvement of that splendid perennial had been reached; but here comes that German hybridizer, Fritz Hufeld, with a Super-Giant race that surpasses all others. He calls it "Le Grand Fuselier," and describes it as follows:

This is the largest English Daisy in existence. The enormous full-double flowers give rather the idea of a finely-formed Double Aster than that of an English Daisy. The first flowers measure from two to two and a half inches in diameter, being borne on strong stems a foot in length. This race is unsurpassed in regard to size and the perfect form of the absolutely double flowers.

I supply seeds direct from Mr. Hufeld, Pure White, Pure Rose, or in Complete Mixture. 300 seeds 5 cents.

Also Hufeld's *Glory of Frankfort*, dark red, quilled, the only dark red Daisy; makes a charming border, fine for cutting and decorations.

Hufeld's *Giant Chevreuse*, the new Italian Daisy, bears bright red flowers of enormous size.

THE BEAUTIFUL MAJESTIC SNAPDRAGONS

These are a wonderful improvement over the old-fashioned varieties. The flowers are larger and come in great abundance. They belong to the intermediate class, the plants being about 18 in. high, branching freely and producing immense trusses of bloom. If these are kept well cut, the blooming season will be greatly prolonged. They are gorgeous in beds and equally desirable for pots or in the greenhouse. The flowers are fragrant and come in all shades and variegations; they are exceedingly attractive and very desirable for cutting as the trusses are on long leafy stems and last well when cut. These Snapdragons are about as near perfection as can be obtained. They have developed every element of a first class flower and are of easy culture, the seeds starting readily and the plants growing freely even under adverse conditions. They are hardy and will endure the Winters if not allowed to exhaust themselves blooming the first season. If you buy only a half-dozen packets of flower seeds this year, one of them should be mixed Majestic Snapdragons. The blooming plants will be a source of much enthusiastic pleasure to you and your friends. See page 26. Complete Mixture 5cts. I can also supply the following novelties: Dawn O'Day, pure apricot; Evensong, chamois-pink and buff; Fair Lady, flesh pink and rose; Rosella, glowing rose. Each 5 cts.

ILLUSTRATED NOTES AND COMMENTS

Cuphaea Miniata. This, shown in the little engraving is an annual not well known, but deserves a place in the garden. It can also be grown in pots in Winter in a window. The flowers are showy and pretty, and produced for a long time, decorating the garden or window with flowers that are rare, bright and pretty. There are a number of other species, all of

which are worth growing, but the best known and most popular is Cuphaea Platycentra which is a favorite greenhouse plant with pretty scarlet flowers, tipped with black and often called Cigar Plant because of its peculiar-shaped flowers. This species is hardy in the South, but will not endure the Northern Winters. A mixed packet includes all the kinds and is always a source of pleasure. See page 33.

Gourds. The Gourds are a very ornamental class of plants but mostly rather coarse in foliage, the fruits, however, are of many different shapes and colors and the various kinds are a source of pleasure and admiration. The dipper Gourd includes many varieties, all with different formed fruits. The plants grow 10 to 20 ft. in height, have pretty white fringed fragrant flrs. and are useful for covering a trellis or Summer-house.

While the fruits when ripened, can be kept and used for various purposes. The small bitter box or toy Gourds do not need a trellis as they thrive trailing over the ground. The little fruits in many shapes, colors, and markings are valuable as children's toys, and a little basket filled with the various kinds is interesting for the library table. The larger fruits known as Pumpkins, Squashes, etc. are edible and valuable for table use as well as for feeding stock. Always add at least a packet of mixed Gourds to your order. See pages 52 and 53.

Salpiglossis. This is one of the beautiful little annuals too much neglected. The flowers are Petunia-like in form, delicate in texture and their rich colors are gracefully penciled and marked, so that they are greatly admired. Plants grow 2 feet high, bloom freely during Summer, and when set 6 inches apart in the bed they make a fine display. Their exquisite beauty and easy culture commend them to

all who grow outdoor plants. See page 46.

New Campanula. On another page I offer the Campanula Medium, that blooms the first season when started early. This is a very desirable Canterbury Bell and should become popular. All the colors are represented and I feel that this is a very valuable novelty deserving a place in every garden. Page 30.

Browallia Elata. Another little flower that does well in beds or window pots is Browallia Elata. It is everblooming, and the flowers are mostly blue and white. As window plants they are always in flower, even under unfavorable conditions, a quality that makes it a favorite for that purpose. The new Browallia Viscosa is more compact in growth and much more free-blooming. It will doubtless displace the older varieties because of these desirable qualities. See page 29.

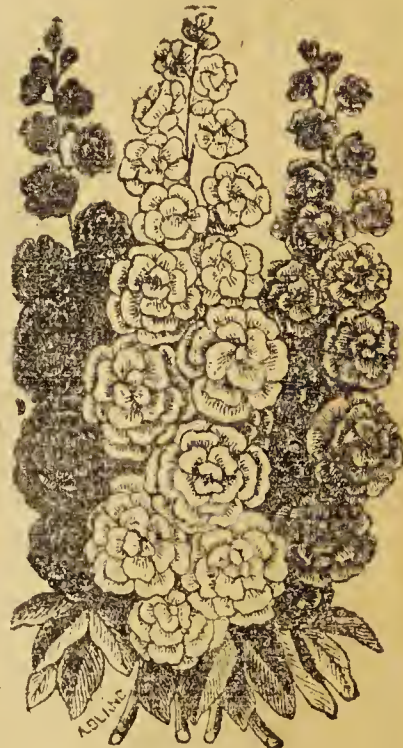

Annual Chrysanthemum. These are flowers of the easiest culture blooming freely throughout the

Summer, and making a fine display in garden beds. The little engraving shows a Chrysanthemum Tricolor (Carinatum), the flowers of which are variegated white, yellow, and red. Lord Beaconsfield is the best of these in singles. 5c. There are also double varieties which are perhaps more showy. C. Coronarium has flowers of various colors from white to orange. Seeds of

these germinate readily and plants are easily transplanted. Set them 8 or 10 in apart. See page 32.

Ten Weeks Stock. Why this annual is not more popular seems a mystery. It is of easy culture, not troubled with diseases, and possesses all the elements of a perfect pot and garden flower. The flowers are full double, fine in texture, bright in color, and remain in bloom for a long time. Started in Spring and transplanted 8 in. apart the dwarf kinds make a showy beautiful bed blooming throughout the season. Their fragrance makes the garden air redolent with delicious perfume. The improved Bismarck varieties are unsurpassed for growing in the conservatory or greenhouse. Mr. MacDonald of California has been giving special attention to this flower, and his strain is world famous, meriting enviable awards from prominent societies. On another page I offer his best strain, the seeds coming direct from Mr. MacDonald. They will not only be sure to grow, but will produce the finest spikes and flowers. There are no better seeds than these, and I offer them with pleasure, knowing that they will be a source of delight to all who get them. See page 47.

Clintonia. A very pretty little plant for a pot or basket is Clintonia Pulchella. It is not unlike Lobelia in growth and flower, as will be noticed from the little illustration. The seeds are small, start readily, and the plants soon begin to bloom stooling out and blooming freely, thus making a fine display as a bracket or pot plant. It is rare and always attracts attention and admiration by its graceful sprays

of handsome blue and white flowers. It is one of those graceful little plants that every one admires, and deserves to be added to every good collection. P. 32.

Calandrinia Grandiflora. A pretty little hardy annual that should be more popular is Calandrinia Grandiflora. It

is a little spreading succulent with charming rose colored cup-shaped flowers in clusters, and when grown five or six inches apart in a bed will cover the ground like a carpet. Seeds

may be sown early in Spring or in Autumn. When Autumn-sown the plants bloom early and keep up the display until warm weather. It is desirable as an edging as well as for rock work; likes sandy soil and a sunny situation. See page 29.

Lychnis Haageana. This is a flower of more than ordinary beauty, being an inch or more in diameter, and coming in many lovely colors from white to scarlet. The plants bloom the first season, and in a mild climate will endure the Winter. It is one of the good flowers easily grown from seeds that is rarely found in gardens. Plants grow from one to two feet high, does well in ordinary garden soil and produces a wealth of bloom from May to

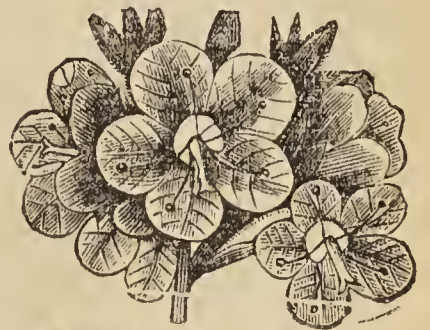

July; a splendid border plant. See page 39.

Thunbergia Alata. This is a first class vine starting readily from seeds and blooming throughout Summer and Autumn. It is a handsome trellis vine blooming freely and continuously, flowers, an inch across, white and yellow, often with a dark center. In Fla. it is a perennial and will climb 50 ft. high blooming more or less throughout the Winter and Summer. When making out your order don't forget to add the beautiful Thunbergia to your list. See page 53.

Dianthus Barbatus, Sweet William. These old-fashioned flrs. have been greatly improved in size, color and markings. These deserve to be in a garden bed because of their beauty, showiness and delightful fragrance. See page 65.

Eutoca Viscida. A little hardy annual of more than ordinary merit is Eutoca Viscida. It grows 6 in. high, each plant becoming a clump of exquisite blue flrs. with prominent white anthers, attracting admiration and praise, not only on account of its lovely little bells in clusters, but because of its intense rich blue color so rare among flowers and so much sought for. Sow seeds early in Spring. The plants soon begin to bloom and increase in beauty for some weeks, it deserves a place on your list. See page 35.

Hollyhocks. These are showy garden plants of great beauty, some varieties will bloom the first season, but all of the elegant improved varieties will bloom freely the second season if started before mid-summer. If not allowed to form seeds, and the plants cut back, a few will live over the second winter and bloom more or less during the third year. The so-called annual Hollyhocks should be started in Spring or Autumn. The finest varieties, however, should be treated as biennials. The seeds germinate

well in Spring or early Summer, and in their rich, sunny bed will make a display the second year.

Hollyhock. Dear Mr. Park: I cannot say enough in praise of the Hollyhocks I got of you, of the beautiful shades and the satin texture of the petals. They were excellent. Mrs. A. Gagne, Worcester, Co., Mass.

Kenilworth Ivy. This is a lovely trailing hardy perennial useful as a covering for a rose or gladioli bed or for covering bare spots that would otherwise be unsightly. It is also a beautiful basket or bracket plant, the sprays hanging over the sides gracefully, the foliage and flowers being delicate and pretty. It will thrive in a dense shade where the sun never reaches, but will do equally well in full sunshine. It is one of the good things that should be in every collection. See page 38.

Mimosa Pudica. This is the pretty sensitive plant, so called because if the leaves are touched they will close and droop as if withered. The flowers are little pink clusters produced continuously throughout the Summer. A plant in a pot or a clump of plants in the garden is always attractive because of handsome foliage and flowers. The plants are quite hardy and in the South, will reproduce from self-sown seeds, thus saving the trouble of sowing. It is desirable in a garden collection. See page 40.

PARK'S SPLENDID SPECIALTIES

Aster

Bodger's Mammoth Perfection, finest of double Asters. Surpasses all others in size, range of colors, doubleness, perfect form and showiness; glorious in beds and unsurpassed for cutting. Wilt-resisting seeds direct from Bodgers.

Bartonia

Aurea. A beautiful annual, lovely in both foliage and flowers; cup-shaped about 3 in. across, filled with long showy stamens; color, a bright metallic yellow, exceedingly brilliant in the sunshine; thrives in moist sandy loam, but suffers in a drouth.

Abronia

Umbellata Grandiflora, Sand Verbena. A fine trailing plant with clusters of lovely lilac fls. Likes sand and sun. Fine for covering bare spots or for the rockery, also desirable for beds or borders, and hanging baskets; blooms a long time; does well in poor soil. Remove husks before sowing. 20 s.

Balsam

Benary's Camellia-flwd. Balsams are as double as Camellias; are like Camellias in form, waxy in texture, and of the most varied colors. Mr. Benary has given this flower his special attention for years, and his strain is unsurpassed. Plants 20 inches high, becoming wreaths of rich flowers. Don't omit this.

Erysimum

Golden Gem. A splendid little annual 1 foot high. Sown in early spring plants become a mass of rich golden fls. in Autumn, endures the Winter and blooms again in the Spring, or can be sown in Autumn; superb for an edging or the rockery and glorious in beds. It thrives in good soil or partial shade.

Coxcomb

Benary's Improved Dwl. Glasgow Prize Coxcomb is a splendid bedding plant. Seedlings start easily, begin to bloom early, and improve in beauty till frost. Set 8 in. apart; the big crimson combs a foot broad seen against the lovely foliage is showy and greatly admired. Seeds direct from Benary. Fine for pots.

Asperula

Azurea Setosa is a very pretty annual. 1 ft. high with whorls of bristly leaves and clusters of lovely sky-blue flowers that are deliciously fragrant. A handsome plant for the rockery, desirable for groups or borders, also excellent for cutting. This little plant is easily grown from seeds.

Gaillardia

Gaillardia Lorenziana fl. pl. is an everblooming annual a foot high, branching, each branch bearing a big dble. flower, like a Calendula, lasting for weeks. Colors: white, yellow, red, cream, red tipped with white, scarlet with white tip. All in Benary's special mixture I offer. Plants bloom till winter.

Datura

Ceratocaula. This fine, showy annual is 3 feet high, bearing large trumpet-shaped, sweet-scented fls. in pink and white colors. Plants start readily from seeds, branch and are covered from early summer until frost with their sweet-scented blooms. Fine for a background or border.

Annual Phlox

Drummond's Phlox, a favorite for many years, has been greatly improved. The plants are now dwarf and compact, produce larger flowers in larger trusses, and the new colors and variegations are marvelous. For pots or beds they are glorious masses of rich bloom; last for months; showy and beautiful.

Cosmea

Mammoth Late. These Autumn-blooming plants produce thousands of artistic fls., furnishing an abundance of bloom for Autumn decoration. Sow in spring in the open ground, when danger of frost is past, or start plants in a box and transplant. They prefer a rather light soil, but not too rich.

Schizanthus

Recently improved hybrids of Schizanthus have been introduced, but their flowers never appealed to me until the Chislehurst Giant Hybrids appeared, and I confess it was a case of "love at first sight". I enthusiastically declared they surpass all others. Get seeds I recommend; you will thank me.

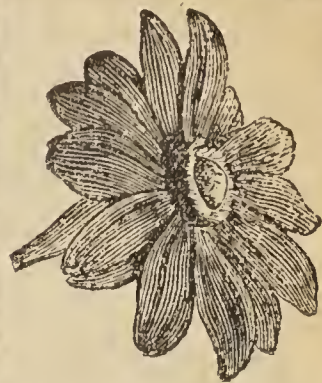

Dianthus

Nobilis, fl. pl., the glorious Royal Pink. Plants bushy, thrifty, free-blooming, flowers large, full-dble, of fine form, showing rich lovely colors from white to deep crimson, exquisitely variegated, and splendid in beds, fine for cutting. This is one of the most beautiful of Pinks, the seedlings bloom early. Mixed 100s.

Tithonia

Speciosa. A beautiful half-hardy perennial, blooms freely the first season; grows 12 feet high, branching, and each plant becomes a pyramid of elegant rich scarlet flowers the size of a Zinnia. It is unexcelled for a back-ground, and will add more beauty to your garden. Don't overlook it. 35 seeds 5c.

Marigold

Fistulosa [see eng.] is the prettiest of all the Marigolds and always admired. Plants are free and continuous-blooming and showy in beds. I offer here a fine mixture of the best seeds saved from selected plants; they will prove a garden delight. Don't omit this splendid Marigold.

Pansy for Beds

There is no more charming or attractive flower for beds than Vis' Bedding Pansies. Plants should be 5 in. apart, and the large, bright, deliciously scented flowers make a glorious carpet. Started early the plants bloom in June, and later sown in September they bloom early in spring.

Amaranthus

Sunrise.—This is one of the showiest and most beautiful of variegated-leaved annuals. The plants grow three feet high, the foliage is bright crimson and golden yellow richly contrasted with green, will grow in rather poor soil and in full sunshine the colors become more brilliant.

Mignonette

This is not a very showy annual, but it's handsome spikes of bloom are freely and continuously produced, and the rich odor from the flowers makes the garden air sweet with perfume. The plants grow a foot high, branch into a mass of foliage, with fragrant spikes, red, white, yel.

Vinca Rosea

This is a half-hardy perennial, but seedlings start quickly and bloom freely and continuously the first season. The beautiful Phlox-like clusters, come at the tips of the richly foliated branches and are showy in pots or beds. The plants revel in the hot sun, and stand dry weather.

Mirabilis

This is so easily-grown from seeds and so beautiful that it is always in a list of flowers for children. The plants start quickly from seeds, soon come into bloom, and every evening and morning show an array of beautiful fls. in many lovely colors and variegations. Mixed. See page 40.

Kaulfussia

This is a lovely little hardy annual six inches high, and forms a compact tuft of foliage, making a carpet of purple, azure, white and crimson, showy and beautiful. If Gladiolus bulbs are set among the plants the beauty of the bed is enchanted. Colors separate or mixed. 150s. 5c.

Godetia

These are hardy annuals of great beauty in beds and borders. They grow a foot high, branch and bear their large, showy flowers in abundance, the colors being white, rose and crimson in many shades, some prettily spotted and blotched. The flowers are both single and double. 5c.

Portulaca

The beautiful double Rose Moss. Benary's Prize Strain. The Plants are low and spreading, doing well in most any soil and likes sun. Colors range through shades of red, yel, pink, striped, white, etc. Blooms freely from early summer till frost. A most admirable bedding plant.

Carnation

Chabaud Everblooming, Sluis Bros. Holland Distinct strain. Very large, double richly-scented fls. of the finest texture. Seedlings bloom perpetually in six months. Plants robust, very free-blooming, 90 per cent double; fine for beds or cutting; hardy. Extra Select, of all fine colors, 75s.

VIS BROTHERS' SUPER-GIANT PANSIES

Without Exception the Largest and Most Beautiful Pansies in Cultivation

YEARS ago Mr. John Vis, a florist of Holland, began the improvement of Pansies. His three sons later became partners in the business and continued improvements until their strain is unrivalled today. The plants are of special vigor, excel in hardiness and free-blooming, forming clumps of thrifty foliage, above which the long-stemmed flowers are produced in wonderful abundance so that a bed in full bloom is a glorious sight. But the greatest improvements have been in the flowers, which are of enormous size and exquisite form, while the colors and variegations are marvelous in range, showing many new shades and tints, often with peculiar and distinct markings and blotches, strikingly attractive. The Vis Brothers are Pansy specialists, and their best efforts have been given to Pansy improvement so that their strain is as near perfection as possible. Their climate is just right for the full development of the Pansy, and this has greatly aided them in their work. Their Super-Giant Strain is, however, being increased in beauty and value by very careful selection from the acres of Pansies they have under cultivation. They are intelligent, wide-awake men, and are leaving no stone unturned in Pansy culture and improvement that will add to the beauty, attractiveness, and desirability of their various strains. I offer their seeds with entire confidence, knowing that they are of the new crop and embrace their latest improvements. I hope that every one of my patron-friends will get seeds of Vis' Super-Giant Pansies. I am sure that they will afford much satisfaction and pleasure.

Tufted Pansies.—The Tufted Pansies are hybrids of *Viola Cornuta* and other species. They resemble Pansies in form, but differ more or less in size, foliage, and growth. They come in various self colors, as well as variegations and are well adapted for beds or borders as the plants endure hot sun better than Pansies and bloom freely for a long time. They are easily grown from seeds. 50cs.

The Very Best Pansy Seeds

I wish to state here that all of my Pansy seeds are of the new crop and of the best possible quality. The low price of my seeds is not a criterion of their excellence. There are none better, regardless of price. I do not deal in cheap seeds, but offer the best seeds at the price asked. As to Pansies I refer you to pages 42 and 43. You can absolutely depend upon the seeds there offered. Those who once get my seeds become regular patrons.

Dear Mr. Park: The Roggli Giant Pansies last Spring were wonderful, so large, so many colors and variegations, hardly any two alike. They certainly were admired by all who saw them. Mrs. K. Wittig, Henry Co., Mo., Aug. 27, 1934.

Dear Mr. Park: Last year I sent for some Pansy seeds; they came up wonderfully and blossomed well. They were the best Pansy seeds I ever had. The Monkey Flower (*Mimulus*) came up well and blossomed nicely; the Cyclamen also were beautiful. All of your seeds were good. Mrs. J. Hawkey, Knox Co., Ohio, March 29, 1934.

Finest Bedding Pansies. Pansies excel in beauty and attractiveness when grown in beds, and the seeds I offer are of the finest bedding strains. The flowers are not so large as the special named Pansies but the plants stool out and bloom more freely than the other Pansies, while the fine colors are in great diversity and make a fine display above the foliage. They may be sown in Fall or early Spring, and the plants will bloom freely until hot weather. 200 seeds 5cts., 1-4 oz. 20cts.

PARK'S CHOICE

Dependable Flower Seeds

Part One - Annuals and Perennials Blooming the First Season

NOTE: Feet or inches tell the height of the plants; ha, hardy annual; hha, half-hardy annual; hb, hardy biennial; hhb, half-hardy biennial; hp, hardy perennial; hhp, half-hardy perennial; figures at end of description indicates the approximate number of seeds in a packet. Seeds are measured, count not guaranteed although mostly in excess.

TERMS: 1 packet 5cts.; 22 packets \$1.00; 50 packets \$2.00; 77 packets; \$3.00; 130 packets \$5.00, all mailed. Safe arrival of both money and seeds guaranteed.

✂ Always name a few substitutes in case of shortage; otherwise I will send seeds of my choice, or due cards as the patron may request.

✂ 3-ct. Postage Stamps will be accepted for small sums. All orders given prompt and careful attention. Any errors cheerfully corrected. All of my seeds are of the new crop and can be relied upon for vitality as well as quality.

✂ I am always glad to hear of the success of my patrons, for their pleasure is more to me than their money. Address GEO. W. PARK, Greenwood, South Carolina.

Alonsoa

Agrostemma

Ageratum

ABRONIA Umbellata Grandiflora, Large-flowered Sand Verbena, hha, 1ft. Sweet lilac flrs; likes sun and sand; rockery or beds; remove husks. 20s.

ACACIA Lophantha Speciosa, hhsh, 4ft. Lovely pinnate foliage, fine for groups or borders. 20 s.

ADONIS Aestivalis, Flos Adonis, hha, 1ft. Rich red flat petals, fringed foliage; for beds. 100 seeds.

Alepica, hha, 1ft. New; vivid red flrs 3in across; showy in beds, start tardily, can be fall-sown. 20s.

Autumnalis, Pheasant's Eye, hha, 1ft. Intense red with black eye; concave petals; for beds. 100 s.

AGERATUM, Mexican Floss Flower, hha. Showy, everblooming; the little brush-like flrs in clusters, fine for masses in beds; blue and white.

✂ The following are improved varieties, about 6 in high, dwarf and bushy, well suited for beds and edgings. Little Blue Star is a miniature. 500 s.

Blue Ball, large-flowered dark blue, compact habit; re-selected; regarded as one of the finest.

Blue Cap, new, forms a continuous showy carpet of rich deep blue, fine for beds, edgings, or pots.

Little Blue Star, small blue flrs in great profusion.

Little Dorrit, azure blue, also white, compact, fine.

Mauve Beauty, large mauve, dense, very profuse.

Mexicanum, 18in, showy everblooming, fine for masses and cutting, blue and white, 1500 seeds.

Victoria Louise, azure, white center, compact.

Scarlet Gem, small dark rose flrs, fine rock plant.

Swanley Blue, large azure flrs, compact, for beds.

Complete Special Mixture of all, 700 seeds.

AGROSTEMMA Coeli-rosa, Rose of Heaven, ha, 1ft. A beautiful, too much neglected flower for showy beds and cutting. Flrs like single Pinks, on long stems, very free-blooming, exceedingly showy.

New Scarlet, rich glowing red, fringed, splendid.

White, **Flesh Pink**, **Vivid Rose**, **Sep** or **Mixed**. 750 s.

ALONSOA, hha, 18 in. Beautiful, free, and continuous-blooming, for pots or beds. Potted in Autumn will bloom well in Winter. Flowers rich colors in fine spikes, very showy. 200 seeds.

Albiflora, pure white, golden eye, large, in big spikes, continuous, splendid for pots.

Linifolius Gracilis, 1 ft, improved scarlet, beds.

Mutisii, lovely annual, flowers deep salmon-pink.

Myrtifolia, new, scarlet flrs in spikes; Myrtle-leaf.

Warscewiczii Compacta, 1ft, rich rosy scarlet; pots.

Complete Special Mixture of all varieties. 400 s.

ALTHEA Semperflorens, Annual Everblooming Hollyhock, ha, 6 ft. Started in March, plants bloom freely in Autumn; single, mixed colors. 50 seeds.

Double, saved only from fine flrs, mixed. 35 seeds.

Double Fringed, flrs beautifully fringed, mx. 35 s.

Double and Single in splendid mixture. 50 seeds.

ALYSSUM, ha, 6 in. Everblooming, sweet clusters, a mass of bloom throughout the season; splendid for beds or edgings. You can hardly do without it. Carpet of Snow, procumbent; for beds. 1-4oz 10c. Common Sweet, trailing, free. 1000 s., oz 25c. Lilac Queen, compact, erect; lovely lilac flrs. 300s. Little Dorrit, improved Gem, erect; dense; long and free-blooming; best for edgings, best for pots. 300 Little Gem, profuse all season; fine edging. 300 s. Minimum, 2 in, new elegant creeper, covers the ground with a sheet of lovely clusters. 300 seeds. Primrose Queen, 4 in, rich primrose color. 300 s. Complete Mixture, 1000 s. 5c., 1-4oz 10c., oz 25c.

AMARANTHUS, hha. Very showy easily grown plants; attractive in beds and groups. Abyssinicus, 6 ft. A huge "Love-lies-bleeding" with pale green foliage, veined and shaded pink, surmounted by clusters of showy red tassels 2 ft long. Amabilis Tricolor, 3 ft. Rose, gold, and glowing red. Bicolor Ruber, 3 ft, leaves fiery red tipped maroon. Caudatus, Love Lies Bleeding, 3 ft, Red also white. Coleifolius, Firebrand, 2 ft, resembles Coleus. Combustion, 4 ft. The brightest and most showy of all Amaranthus, foliage richest flaming crimson. Henderi, 3 ft, narrow, wavy foliage, rosy carmine with orange-buff, golden yellow, and olive green. Melancholicus Ruber, 1 ft. Red foliage; for beds. Molten Fire, 2 ft, flaming red foliage; pots or beds. Monstrosus, Giant Prince's Feather, 4 ft. Rich red. Salicifolius, Fountain Plant, 3 ft. Elegant for pots; long graceful wavy leaves brilliantly tipped gold. Speciosus Aureus, Golden Prince's Feather, 2 ft, elegant golden spikes; very attractive in borders. Sunrise, 3 ft, foliage green yellow and brilliant red. Tricolor Aurora, 2 ft, rich carmine and gold; fine. Tricolor Splendens, Joseph's Coat Improved, 2 ft. Richly variegated yellow, green and red, lovely. Complete Special Mixture all varieties, 500 seeds.

AMBERBOA Muricata Rosea, ha, 2 ft, rose; very profuse, long-stemmed Aster-like flrs; fine for cutting.

AMBROSIA Mexicana, ha, 2 ft. Sweet fern-like foliage, dense spikes of small yellow flrs. 200 seeds.

ANAGALLIS Grandiflora Pimpernel, hha, 6 in. A charming dwarf annual for pots, beds, and edgings. Blue, Vermilion Red, Flesh. Sep. or Mixed.

ANCHUSA Affinis, ha, 3 ft. Azure blue, 50 seeds. Barrelieri, hp, 2 ft. Blue with white tube and yellow throat; in clusters, earliest, blooms in May. 30 s. Blue Bird, ha, 2 ft. Vivid indigo blue, compact. 30s. Capensis, Cape Forget-me-not, hb, 2 ft. 50 seeds. Italica Dropmore, hp, 3 ft, lovely Gentian blue, an improved Italica; showy in beds, fine to cut. 35 s. Lisadel, hp, 3 ft. New, large rich blue flowers. 25 s. Myosotiflora, hp, 1 ft. Forget-me-not blue. 30 s. Opal, hp, 4 ft. Pleasing shade of light blue. 30 s. Sempervirens, hp, 2 ft. Rich blue short spikes. 30 s. Note: All Anchusas must be started early to bloom the first season. The flowers are good for bees and are beautiful in beds, the long loose sprays are fine for bouquets. These do well in any garden.

ANDROSACE Coronopifolia, hp, 6 in. Pretty rosettes of white flowers in Summer, for edging or rockery.

ANEMONE Coronaria, St. Brigid, hp, 1 ft. Beautiful tuberous plants, flrs large, double, Poppy-like, in many rich colors; seedlings bloom in six months, and plants may be had in bloom according to the time seeds are sown, remove the cotton from the seeds before sowing. Plants like a well-drained sandy loam and partial shade. 50 seeds.

ANTHEMIS Kelwayi, hp, 2 ft. Handsome, continuous-blooming; flrs golden yellow, also white.

ANTIRRHINUM or Snapdragon, hp. These are among our most beautiful and showy garden flrs. Plants are easily grown from seeds, bloom well the first season, endure the Winter and do good service the second year. I here offer the finest varieties; all are fine for beds, borders, or pots. Tall Large-flow'd, 3 ft. Separate varieties 500 seeds. Brilliant Rose, rich color, fine for forcing.

Canary Bird, the earliest lemon yellow, very fine. Cardinal, brilliant scarlet, very showy, beautiful. Cattleya, rosy lilac, an orchid color, admirable. Golden Queen, very large, rich golden yellow. Gotelind, coppery salmon with old rose throat. Miralda, beautiful coppery carmine, showy, pretty. Pure Rose, an admirable color, flrs. large, distinct. Purple King, rich velvety dark purple, attractive. Rose Improved, self, salmon-rose shaded gold. Ruby, pure rich ruby red, a splendid color. Snowflake, lovely white, gold throat, huge flrs. Complete Mixture, Tall Large-flow'd 1500 seeds. Semi-dwarf, 15 in. Separate varieties 500 seeds. Albino, delicate shades with finely flushed flrs. Bonnie Lass, rose, white throat. Award of merit. Bright Rose, charming pure rose, very desirable. Carmine Queen, rich bright rosy-carmine, fine. Golden Monarch, fine large yellow, bouquet flower. Madonna, very large white flrs, compact, showy. Maize Queen, salmon-rose, gold lip; award of merit. Matchless, brilliant apricot-buff, lovely gold center. Mauve Beauty, lovely rosy-mauve, a fine variety. Pink and Terra-cotta Shades, new art shades. Scarlet King, large glowing scarlet, very attractive. The Bride, pure spotless white, early-fl'ring sort. Complete Mixture, Semi-dwarf. 1500 seeds. Tom Thumb, 6 in. Dwarf, bushy, free-fl'ring plants for pots or beds. Crimson, Orange, Rose, White, Yellow. Separate or mixed. 500 seeds.

New Majestic, 18 in. Separate varieties 200 seeds. Avalanche, lovely pure white, in showy masses. Cherry Ripe, new cherry-red; rare, beautiful. Delight, salmon-pink shading to apricot; beautiful. Eldorado, large spikes of deep golden flowers. Gloria, magnificent deep rose, showy, beautiful. Golden Dawn, golden-buff overlaid with salmon. Orange King, orange with terra-cotta shadings. Primrose Monarch, clear Primrose yellow, lovely. Red Chief, rich deep scarlet, very attractive. Red Emperor, rich deep scarlet, beautiful, large. Rose Beauty, large spikes of showy rose flowers. Rose Marie, bright rose with showy golden center. Snowstorm, beautiful pure white, early variety. Sunset, bright terra-cotta shading to salmon-rose. Twilight, delicate apricot with old gold center. Victory, chamois with copper shadings, showy. Complete Mixture of Majestic varieties 500 seeds.

Giant Fragrant, 18 in. Separate varieties 500 seeds. Eclipse, brilliant fiery crimson, very beautiful. Exquisite, soft silvery pink with broad cream lip. Morning Glow, orange-scarlet with a pink throat. Prima Donna, terra-cotta, cream and yellow. Spitfire, beautiful vivid orange-scarlet, fine. White Wonder, the best pure white, extra large. Wild Rose, lovely soft pink with a white throat. Complete Mixture, Giant Fragrant 750 seeds.

Fairy Tale, 2 ft. New, flrs large, upper lip salmon-rose, lower lip golden yellow with whitish tube. Goliath, 2 ft. Massive flrs on giant spikes, salmon-rose and orange shaded to pale apricot, fine. Kelway's Choicest Giant-flowered, 3 ft. Finest mixture of new and choice colors; excellent. 750 s. Kelway's Up-to-date, 18 in. Choicest mixture. 750 Kelway's Volcano, 18 in. New, brightest dazzling scarlet, the richest colored Snapdragon known. Benary's Double, 18 in. New, flowers duplex, large and showy in fine terminal spikes, beautiful. Pink, Rosy Lilac, White, Yellow. Separate or mixed. 500 Rock Hybrids, 8 in. Fine new plants for rockery. Tom Thumb, Little Pinkie, 6 in. Plants branch freely and are smothered with bright pink flowers. Mammoth Malmaison, 2 ft. Declared by experts to be the most beautiful Snapdragon, flrs silvery pink. Praecox, 2 ft. A wonderful improvement, in bloom a month before other Snapdragons, and more free-blooming. Colors: Bright Yellow, Pink, Pure White, Rich Scarlet. Separate or mixed. 250 seeds. Asarina, 6 in. A procumbent perennial rock plant blooming the first season; flrs cream tinged red.

Aster, Improved Queen of the Market

Aster, Giant Comet or Crego

ASTER, Bodger's New Wilt-resisting, hha.

Double Asters are among the most beautiful and easily grown of flowers either for beds or pots. The seeds germinate in about five days, and the plants bloom from June until after frost, making a glorious display in beds, and the fine large, rich colored, long-stemmed flrs are excellent for cutting, lasting for many days when placed in water. Queen of the Market Improved is the earliest, beginning to bloom in late June; then comes the Early Beauty in July; followed by the beautiful Tall Ostrich-feather varieties that begin to bloom in August and continue till frost. Later fine varieties are the Giant Comet, largest of Asters, Giant Improved Crego, and the Giant Branching Victoria. These are in their glory throughout Autumn until Jack Frost slips around and destroys their beauty. Now I want to say that a very serious disease has come which makes Aster culture almost useless unless only wilt-resisting seeds are sown. These are the only ones I describe. They have been rendered immune by those growers of California, the Bodgers. Their seeds are more expensive, but why waste time on plants that will wilt and die just when ready to bloom? I sell only the wilt-resisting seeds. Use no others if you want the finest Asters. Bodger's Giant Comet or Crego, 3ft. Of all Asters, this is considered the most beautiful and most useful. The long-stemmed flowers are great fluffy balls, 5 to 8 inches across, rivalling the finest Chrysanthemums, and lasting better than others when cut. You make no mistake in getting this Aster. As the countryman says, it's a "humdinger" what more can be said? Colors: Crimson, Deep Rose, Lavender Pink, Royal Purple, Shell Pink, White, Separate or mixed, 100 seeds 5cts. Giant Victoria, 3ft, the old Victoria Aster enlarged and improved; plants with short strong branches, the flowers of immense size, well developed and showy. One of the good modern Asters. Colors: Crimson, Flesh Pink, Rose Pink, Purple, White; Separate or Mixed, 100 seeds 5cts. American Branching, 2 1-2 ft., a choice old variety known as Vick's and Semple's Branching. Mixed. Betteridge's Quilled, 2 1-2 ft., an improved late Aster with quilled petals; good variety, mx. 100 s. Everlasting Aster, 2ft., a handsome rose Aster; the flowers retaining form and color when dried. 100s Heart of France, 2ft., rich dark red Aster; very large and dble; blooms freely during September. Sensation 2ft., the brightest Aster, glowing ox-

blood red, very large full flrs. on long leafy stems. Queen of the Market Improved, 15 in., the earliest wilt-resisting Aster; plants branch, produce long leafy stems surmounted with large, very double Asters of fine form, wonderfully showy in beds, fine for cutting. I can supply Crimson, Dark Blue, Scarlet, White. Separate or Mixed, 100 seeds 5c. Early Royal, 18 in., following Queen of the Market, a new Branching Aster especially suited for beds and borders, although desirable for cutting; flrs. full, fluffy, very handsome, will become popular when better known. Azure Blue, Lavender Pink, Deep Rose, Royal Purple, White, Sep. or Mixed. Asterum, 2ft. Branching plants, erect, bearing large double flowers not unlike a fine Chrysanthemum. Azure Blue, also, White, splendid. 100 s. Early Beauty, 2ft, a new Branching Aster later than Early Royal with masses of very large, elegant full double flowers that are showy in beds, and unsurpassed for cutting. This fine Aster blooms for weeks, or throughout Autumn. It is likely to displace the American Branching that has been a favorite. Crimson, Lavender, Purple, White, Mixed. Ostrich-feather Improved, 2 1-2 ft, Tall branching, robust, splendid for beds; flowers immense fluffy balls, showy, long-stemmed, excellent for cutting. This is one of the largest and most beautiful of all double Asters. It's a "top notcher." Colors: Deep Rose, Crimson, Lavender Pink, Royal Purple, White, Separate or Mixed, 100 seeds 5cts. Crimson Giant, 2 1-2 ft., Flrs. large and attractive. Ball's Early White, 2ft, fine double, for cutting. 100 Giant Phlox-pink, 2ft., rich clear light rose, late. Single-flowered Blue, 2ft, fine large flowers on long stems, fine for beds, also for cutting. 100 s. 5cts. General Jeffre, 2 1-2 ft., single, the flowers very freely produced, rich scarlet, very showy in beds. Bodger's Mammoth Perfection, 3 ft. This strain of Asters is described and offered on the Title Page, which please see. My seeds are direct from Bodger, and will not only grow, but produce the finest and best flowers. I challenge a competitive trial of these Asters with those of any other strain, regardless of price. The flrs. are prodigious in size, rich and varied in colors, wonderfully showy in beds and unsurpassed for cutting. This is the last word in Improved Double Asters and I offer from 90 to 100 seeds (measured) for 5 cts, that will produce plants for a large and handsome bed. Prepare a deep, well-enriched bed and set the plants about 8 inches apart; the display will be marvelous.

Arnebia Cornuta

Balsam Camellia-flowered

ARCTOTIS Breviscapa, hha, 1 ft. Showy orange flrs; long-blooming, likes sun, fine for beds. 25 seeds.
Grandis, hha, 2 ft. Handsome, easily grown, large-flwd, long-stemmed; white, blue disk; fine. 75 s.
Hybrids, hha, 1 ft. Lovely garden flrs of the easiest culture; free-blooming in hottest sun; shades of cream, yellow, bronze, and red; beautiful.

ARGEMONE Grandiflora, ha, 3 ft. Large white flrs; likes sun and sand. 200 seeds.

Grandiflora Isabel, ha, 2 ft. Large golden yellow.
Hybrid Double White, ha, 2 ft, showy, fine. 100 s.
Platycerus Rosea, ha, 2 ft, large flrs, showy. 75 s.
Complete Special Mixture all varieties, 200 seeds.

ARNEBIA Cornuta, ha, 1 ft. A very handsome Boragewort from India. Flowers bright golden yellow with distinct purplish spots, borne in large spikes. A beautiful easily grown annual rarely seen in gardens; fine for beds, edgings, and the rockery. Remove husks before sowing. 15 seeds.

ARTEMISIA Annua, ha, 6 ft. Lovely fern-like foliage very sweet-scented, small yellow flowers. 1000 s.

Argentea, ha, 15 in. Pretty rock plant; finely cut silvery foliage; handsome yellow flrs; likes sun.

ASCLEPIAS Curassavica, hp, 2 ft. A very beautiful everblooming pot and garden plant, lovely red and gold clusters; a fine Winter-blooming window plant of easy culture.

ASPERULA Azurea Setosa, ha, 1 ft. Lovely sky-blue flrs in clusters; very sweet; fine for cutting. 500 s.

ASTER Cassubicus Grandiflorus, hp, 3 ft. Large blue flowers in late Autumn. 50 seeds.

Diplostephioides, hp, 1 ft. Flrs blue, gold center.

Horizontalis, hp, 3 ft. Large showy flrs; splendid.

Ptarmicoides, hp, 18 in. Flrs white, broad center.

Perennial Asters in Complete Special Mixture.

ATRIPLEX Hortensis Cupreata, ha, 4 ft, red foliage.

BALSAM, hha. The old-fashioned "touch-me-not," bearing single red flowers was grown by our Grandmothers and appreciated as garden-flowering plants. Later, however, the double flowering plants were developed, and these have displaced the single-flowered and have become very popular, being more beautiful, showy, and coming in a great many colors, some pleasingly variegated. The flowers are large and as double as roses, waxy in texture, admirable in beds and borders. They now stand near the head of the list of popular

garden annuals, thriving in sun or shade in any rich soil, and doing well in pots as well as in beds. Started in Autumn, they bloom in the window in Winter. I offer some of the finest varieties.

Benary's Prize Camellia-flowered. This is perhaps the finest Balsam in cultivation, being a specialty with Mr. Benary, the famous seed grower of Germany. It is known as Camellia-flow'd because the flowers are not unlike Camellias in general form and appearance. Plants grow 2 feet high, branch symmetrically, and become little trees covered with elegant bloom. They are of easiest culture and are successfully grown, even under unfavorable conditions. Their beauty, attractiveness, free and continuous blooming and easy culture commend them to every gardener, and they well deserve their popularity. I can supply the following colors: White, Crimson, Scarlet, Lilac, White shaded Pink, Rose Spotted, Scarlet Spotted, Violet Spotted, Rosy Lilac, Salmon Rose, Chamois Rose, Separate or Mixed. 35 seeds 5cts.

Dwarf or Miniature. Plants grow a foot high, branch and bear bright semi-double flowers in abundance, desirable for beds and borders, but especially for pots, being more dwarf and convenient for that purpose. Colors: White, Flesh, Vermilion, Fiery Red Striped, Rose, Violet Spotted or Mixed. 35s.
Mette's Royal, 3 ft. These are very large-flowered and extra double, the plants branching and bearing freely showy flowers throughout the season. Glorious in beds in Summer and pots in Winter. The King, vivid scarlet, showy, rich, effective. The Queen, lovely satin rose, rare, charming. The Emperor, blue, exquisitely marbled white. The Princess, pure white, very large and fine. The Prince, yellow, a rare shade; very beautiful. Separate or Mixed packets, 35 seeds 5cts.

New Flowering Bush. These grow 1 foot high and bear their flowers on spikes above the foliage. They are desirable for beds and are also showy as pot plants. The flowers are double and the spikes have buds in various stages of development continue blooming for some time as they open in succession. This new Balsam will be more popular when its merits become better known. It deserves a trial. Colors: White, Rose, Red, Separate or Mixed, 30 seeds 5 cts.

BELLIS MONSTROSA

CALANDRINIA

CALLIRHOE

BARTONIA Aurea, ha, 2 ft. Large, showy golden flowers; fine, likes sun and sandy soil. 500 seeds.

BELLIS Perennis, English Daisy, hp, 6 in. Beautiful hardy ever-blooming plants for summer beds north and winter beds south. The flowers are like small double Asters of many rich colors, and if alternated with Pansies, the effect is charming. The plants are easily grown from seeds. Set 6 in. apart.

Monstrosa, extra double flowers of robust habit, remarkably fine; largest and best quality; unsurpassed. Red, White, Rose, Snowball, Quilled Scarlet, Separate or Mixed, 150 seeds.

Tubulosa, the new giant quilled daisies; all the fine colors in splendid mixture. 100 seeds.

Tubulosa fl. pl. Kelway's Quilled, a new race of large double flrs; many choice colors mxd. 100 s.

Ranunculus-flwd, dbl, broad white petals. 150 s.

Kelway's Double Crimson, extra double, hardy, free-blooming; rich-colored, fine display. 100 s.

Stricta fl. pl., upright; robust and hardy; lovely dbl pure white flrs in profusion; extra choice. 100 s.

Monterosa, 6 in, huge double quilled flrs; rich rose; new and beautiful; likes loamy soil.

Hufeld's Super-giant, superb German strain. 300 s.

BIDENS Dahliaoides, hp, 2 ft. Compact, free, and long-flowering; flrs of various colors. 60 seeds.

BOLTONIA Asteroides, hp, 2 ft. Flrs flesh, clusters.

Glastifolia, hp, 4 ft. A branching, free-blooming Autumn plant; flrs daisy-like, white flushed lilac.

Latisquama, hp, 2 ft. Aster-like, free-blooming, showy violet flrs. Not unlike Perennial Aster. 150s.

BORECOLE Excelsior, hb, 2 ft. Striped and curled.

Palm Tree, hb, 6 ft. Palm-like, fine for winter beds.

BRACHYCOME Iberidifolia, hha, 6 in. Beautiful, free-blooming plants for beds or pots; flrs Cineraria-like. Blue, White, Rose, or Mixed. 1000 seeds.

BROWALLIA. There are several species recommended, all fine for pots or beds. Everblooming, profuse; do well in Summer or Winter; like moist, porous soil; sun or shade. Fine Winter bouquets.

Elata Grandiflora, hha, 2 ft. Improved large-flwd, borne in clusters at the tips of branches; self-sow; free and long-blooming. Blue, White, Mxd. 500 s.

Roezli, hha, 18 in. Flrs azure blue with gold tube, twice the size of Elata, blooms from Spring till Fall; plants compact. An exceedingly fine species 40s.

Speciosa Major, hha, 3 ft. Mostly for pots; flowers large; not unlike a Petunia; almost continuously in bloom. Blue, White. Separate or Mixed. 40 seeds.

Viscosa, hha, 1 ft. Flowers bright violet blue; fine.

Viscosa Sapphire Compacta, an improved Viscosa, the flrs in clusters, free-blooming, showy; new.

CACALIA Coccinea, Flora's Paint Brush, ha, 18 in.

Scarlet, for beds and cutting; also yellow; separate or mixed. 300 seeds.

CALANDRINIA Grandiflora, ha, 8 in. Beautiful Portulaca-like, bright rose flrs, makes a fine Spring bed when sown in autumn; very desirable. 500 s.

Speciosa, ha, 6 in, profuse, purple and white flrs.

Umbellata, hb, 6 in, lovely vivid crimson flrs, fine.

CALCEOLARIA Scabiosafolia, ha, 1 ft. A pretty, easily-grown annual from Chili; flrs yellow, borne profusely during Summer; for pots or beds. 200 s.

CALENDULA Officinalis fl. pl., ha, 1 ft. The old Pot Marigold Improved, appearing in many varieties; flowers full double and reach 4 in across when plants are disbudded. I offer the best kinds and my seeds are first-class; plants continuous-blooming, often showing their bright flrs until freezing weather. Pot grown the plants thrive and bloom freely in the conservatory and are valuable for cut flowers, many being grown in greenhouses for that purpose, easily grown and has no enemies.

Ball's Orange, immense double orange flrs. 100 s.

Campfire, huge full-double orange flowers.

Favorite, sulphur striped cream-white, brownish.

Golden Beam, flrs. rich golden yellow, double to the center, quilled and of immense sizes.

Meteor, full double; orange striped yellow. 100 s.

Orange King Improved, intense orange, splendid; a favorite for winter bloom in pots. 100 seeds.

Pluvialis, Cape Marigold, Large single white and maroon flowers, very handsome. 100 seeds.

Pongei fl. pl. Large double white flowers; known as Double Cape Marigold; a pretty annual. 100 s.

Radio, new, quilled; very double, golden flowers.

Sulphur Crown, Lemon Queen, giant full-dbl flrs.

Sunshine, 2 ft, entirely new and distinct species, taller, more graceful, more showy, long incurved

Chrysanthemum-like petals, bright canary yellow.

Trianon, Royal Marigold, large double flrs; fine sulphur yellow with charming brown shadings. 100s.

Separate or in Complete Special Mixture. 100 s.

CALLICHROA Platyglossa, ha, 1 ft. A pretty composite, Aster-like; yellow, white border. 200 s.

CALLIOPSIS. Those I offer are beautiful very free-blooming annuals, of easy culture, showy in beds and bloom for weeks during Summer. Seeds may be sown in the Fall or Spring where plants are to bloom and thinned to 4 or 5 inches apart.

Beauty, ha, 9 in. Dwarf, golden and purple. 500 s.

Cardaminifolia, ha, 2 ft. Yellow, crimson, mx. 500s.

Coronata, ha, 2 ft. Large, orange, red spots. 500 s.

Crimson King, ha, 9 in. Bushy plants covered with rich crimson flrs; long-blooming, fine in beds. 500 s

Drummondii, Golden Wave, ha, 18 in. Crimson and gold, in bloom appears as a wave of gold; Autumn sown this makes a fine border. 1000 s. 1-4 oz 15c.

Garnet, ha, 1 ft. Scarlet, free-blooming, beds. 500s.

Hybrid fl. pl., ha, 3 ft. Showy, various colors. 500 s.

Mayfield Giant, hp, 2 ft. Large yellow flrs on long strong stems, fine for cutting, new. 40 seeds.

Nana Aurea, ha, 6 in. Gold yellow and brown. 500s.

Radiata, ha, 1 ft. Showy mixture; fine in beds. 300s.

Superba, ha, 18 in. New bizarre shades, fine. 300s.

Tinctoria, ha, 4 ft. Flowers rich maroon with bright golden border, borne in great profusion, magnificent in beds; sow in Autumn and thin to 8 inches

apart; exceedingly showy. 1000 s. 1-4 oz 15cts.

Complete Special Mixture of Calliopsis. 1000s.

Candytuft Giant Sweet-scented

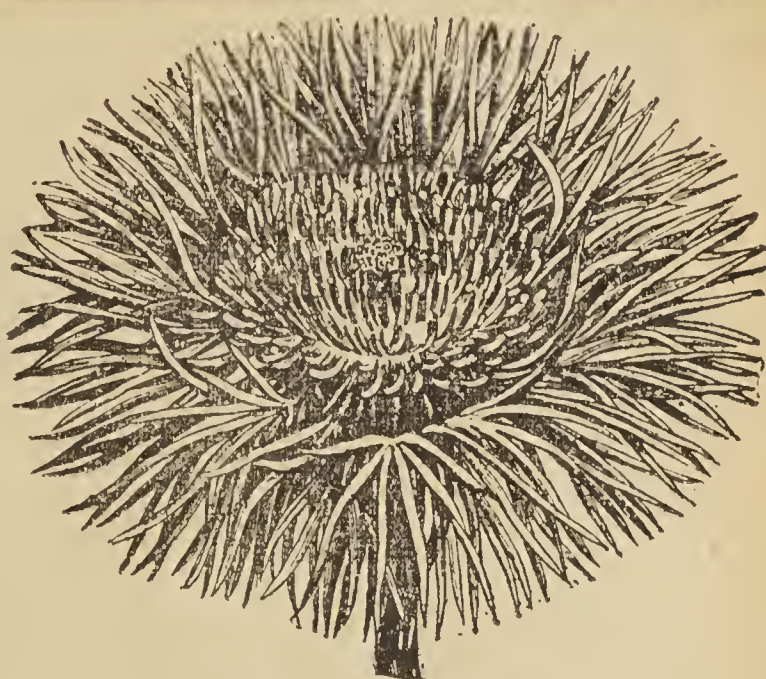

Candytuft Umbellata

CALLIRHOE *Involucrata*, hp, 8 in. A lovely trailing everblooming plant, the flrs cup-shaped and of a rich crimson color; very desirable.
Lineariloba, ha, 2 ft. Flowers red; Malva-like, pretty.
Pedata, ha, 3 ft. Showy, cherry-red flowers, fine.
CAMPANULA, Annual. These are all, with the exception of *Macrostyla*, less than 1 foot high. They are very pretty and bloom freely, the blue and white bells are always admired. Fine for edgings, beds, rockery. Sow early where they are to bloom.
Attica, (*Drabifolia*) ha, 4 in. Neat little branching rock annual from Greece; open blue or white bells; either color, separate or mixed. 300 seeds.
Fragilis, hp, 6 in. Spreading; finest sort for hanging baskets, vases, or rockery; blue bells with a white throat, free-blooming; July and Aug. 50 s.
Lorei, ha, 1 ft. Erect branching plants; violet flrs.
Macrostyla, ha, 2 ft. Peculiar Bellflower from the Taurus Mts; stems rigid, curious calyx, flrs large veined and gaping; odd and showy; purple. 100s.
Medium, Canterbury Bells, New Annual, ha, 2 ft. The new strain of Canterbury Bells, blooming the first season when started early; showy and beautiful in beds or as single specimens. Blue, Rose, Striped, White. Separate or Mixed. 250 seeds.
Speculum Grandiflora, ha, 1 ft. For beds or vases; profuse; fine. Blue, White, sep. or mixed. 1000 s.
Speculum Procumbens, ha, 6 in. Low, spreading; lovely bells in profusion. Blue, White, Mx, 1000 s.
 Complete Special Mixture of above kinds. 1000 s.
CANDYTUFT, ha. Very showy beautiful and popular garden flowers of the easiest culture. Flowers in elegant spikes; exquisite in varied colors and excellent for cutting as well as garden display. A succession of bloom may be obtained by sowing at intervals of two weeks during early Summer. Sow where plants are to stand and thin 5 in apart.
Coronaria, Giant Hyacinth-flower or Improved Empress, ha, 18 in. Tree-like, perhaps the finest of annual Candytuft; each branch terminating in a big spike of pure white flrs; very showy in beds and excellent for cutting. A distinct and beautiful garden annual. 1000 s. 1-4 oz 15cts.
Little Prince, 6 in, spreading, fine miniature. 500 s.
Miniature Gem, 4 in, a pretty rock annual. 200 s.
Pectinata, 1 ft. The charming sweet-scented Candytuft, lovely fern-like foliage and big clusters of pure white flowers, elegant in beds and fine for

cutting. 1000 seeds. 1-4 oz 15cts.
Queen of Italy, 9 in. An exceedingly free-flowering dwarf compact sort; much like *Sempervirens*; pink flower heads; fine rock plant; excellent. 300 s.
Umbellata, 1 ft. *Very beautiful varieties of many rich colors; the flrs borne in big umbels and make a grand display in beds or borders. White, Lilac, Carmine, Purple, Cardinal, Mxd. 750 s. 1-4 oz 15c.
Umbellata, New Dwarf Sorts, 9 in. Showy for beds. Colors: Lilac, Purple, Rose, White, Mixed. 400 s.
 Complete Special Mixture, above varieties. 750 s.
CANNA, hhp, 3 ft. Crozy's finest mixed. 10 seeds.
CANNABIS *Gigantea*, ha, 8 ft. Easily grown; majestic foliage; good for background or specimen. 50s.
CAPSICUM, Pepper, hha. Handsome bushy plants that is covered with showy fruits; pretty in groups and prized for pots. The Peppers are of various sizes and forms, the colors bright and attractive.
Chameleon, 15 in. Improved Celestial; a profusion of small conical hot fruits scarlet to yellow. 100s.
Cherry, 15 in. Late, hot, red fruits; handsome.
Harris Giant, 18 in. Dense, very prolific; extra early fruits large, bell-shaped, vivid scarlet; very showy prized as a sweet Pepper.
Little Gem, 1 ft. Dense, covered with small erect garnet red fruits. Showy in pots or beds. 100 s.
Small Chili, 15 in. Conical 2 in. very hot fruits.
White Prince, 18 in. Cream turning to vivid orange.
 Complete Mixture of Ornamental Peppers. 150 s.
CARDUUS *Benedictus*, ha, 3 ft. Blessed Thistle. 30s.
Kernerii, hb, 3 ft. Branching, fine big rosy flrs. 25 s.
Maxianus, ha, 2 ft. Fine blotched foliage, rose. 40 s.
CARNATION. Years ago the Carnation was considered a perennial suitable only for greenhouse culture, but the hybrids developed since then have proven not only hardy in the garden but if started early will bloom freely first season. The so-called Margaret race of Carnations was the first of these, seedling plants not only blooming in six months but producing elegant large double flrs in rich and varied colors; showy in beds and fine for cutting. They also do well in greenhouse or conservatory, grown in pots. A later race known as Chabaud Carnation is thought by some to be preferable, the plants being more vigorous, the flrs larger, more varied in color, and the bloom more free and continuous. The plants are hardy in beds and when grown in pots are fine for the window. A further

CARNATION CHABAUD

CENTAUREA AMERICANA

improved class is known as *Enfant de Nice*, this is much like the Chabaud Carnation but considered larger and handsomer. I offer seeds of all these splendid Carnations and believe that my friends will be more than pleased with them.

Margaret Improved, hp, 1 ft. Colors: Dark Red, Pure Yellow, Rose, Scarlet, Violet, White, Separate or mixed. 100 seeds.

Chabaud, New Giant Everblooming, hp, 18 in. Colors: Blood Red, Copper Red, Flesh Color, Magenta, Rosy Lilac, Rosy Pink, Ruby Red, Salmon Rose, Scarlet, Snow White, Sulphur, Yellow-flaked. Separate or mixed. 75 seeds.

Enfant de Nice, hp, 1 ft. Finest colors mixed. 40 s.

Grenadin, hp, 2 ft. A fine garden Carnation, blooming first season; flrs large, double, and freely produced. Bright Rose, Pure White, Vivid Scarlet. Separate or Mixed. 50 seeds.

Giant Malmaison, hp, 1 ft. Very large flrs in finest colors; blooms first season. Mixed colors. 100 s.

CASTILLEJA Indivisea, Indian Paint Brush, ha, 1 ft. Flrs yellow surrounded by rich carmine bracts.

CATCHFLY, Silene Armeria, ha, 1 ft. Very pretty flrs in clusters; for beds or cutting, mixed. 1000s.

CATERPILLARS, hha, 8 in. Trailing plants with curious seed-pods of various forms and sizes; valued only for curiosities and for playing jokes on unsuspecting parties. Large, Small, Hairy, Striped. Separate or Mixed. 10 seeds.

CELOSIA Cristata, Coxcomb, hha, 18 in. Huge broad combs in many showy colors, fine. 150 s.

Cristata Nana, Dwarf, hha, 1 ft. Benary's Improved Strain, in the following colors: Blood Red, Rose, Orange, Scarlet. Separate or Mixed. 150 seeds.

Empress, hha, 1 ft. Huge bright crimson combs; bronze foliage, beds; fine display till frost. 100 s.

Glasgow Prize, hha, 1 ft. Like Empress but has bright green foliage; fine for a showy bed. 100 s.

Dwarf Crimson Exhibition, hha, 1 ft. Saved from prize flrs, enormous combs, for pots or beds. 50 s.

Childsii, Chinese Wool Flower, hha, 2 ft. Excellent in beds. Crimson, Pink, Scarlet, Yellow, Mx. 250s.

Globosa, hha, 2 ft. Crimson-scarlet heads, 6 inches across; not unlike a huge Chrysanthemum. 75 s.

Magnifica, hha, 2 ft. Branching, each branch tipped with a big showy plume, beautiful, lasts well when cut. Scarlet, Crimson, Golden. 150s. Mixed 250 s.

Plumosa, Parrot's Feather, hha, 2 ft. Big feathery plumes; beautiful; scarlet and orange mixed. 50 s.

CENTAUREA. A showy and valuable class of annuals and perennials of easy culture. Those described below bloom first season and are showy in the garden and valuable for cutting. The flrs keep well when cut. Their bright and varied colors and long stems make them valuable for bouquets.

Americana, hha, 3 ft. Largest, most showy of *Centaureas*, 5 in across; fine for beds, also cutting; should be better known. July and August; Blue. 25 seeds. *Cyanus, Corn Flower*, ha, 2 ft. I offer only the dbl-flowered, as it is larger, more showy and attractive. Sow in Fall or Spring. Double Azure, or Emperor William, is one of the finest, lasting well when cut. It is a treasure for the florist. My seeds are extra select and will be found superior. White, Purple, Blue, Rose, Mixed. 300s. 1-4 oz 15cts.

Nana Compacta Victoria, ha, 9 in. This is decidedly the best for beds. The plants are bushy and are literally smothered with exquisite blue flrs. 300 seeds, 1-4 oz 15cts.

Depressa, The Queen, ha, 1 ft. Rich blue with vivid red center, not unlike *Cyanus*, fine. 50 seeds.

Imperialis, Royal Sweet Sultan. These are glorious annuals, 3 ft high, branching and covered with large fringed flowers of exquisite form. They are giants compared with the common Sweet Sultan. The flowers are on long stems, range in color from pure white to rich blue and purple, are borne abundantly from mid-summer till late autumn. They are sweet-scented and excellent for cutting. Brilliant Rose, Pure White, Delicate Pink, Vivid Purple, Deep Lilac, Separate or Mixed. 75 seeds.

Moschata, Sweet Sultan, ha, 2 ft. Large sweet flrs; for cutting. Blue, White, Rose, Yellow, Mixed. 50s.

Odorata, ha, 2 ft. Beautiful in the garden and fine for cutting; flrs large; deliciously fragrant; lasting. Blue, White, Yellow tinted Rose, and Mixed. 50 s.

Complete Mixture of *Centaurea*, 250s, 1-4 oz 15c.

CENTAURIDIUM Drummondii, ha, 2 ft. *Centaurea*-like; clear citron yellow flowers, pretty. 40 seeds.

CENTRANTHUS Macrosiphon, ha, 2 ft. Free and long-blooming; showy, beds or borders. 500s.

CERINTHE Major, Honeywort, ha, 18 in. Leafy racemes of brown and yellow flrs; for bees. 300s.

CHAENOSTOMA Fastigiata, hhp, 9 in. Tufts of small bright flowers; very pretty; showy. 300 seeds.

CHEIRANTHUS Allioni, hb, 18 in. The brightest of orange-colored flowers, and very free-blooming; easily-grown, and when grown in Spring will bloom from July until November. Flowers in fine fragrant clusters; should be in every garden. 250s.

Kewensis, hhp, 2 ft. The Winter-blooming Wallflower. Started in Spring they bloom in Autumn; flrs sulphur passing to golden and purple violet; very sweet-scented; of easy culture. 75 seeds.

Linifolius, hp, 9 in. Splendid for rockery or border; very floriferous, lilac sweet-scented clusters. 100s

CHELIDONIUM Majus, Great Celandine, ha, 2 ft. Yellow flowers in clusters, showy. 250 seeds.

CHENOPODIUM Atriplicea, ha, 3 ft. Clusters of reddish purple flrs; plants erect; branched. 50 s.

Clarkia Elegans Double

Coreopsis Lanceolata

CHRYSANTHEMUM, Annual. These improved varieties are of easy culture and bloom abundantly and almost continuously throughout the season; showy in beds and fine for cutting.

Carinatum Dunnetti Double, 18in. Large double flrs, free and long-blooming. White, Dark Copper Red, Golden Yellow, Purple. Separate or Mixed.

Coronarum fl. pl., ha, 4ft. Showy in beds. White, Golden Yellow, Sulphur Yellow or Mixed. 500s.

Dwarf Compact Golden Queen, 2 ft. Yellow; also White Pearl, white; plants compact, double. 500s.

Eclipse, 18in. Orange with scarlet ring, single. 500

Golden Feather, 1 ft, yellow foliage, variegated flrs.

Inodorum, Bridal Robe, hb, 18in. Flrs double, pure white, plants compact, fine foliage. 150 seeds.

Japanese Mountain, ha, 2ft. Very pretty single flrs in many fine colors; very free-blooming.

Mawii, hp, 1 ft. Silvery foliage and rich pink flrs two inches across; ideal for beds.

Radiatum, 18in, wheel-shaped, odd, showy. 500 s.

Segetum, 20in. Evening Star, golden yellow. Morning Star, primrose yellow. North Star, white with black center. Separate or Mixed. 100 seeds.

Tricolor Eldorado, 2ft. Golden, brown disk. 100 s.

Tricolor Double Fringed, 30in. Flrs large, double, fringed, in many colors, making a fine display.

Complete Special Mixture above varieties. 500 s.

CINERARIA *Lobata*, hhp, 3ft. Showy plants, flrs in clusters, yellow with calyx-like bracts. 100seeds.

CLARKIA, ha, 2ft. One of the most beautiful and easily grown garden plants. Seedlings start readily, begin to bloom early, and keep up the display for many weeks; showy in beds and fine for cutting. I offer only double varieties of

Clarkia Elegans, as they are very much superior to the single-flowd. *Clarkia Pulchella*, single-flowd,

is pretty and worth growing, although the double sorts are more admired. Sow in Spring and thin.

Elegans, ha, 2ft. Apple Blossom, Purple King, Ruby King, Deep Lilac, White Prince, Salmon Queen, Scarlet Queen, Rosy Pink. Separate or Mixed.

Albatross, 2ft. New, compact hardy annual with spikes of double snow-white flowers.

La France, 18 in., the most attractive of Clarkias; flrs. silvery-pink with lighter edge, very double.

Firesheaf, 1ft. A fine novelty; copper-red; full-

double; in elegant sprays a foot long; fine.

Pulchella Integripetala, Mrs. Langtry, 1ft. Single, a lovely variety; white with crimson center.

Pulchella Marginata fl. pl., red, white border; fine.

Pulchella Pulcherrima fl. pl., 1ft., magenta-red.

Complete Mixture of *Clarkia* 2000s, 1-8 oz 15cts.

CLEOME *Grandis*, Spider Flower, hp, 3ft. Easily-grown; showy; flrs rosy mauve, clustered. 100 s.

Gigantea Hybrida, ha, 3 ft. Showy plants, flowers white to lilac, rose and crimson, mixed. 75 seeds.

Pungens, ha, 3 ft. Flowers rose, in clusters. 100 s.

Speciosa, ha, 3 ft. Rich crimson, beautiful. 50 s.

Complete Special Mixture, all varieties. 100 seeds.

CLINTONIA *Pulchella*, ha, 6 in. Flrs rich blue with gold eye; spreading; baskets or rockeries. 350 s.

COLLINSIA, ha, 1 ft. A genus of very beautiful garden flrs of easy culture. The plants branch and are covered with rich colored handsome bloom throughout the season.

Bicolor, flowers large, upper lip and tube of corolla white, lower lip rosy-purple in verticil racemes.

Candidissima, a lovely sort with pure white flrs.

Carnea, a pretty sort with flesh-colored flowers.

Grandiflora, ha, 1 ft, excellent for beds and borders.

Salmon Beauty, purest salmon-rose; beautiful.

Verna, ha, 1 ft. A handsome rare native species.

Complete Special Mixture 1000 seeds, 1-4 oz 15c.

COLLOMIA *Coccinea*, ha, 18 in. Pretty Phlox-like flrs in clusters, deep scarlet, June to Oct. 2000s.

COMMELINA *Coelestis*, hhp, 2 ft. A tuberous-rooted herbaceous perennial, lovely sky-blue flrs. 50s.

Sellowiana, hhp, 18in. Large cobalt-blue flrs. 50 s.

CONVOLVULUS *Minor*, ha, 1ft. Beautiful, free, and long-blooming; for beds and borders; Petunia-like

flrs. Blue, White, Rose, Azure, Striped, Crimson, Purple; Separate or Mixed, 150 seeds, 1-4oz 10c.

COREOPSIS *Grandiflora*, hp, 3ft. Large golden yellow flowers on long stems; fine for cutting. 150's.

Grandiflora Auriculata Superba, hp, 3ft. Long-stemmed yellow flrs, red band encircling the eye.

Grandiflora Double, hp, 2ft. Large double golden flowers on strong stems; superior to single. 75 s.

Lanceolata, hp, 1ft. Large showy golden yellow flrs like *Grandiflora*. See engraving. 200 seeds.

Verticillata, hp, 2ft. Plants clothed with whorls of deep-cut leaves; plants branching; yellow flowers.

DAHLIA FINEST DOUBLE

COSMEA KLONDYKE

COSMEA *Hybrida*, Earliest Large-flowered, hha, 3ft. Improved extra-early mammoth sorts; lovely foliage; flrs bloom freely from June until frost. Sow in boxes early and transplant, or later out doors. White, Pink, Purple, Crimson, Mx. 50s. Early-flow'd Double or Crested *Praecox*, hha, 3ft. These are much superior to older crested sorts. White, Pink, Crimson, Separate or Mixed. 50s. Fairy Queen, 1ft. A lovely dwarf sort, flrs carmine rose, borne in great profusion; floriferous. 50s. Klondyke, 6ft. A hybrid late-flowering sort. Flrs large, rich golden yellow in masses; handsome foliage clothing the plant from the ground up. Sow early in a sunny bed or grow in pots North. 40s. Lady Lenox, 3ft. Giant flowers rose and white. 50s. Mammoth Late, 5ft. Extra giant flrs on long stems; fine for backgrounds and cutting. White, Pink, Purple, Crimson; Separate or Mixed. 50 seeds. Complete Mixture, single and double. 75 seeds.

NOTE: The *Praecox* Cosmeas are somewhat more dwarf, more free-blooming, and larger than the older varieties; flrs double, 4in across; very showy.

COSMIDIUM *Orange Crown*, ha, 2ft. Golden yellow with a dark orange zone, easily grown. 50 seeds.

CRAMBE *Cordifolia*, hp, 6ft. Flrs white; fine. 100s.

CREPIS, ha, 1ft. Very handsome annuals, the flrs Dandelion-like, 2in across, on long stems. Colors: Rose, White, Separate or Mixed. 50 seeds.

Barbata, Hawkweed. Plants spreading, rather course, large golden flrs in Summer; showy. 50s.

CROTALARIA, hha, Showy free-blooming leguminous annuals; blooming in large racemes during Autumn. The species vary greatly in size and habit and are very attractive when in bloom.

Argyrea, 10ft. Showy spikes of golden flowers; pretty foliage.

Juncea, 8ft. Tree-like, branches tipped with yellow. *Retusa*, 2ft. Free-blooming, flrs golden yellow and brown, pea-shaped, in huge upright racemes; showy; very beautiful. 25 seeds.

Spectabilis, 3ft. Bears a profusion of showy golden flowers during Summer; attractive in groups.

CRYPTOSTEMMA *Calendulaceum*, hha, 2ft. Yellow clustered at tip of branches; Marigold-like. 100s.

CUPHAEA *Miniata*, hhp, 2ft. Mexican plant, flrs deep scarlet with lilac center; pots or beds. 50s.

Platycentra, Cigar Plant, hhp, 1ft. Flrs scarlet tipped black and white; free-blooming; fine for pots or beds. 25 seeds.

Purpurea, hhp, 1ft. Purplish crimson, showy. 50s. *Silenoides*, hha, 18in. Flrs crimson-brown. 50 s. *Zimapani*, hha, 2ft. Flrs large, purple, showy. 50 s. Complete Special Mixture all varieties, 50 seeds.

CYNOGLOSSUM *Amabile*, Chinese Forget-me-not, ha, 2ft. A charming new annual of easy culture from China. Plants vigorous; bearing graceful sprays of lovely intense blue, sweet-scented flrs throughout Summer. A worthy garden flr. 100 s.

Amabile Pink, in growth and appearance this resembles the blue, only the flrs. are rich pink.

Coelestinum, ha, 18in. Flrs sky-blue, attractive in groups; honey-producing plant. 300s. 1-4oz 15c.

Furcatum, hb, 2ft. Flrs blue, in clusters. 100 seeds.

Linifolium, ha, 1ft. Venus navel-wort, white. 300s.

DAHLIAS, hhp. These are as easily grown

from seeds as Zinnias. Seeds germinate promptly, grow freely and like Zinnias begin to show buds in a few weeks. The plants like a rich soil and sunny situation and bloom freely from early summer till frost. Properly cared for the plants will do service for years. The flrs are of many rich and varied colors and some are variegated. I offer seeds of best quality such as I feel can be depended upon for the finest flrs. Treatment same as Zinnias.

Bodger's Gold Medal. These seeds are saved from Bodger's splendid strain of named double varieties and will afford the finest results. I offer them with entire confidence, as seeds grown by Bodger I consider entirely dependable. All the fine colors in splendid mixture. 20 seeds.

Cactus-flow'd Double, best Mx, from Holland. 15s.

Cactus-flow'd Single, finest sorts mixed. 35seeds.

Collarette, 3ft. Flrs. of various colors adorned with a collar of small petals around the center, novel and beautiful. 30 seeds.

Coltness Hybrids, 1ft. 80% true; very free-blooming; makes a showy bed; many colors. 30 seeds.

Giant Perfection, 4ft. Immense single flrs of various colors, including many beautifully striped and spotted sorts. 35 seeds.

Hornsfield Giant, 6ft. Producing large double flrs. in a great variety of color, new, very choice. 20 s.

Kelway's Show and Fancy, 4ft. Large double flrs. saved from exhibition varieties. Mixed 20 seeds.

Lilliput Double, 3ft. Small-flow'd, bright colors. 15s.

Paeony-flow'd Miniature, 3ft. Semi-double flrs. in many fine colors; for beds and to cut. 15s.

Striped and Spotted, 3ft. Single; fine; vary. 35 s.

Datura Fastousa

Dianthus Heddewigii Double

DATURA. Easily-grown garden flrs; large,

trumpet-shaped, mostly sweet-scented and quite showy. Some annuals and some perennials. They bloom freely during summer and are always attractive. I offer the following choice named sorts: *Ceratocaula*, hha, 3ft. Very large trumpet flowers, white and pink, fragrant; from June till frost. 30s. *Chlorantha* fl. pl., Golden Queen, hhp, 2ft. Splendid for pots or beds, flrs large, yellow, not unlike a *Paeony*; free and long-blooming, fragrant. 30s. *Cornucopiae*, wp, 2ft. Horn of plenty, large purple flrs, deliciously scented; fine for pots or beds. 30s. *Fastuosa*, hhp, 3ft. Flrs 6in. long, double; fine for beds or pots; White, Purple, or Mixed. 30 seeds. *Wrightii*, hhp, 2ft. Lovely; lavender-white flrs. 30s. Complete Special Mixture of above varieties. 40s.

DELPHINIUM Ajacis is the well-known annual garden Larkspur so popular and deservable because of the beauty and showiness of its great spikes of bloom. The varieties are fully described and offered under Larkspur. See page 37.

Rose Queen, rich intense rose; showy; beautiful.

Vesuvius, beautiful Wallflower-red, one of best.

Holland Prize Mixture, rich colors in splendid mixture, single, double, fringed. 500s. 1-4 oz. 15cts.

Kelway's Rainbow Mixture, large flowered, showing many new shades from pink to purple. 500s.

Ramona, 1ft. Glittering copper-gold with pink shadings, deeply frilled; appears dble; beautiful. 100s.

Complete Special Mixture *Eschscholtzia*, 1000s.

EUCHARIDIUM *Grandiflorum*, ha, 15in. Purple flrs early-blooming, showy in beds; pretty. 1000s.

EUCNIDE *Bartonioides*, ha, 2ft. Branching plants and long-stemmed sulphur flrs, showy stamens.

EUPHORBIA *Heterophylla*, ha, 2ft. Ornamental plant; upper foliage blotched red, white base. 50s. *Variegata*, *Snow on the Mountain*; ha, 2ft. White flrs, handsome green foliage margined white; very showy and attractive in beds. 75seeds.

EUTOCA *Viscida*, ha, 1ft. Very pretty deep blue flrs; showy in a bed; free-blooming. 100 seeds.

Wrangeliana, 1ft. Lilac flrs; good for beds. 1000s.

FEDIA *Cornucopia*, ha, 6in. A plant with clusters of red flrs on purplish thickened stems. 100seeds.

FELICIA *Bergeriana*, ha, 4in. Turfy plants; flowers daisy-like, an inch across, a lovely shade of blue.

FENZLIA *Dianthiflora*, ha, 4in. Masses of lovely rosy flrs; fine rock and pot plant. 100 seeds.

FRAGARIA *Indica*, hp, trailer; golden flrs followed by handsome scarlet insipid strawberry-like fruits.

GAILLARDIA. It should be better known.

Plants start readily from seeds, soon come into bloom, and if kept from seeding, will keep up a continuous display. The *Grandiflora* varieties have been much improved in size and colors, and a bed properly cared for will bloom freely for years beginning early and continuing until checked by frost. The same maybe said of *G. Lorenziana*, fine free-blooming double varieties. The flrs. are not only glorious in beds, and very desirable for cutting. Sow in a sunny bed and thin.

Amblyodon, ha, 2ft. Texas annual; blood-red. 75s.

Grandiflora, hp, 3ft. Separate or complete mixture.

Dazzler, pure golden yellow with big red center.

Kermesina Splendens, the richest crimson, showy.

Neudorf, flrs. large, cherry red with sulphur.

Oculata, light shades, brown center; very choice.

Portola Hybrids, compact plants bearing many large long-stemmed flrs. in varied rich shades.

Rhinegau, lovely yellow with red zone; beautiful.

Sanguinea, dark blood-red, tipped yellow; fine.

Semiplena, semi-double flrs; finest mixed colors.

Standholder, giant-flow'd, various colors in mix.

Sybilla, large vivid carmine tipped white with dark crimson center; showy; free-blooming, splendid.

Complete Mixture *Grandiflora* varieties 100seed.

Kelway's Exhibition, the finest known strain, flrs, of enormous size, wonderful variety of colors. 50s.

Lorenziana, fl. pl, ha, 18in. Large double flrs. in many colors: White, Dark Red, Sulphur, Red tipped yellow, Red tipped white. Separate or mixed.

Picta, ha, 1ft. White, Yellow, Rosy-white Scarlet, Quilled, separate or in complete mixture. 150s.

GAZANIA LONGISCAPA

GODETIA DUCHESS OF ALBANY

GAMOLEPIS Tagetes, ha, 6in. Bright yellow flrs; very dwarf; fine for edgings; floriferous. 100s.
GARDOQUIA Betonicoïdes, hha, 2ft. A fine showy mint with spikes of handsome purple flrs. 200s.
GAURA Lindheimeri, ha, 3ft. A pretty border plant with graceful sprays of rosy white flrs. 100 seeds.

GERARDIA Hybrida, hp, 3ft. Showy, hardy, bearing an abundance of pretty tubular flrs of various colors; splendid for beds. 350 seeds.
GERBERA Jamesonii, hhp, 2ft. Barberton Daisy, from Africa; lovely rich scarlet flowers. 10 seeds.
Adnet's Giant, Transvaal Daisy, hhp, 15in. Fine pot plants, blooming for weeks, flowers Aster-like on long stems; fine for cutting; good border plant South. Colors rich and range from white to orange and through flesh to crimson. Mixed. Seeds start in 10 to 15 days. 12 seeds.
GILIA Achilleifolia, Queen Ann's Thimble, ha, 1ft. Blue flrs in clusters; long stems, fine to cut. 800s.
Linifolia, ha, 15in. Large white flrs, fine for beds.
Micrantha, ha, 6in. Plants spread out and are covered with vivid rose flowers; beautiful; rare; fine for beds or pots. 800 seeds.
Tricolor, 1ft. Yellow, violet, and white; fine. 800 s.
GLADIOLUS Hybridus Praecox, hp, 2ft. Finest new large-flowered mixed. Seedlings bloom the first year when sown under glass early in March. 30 s.
GLAUCIUM, Horn Poppy, hb. A very showy garden plant, the flrs large and of bright colors, borne on spreading-topped plants, of easy culture; showy.
Leiocarpum, 1ft. Attractive brilliant orange red flrs.
Tricolor, 3ft. Large orange black-spotted flowers.
GODETIA, ha. When in Europe, I saw no flowers that were more attractive than those of Godetia. The beds were glorious sheets of rich color of rose, red, white, and variegated, each variety occupying a different bed. The plants start readily from seeds. Sow early in rows 6in apart and thin out. I offer choice new-crop seeds of the finest single and double varieties, and the flowers will be a revelation to those who never grew them.
Double-flow'd Varieties. Separate, each 500 seeds.
Azaleiflora fl. pl., 15in, double rose with crimson spots; free-blooming; beautiful as an Azalea.
Azaleiflora Cornelia, 15in, lovely satin-rose, fine.
Brilliant, 15in, rich crimson-rose, white center.

Carminea, 2ft, vivid carmine! with pink border.
Lilacina, 2ft, lilac with carmine base; charming.
Rosea, 2ft, large double, brilliant rose; splendid.
Rosy Morn, 2ft, beautiful coral pink; superb dble.
Schaminii, 2ft, lovely bright rose, very attractive.
Complete Special Mixture, Double sorts, 800 s.
Single-flow'd, separate varieties, each 800 seeds.
Brilliant, 15in, rich crimson with white center.
Cattleya, 15in, lilac suffused with white.
Crimson Glow, 1ft, true, compact, dark crims
Duchess of Albany, 15in, satiny-white; exquisite.
Gloriosa, 1ft, darkest glowing red; handsome.
Lady Satin Rose, 1ft, satiny brilliant rose.
Mauve Queen, 15in, Heliotrope color; handsome.
Prince Henry, 15in, satin-rose with crimson spots.
Rosamond, 1ft, vivid rose with white; compact.
Complete Special Mixture Single Varieties 1000s.
Pelargonium, 18in, big clusters of blush pink single flrs; each petal showing a distinct carmine blotch.
Sweetheart, 18in, plants branching, covered with large exquisite shell-pink flowers, the effect being that of a well-grown blooming Azalea.
Complete Mixture, single and double. 1000 seeds.
GOSSYPIUM Herbaceum, hha, 3ft, cotton, white. 50
GRAHAMIA Aromatica, ha, 1ft, yellow, sweet. 50 s.
HEBENSTRETIA Comosa, hp, 1ft, white, sweet. 50s.
HEDYSARIUM Coronarium, French Honeysuckle, hhb, 3ft. Flowers bright red in long racemes, showy in the garden and fine to cut; also white or mixed.
HELIANTHUS, Sunflower, ha. Showy easily grown plants, beginning to bloom when small and continuing until the seeds ripen. Flrs large, mostly shades of yellow; produced freely even in dry weather.
Large-flow'd Single Varieties, separate each 40s.
Bismarckianus, 10ft, golden yellow, very showy.
Gaillardiflorus, 8ft, zoned brown and red, showy.
Giganteus, 12ft, Russian; huge golden flrs, fine.
Golden Nigger, 6 ft, golden yellow, black eye.
Macrophyllus Giganteus, 15ft, tall, giant flowers.
Primrose, 8ft, sulphur yellow, odd and attractive.
Sanguineus, 10ft. The new blood-red sunflower.
A hybrid between H. Annus and H. Cucumerifolius; big branching plants, each branch tipped with a large brilliant red flower; exceedingly showy as single specimens or in groups.
Sutton's Red, 6ft, red with golden margin, showy.
Complete Special Mixture, Single Varieties, 50 s.

Heliopsis Lemoine's Giant

Iberis Gibraltarica

Large-flow'd Double Varieties, separate 40 seeds.
Californicus, 6ft, golden yellow with green center.
Chrysanthemiflorus, 10ft, huge, lacinated petals.
 Dwarf Variegated Foliage, 3ft, green and cream.
Fistulosa Dwarf, 3ft, orange flrs, large, double.
Globosus Fistulosus, 8ft, plants free-blooming; flowers double to the center; splendid.
Multiflorus, 6ft, double, very showy; mixed.
 Complete Special Mixture, double varieties. 50 s.
 Small-flowered Varieties, separate, 100 seeds.
Diadem, 5ft, lemon, dark eye; cactus petals.
Erato, 4ft, cream, black center, cactus petals.
Lilliput, 10in. Spreading; very free-blooming; endures drought; fine for low beds and borders.

Silver King, sulphur yellow, brown spots; fine.

Star of India, crimson striped yellow; attractive.

Complete Mixture Single French Varieties. 150s.

French Tall Gold-striped Scotch, 30in. Rich brown with distinct gold stripe; saved only from prize flrs very special selection of extra large and well-marked flrs. A glorious bedding plant. 50 seeds.

Bodger's Tree. 6ft. Many fine colors in mixture 40s.

New Climbing, grows 15ft. high under favorable conditions, and bears a wealth of big double flrs. of many colors; grown in pots it blooms well in winter. Needs protection. 30 seeds.

Tagetes Signata Pumila, 1ft. Plants become a globe of yellow bloom; for beds, blooms till winter. 50s.

Tagetes Lucida, 18in, deliciously fragrant, yel. 50s.

Complete Special Mixture of all the varieties of African and French Marigolds. 200 seeds.

Martynia Proboscidea

Matricaria Capensis

Mignonette Large-flow'd

Mimulus Tigrinus

MARTYNIA, hha, 18in. Vigorous, rather prostrate plants. When once introduced it will produce a number of plants from self-sown seeds. Flrs are showy and handsome; borne in terminal racemes. Frangens, flrs. reddish-purple with crimson throat. Lutea, showy yellow flrs; fine for groups. Proboscidea, Devil's Claws, white, yellow, violet. Tricolor, rose with dark spots; easily grown.

Complete Special Mixture of *Martynia*. 25 seeds.

MATRICARIA, Feverfew, ha. Readily grown from seeds; the plants becoming masses of lovely flrs during summer. Every flower garden should have a bed of these showy handsome annuals.

Alba Plennissima, 2ft. Dble., pure white; splendid. *Capensis* fl. pl., 2ft. Masses of pure white flrs, perfectl double; showy; fine for cutting. 200 seeds.

Eximia fl. p., 2ft. Large pure white double flrs. 200s. *Golden Ball*, 8in. Flrs double in masses; rich golden yellow; excellent for beds; beautiful. 300 seeds.

Silver Ball, like *Golden Ball*, but white flrs 300s.

Complete Special Mixture of *Matricaria*, 500s.

MATTHIOLA *Bicornis*, Evening-scented Stock, ha, 18in. A little plant bearing a profusion of lilac flrs; a small bed perfumes the whole garden. 2000s.

MEDICAGO *Intertexta*, Calvary Clover, ha, 8in. A beautiful plant with clover-like leaves, each lobe having in the center a large distinct red blotch. The plant is not only remarkable for its interesting and handsome foliage but the seeds are enclosed in a capsule which, when unrolled resembles a miniature crown of thorns. A most interesting and handsome plant for beds or pots 15seeds.

Scutellata, ha, 10in. This trailer has snail-like seed vessels and is interesting for that reason. 20seeds.

MESEMBRIANTHEMUM *Cordifolium Variegatum*, ha, 6in. Handsome variegated foliage, rosy purple flrs; highly valuable for beds and the rockery.

Criniflorum, ha, 3in. Flrs an inch across, borne in profusion on spreading plants; delightful shades of white, rose, crimson, buff, apricot and variegated; fine for rockery and beds.

Crystallinum, Ice Plant ha, 8in. A fleshy procumbent; bearing small white flrs. and covered with showy protuberances resembling crystals of ice; very curious; sometimes used for garnishing and is an interesting rock plant, thriving in a well drained sunny bed.

Spectabilis, hha, 1ft. Crowded leaves; pretty red flr. *Tricolor*, hha, 6in. Pretty; flrs rose and white with dark center; showy; likes sun and sand.

MIGNONETTE, ha. These are popular garden subjects on account of their delightful fragrance. The flowers are not particularly attractive, but much improved. The colors range from white to deep red, and shades of yellow. I offer the finest sorts. *Bismarck*, 1ft. Considered one of the best, an improved *Matchet*; robust, compact, with huge spikes of richly scented red bloom; for pots or beds. 500s. *Common*, Sweet-scented. The original sort bearing masses of small terminal racemes; flrs having the richest perfume and also fine for bees. Why not have a patch of this for producing honey? 1oz. 10c

Diamond, 15in, lovely pure white, fragrant. 500s. *Gabriele*, 15in, big reddish spikes; beds, pots. 500s. *Giant Pyramidal*, 18in, large spikes of red flrs. 400. *Goliath*, 1ft, bears mammoth spikes of dble red flrs. *Golden Queen*, compact, free-blooming, large golden flowers on long spikes, beautiful. 500 seeds. *Large-flow'd Improved*, ha, 15in., fragrant. 2000s. *Matchet*, Benary's Famous Strain, 15in. This is the best of *Mignonettes*; plants strong, compact, very free blooming. *Rosy Red*, *Golden Yellow*, *Pearl White*, *Separate* or mixed. 200 seeds.

Victoria Perfecta, 1ft. Brilliant red, fine spikes. 300s. *Complete Mixture*, all fine varieties. 500 seeds.

MIMOSA *Pudica*, Sensitive Plant, hha, 2ft. Prostrate plant with pretty pinnate leaves that droop when touched; pink flowers. 50 seeds.

Spegazzini, Tree Sensitive Plant, fine for pots. 20s.

MIMULUS, Monkey Flower. The following *Mimulus* are valuable, some hardy and suitable for beds while others are desirable as pot plants for their bright and beautiful flrs, abundantly and almost perpetually produced. They like sandy soil and partial shade.

Cardinalis, hp, 18in. Deep scarlet, orange and red.

Cupreus Bismarck, hhp, 6in. Rich crimson-scarlet; dw't free-blooming; fine for pots, rockeries. 1000s

Fire King, hp, 8in. Giant; very large and attractive; fiery scarlet; splendid for pots. 1000 seeds.

Imperialis, hp, 6in. Big duplex, Hose-in-Hose flrs. golden yellow with distinct red spots and blotches.

A very beautiful pot plant, the flrs borne freely for weeks; readily started from seeds and the plants soon come into bloom, very desirable.

Luteus, hp, 1ft. Flrs yellow with dark throat; blooms in summer; likes a moist shady place.

Moschatus, Muck Plant, hp 6in. Fine for hanging baskets, fragrant foliage; yellow flrs.

Queen's Prize, hhp, 6in. Very large flrs richly spotted, free-blooming; pot plant likes sand. 1000s.

Quinevulnerus Maximus, hp, 1ft. Large-flow'd mixed colors. 500 seeds.

Ringens, hp, 2ft. Erect lavender-blue flrs; pretty.

Tigrinus, 8in. Beautiful garden flrs. spotted brown; free-blooming, fine for pots or beds. 1000 seeds.

Complete Special Mixture of *Mimulus*. 1000 seeds.

MIRABILIS, Four-o'clock. A beautiful tuberous-rooted flower, the branching plants literally covered every evening and morning with bright-colored, often variegated, flowers, the prevailing colors crimson and gold. Plants are easily grown from seeds and thrive in any rich sunny bed. The tubers are hardy South, but must be protected North.

Tall, hhp, 2ft. Makes a beautiful bed or border, blooms continuously all season. *Crimson*, *Red*, and *White*, *Lilac*, *Yellow*, *White*, *Yellow* and *Red*, *Separate* or mixed. 30 seeds.

Tom Thumb, hhp, 1ft. Very dwarf and compact; fine for edgings and beds. Colors: *Carmine*, *Dark Crimson*, *Tricolor*, *White*, *White* and *Red*, *Yellow* and *Red*; separate or mixed. 30 seeds.

Longiflora, 2ft. *White*, *Violet*, or mixed. 20 seeds.

Complete Special Mixture of *Mirabilis*. 30 seeds.

Nasturtium Tom Thumb

Nemophila, Finest Sorts

MONARDA Hybrida, hp, 3ft. Fine mixed shades of salmon, rose, crimson and scarlet. 100 seeds.

MYOSOTIDEUM Nobile, hp, 18in. New Zealand Forget-Me-Not, flrs, large, deep blue edged white. Sow in heat, transplant to a shady bed.

MYOSOTIS, Forget-me-not. These are modest but very beautiful flowers for a moist shady place, and are easily started from seeds. The flowers are in clusters, plants are almost continuously in bloom. **Alpestris**, hb, 5in. One of the best for either garden or rockery; flrs. are in clusters and very fragrant in the evening. Colors: Blue, White, Rose, mx. 500s. **Dissitiflora** Perfection, hp, 9in. Large blue; free. 250. **Distinction** Praecox, hp, 8in. New, early, ever-blooming; lovely blue semi-double flrs. in big clusters; blooms in ten weeks.

Elsie Fonrobert, hp, 6in. Large-flow'd, blue, choice.

Isolde Krotz, hp, 6in. Large-flow'd, long-blooming.

Marga Sacher, hp, 1ft. Flrs deep sky blue, an inch across; fine for pots and the rockery. 100 seeds.

New Compact Blue, hp, 6in. Masses of blue flrs.

Oblongata Perfecta, hp, 1ft. Sky blue, winter-bloomer. 500 seeds.

Palustris Semperflorens, hp, 9in. The true water Forget-me-not; blue clusters produced freely from spring till late fall. 200 seeds.

Ruth Fisher, hp, 6in. Compact plants, bearing a wealth of large azure flrs in fine clusters.

Semperflorens Rosea, hp, 1ft. New, everblooming from early spring till winter, beautiful pure rose flrs in clusters; fine for rockeries.

Star of Love, hb, 8in. Clusters of rich blue flrs; fine for rockery also for pots.

Stricta, Royal Blue, hb, 1ft. Pillar-like, large, 500s.

Sutton's Royal Blue, hb, 6in. Rich indigo blue, long stems, free-blooming, very fine. 500 seeds.

Sylvatica, hp, 6in. Wood Forget-me-not, blue, 500s.

Victoria, hb, 8in. Dwarf, globular plants covered with bloom, central flrs double; best for borders; tree-blooming. Azure, Rose, Indigo, Mixed. 500s.

Complete Special Mixture of Myosotis. 600 seeds.

NASTURTIIUM, Tom Thumb, hha. These grow 6in. high, branching and blooming profusely from June to almost frost; fine for beds and edgings. All are of easy culture. Plant out-doors in April and May in soil that is excessively rich, or sow in boxes and transplant to beds, setting the plants about a foot apart will produce large flrs.

Cloth of Gold, scarlet with golden foliage.

Crystal Palace Gem, yellow spotted purple-maroon.

Empress of India, deep scarlet, dark foliage.

Golden Queen, deep yellow with golden foliage.

King Theodore, purple garnet with dark foliage.

Lady Bird, golden yellow, spotted crimson; fine.

Prince Henry, pale yellow spotted carmine; showy. **Queen of Tom Thumbs**, variegated leaved; mixed. **Salmon Queen**, salmon rose, dark foliage.

Separate 30 seeds. Complete Mixture. 50s., oz. 15c.

Lilliput, 10in. Charming new class, flrs. and leaves small and graceful, free-blooming, many fine colors, mixed. 30 seeds.

NEMESIA, hha. These beautiful flowering plants are becoming more popular every season. They start readily from seeds and the plants bloom freely for weeks when bedded out. They are also very useful for greenhouse or window culture when grown in pots during the winter months, for which purpose the seeds should be sown in August.

Blue Gem also **White Gem**, hha, 1ft. Here is one of our loveliest, most free-blooming little annuals; the flrs appear in wonderful profusion and richly decorate as edgings, small beds, rockeries, or the ground of rose-beds. A celebrated Horticulturist writes, "No Gention of the Alps given the best of rock gardens could do so much for beauty". 300s.

Grandiflora Tigrina, hha, 1ft. Very large flrs, richly scented and charmingly spotted and blotched.

Lilacina, 1ft. Profuse; pink and lilac, gold eye. 300s

Strumosa, Large-flow'd, hha, 1ft. Splendid for beds and pots; flrs rich and varied, come in great abundance, and are wonderfully attractive. 250 seeds.

Strumosa Nana Compacta, hha, 8in. Magnificent bedding and pot plants, rivalling Phlox in show and beauty yet rarely seen in gardens. Plants branch and the flrs are so abundant as to make a sheet of rich color. 300 seeds.

Triumph, 1ft. Large, showy flrs, free-blooming, compact, rich colors; fine for beds; pots. 500 seeds.

Versicolor, 1ft, blue, lilac, white mix.; small. 300s.

Complete Special Mixture of Nemesia. 500 seeds.

NEMOPHILA, ha, 6in. Very beautiful dwarf annuals, each plant stooling out and forming a clump; covered with very pretty cup-shaped flrs. about an inch across. Sown in autumn the plants bloom early in spring and are wonderfully showy in a bed. These are greatly admired and should be better known.

Atomaria, Holborn Blue Bell, ha, 6in. Make a beautiful bed; sow either in Fall or Spring and thin to 4in. apart; dark blue, 500 seeds.

Crambeoides, light blue, beautiful, showy. 500s.

Discoidalis, blackish purple edged white. 500s.

Insignis Marginata. Blue and white, beautiful. 500s.

Maculata Purpurea, lilac and white; fine, showy. 500

Purpurea Rubra, rosy lilac, fine for beds. 250s.

Complete Special Mixture of Nemophila. 600 seeds.

NICANDRA Physaloides, ha, 3ft. A Peruvian plant; flrs large, cup-like, blue, drooping. 100 seeds.

Nierembergia Frutescens

Oenothera Evening Primrose

NICOTIANA, hha. These are elegant garden plants blooming continuously throughout summer. They are easily grown from seeds and the plants thrive in good soil and sunny situation. The flrs. are tubular, lovely in color and come in clusters, making a fine display. The new compact varieties are splendid for beds and borders.

Affinis, 2ft. Star-like white deliciously-scented flrs, showy, free and continuous-blooming; a fine pot or garden plant thriving in any sunny place. 500s.

Affinis Hybrida Grandiflora, 18in. Charming large-flow'd, sweet-scented hybrids, many colors. 500s.

Crimson Bedder, 15in. A fine new bedding plant; free-blooming; flowers rich crimson, a mass of bloom throughout the season; one of the best. 200s.

Crimson King, 18in. Splendid for beds; flowers rich velvety crimson, the brightest of *Nicotianas*. 500s.

Glaucia, 9ft. Big glaucous leaves; golden flrs, showy.

Grandiflora Purpurea, 5ft. Flrs wine-red. 500s.

Macrophylla Gigantea, 7ft. Huge; red flrs. 500s.

Sanderae Hybrida, 2ft. Many fine colors. 500s.

Suaveolens, 18in. Flrs white, in panicles. 150s.

Sylvestris, 6ft. Pretty, free and continuous-blooming; large trusses of white, sweet-scented flrs; drooping; very attractive, always admired. 500s.

Complete Special Mixture all varieties. 800 seeds.

NIEREMBERGIA *Frutescens*, hp, 2ft. Blue, cup-shaped flrs; excellent for cutting. 750 seeds.

Gracilis, hhp, 1ft. Branches and blooms profusely; flrs cup-like, white tinted lavender; beautiful; very desirable. 250seeds.

NIGELLA, ha. Beautiful, easily-grown; flrs. large and charming; foliage lace-like; self-sows.

Hispanica, 18in, fine for cutting, mix. colors. 500s.

Miss Jekyll, 18in. This is the best variety, the flrs very double, borne freely, makes a fine display; colors: Blue, White, Separate or Mixed. 300 seeds.

Complete Special Mixture of all varieties. 500s.

NOLANA *Atriplicifolia*, Chilean Bell-flower, ha, 10 in. Flrs. large, *Petunia*-like, lavender-blue with yellow throat. 100seeds.

Grandiflora Alba also *Cornflower Blue*, ha, 6in. A fine pot, bed, or basket plant; flrs large. 100s.

NOTOBASIS *Syriaca*, hha, 2ft. Syrian Thistle, pretty.

NYCTERINIA *Capensis*, hha, 1ft. White, reverse brown, blooms at night, vanilla-scented. 1000s.

Selaginoides, hha, 6in. Pink with yellow eye, excellent for pots, borders, and rockeries. 1000 seeds.

OBELISCARIA *Pulcherrima*, ha, 18in. The pretty Obelisk Flower; large showy flrs. on long stems velvety crimson with gold edge and brown center.

OCYUM *Basilicum*, 1ft., fine pot plant; attractive.

OENOTHERA, Evening Primrose. Annual and perennial flowers of much beauty, the prevailing color yellow, bright and attractive. The following do well in rich soil and a sunny situation.

Acaulis, ha, 6in. Large and beautiful, white and golden flowers, stemless, May to September. 300s.

Afterglow, hb, 3ft. Yellow with red calyx. 500s.

Clutei, hb, 4ft. Large soft yellow; splendid. 250s.

Drummondii, hb, 2ft. Flrs 3in. across, yellow. 500s.

Drummondii Nana, 1ft. Large pale yellow flrs.

Fruticosa Major, hb, 2ft. Large golden flrs. 500s.

Lamarckiana, hb, 4ft. Flrs 4in across, yellow. 1000.

Macrocarpa, hp, 8in. Prostrate plant, golden flrs.

Missouriensis, hp, 8in. This makes a splendid rock plant when grown in dry sandy soil and full sun. In rich soil it grows too freely to bloom well. Long trailing stems with narrow shining leaves. 50s.

Rosea Mexicana, hhp, 6in. A pretty dwarf species with large deep rose flrs; showy.

Taraxacifolia, ha, 6in, flrs large white and yellow.

Tetraptera Rosea, hhp, 6in. Lovely cup-shaped flrs, continuous; desirable for pots. 100 seeds.

Trichocalyx, hb, 2ft. Considered the finest; flowers large, white, sweet-scented; easily-grown. 250s.

Complete Special Mixture all varieties. 500 seeds.

OMPHOLODES *Linifolia*, hp, 1ft. Racemes white flrs.

OXALIS *Cloth of Gold*, hp, 6in. Masses of golden clusters in summer; sweet-scented; a bulbous per.

Rosea Delicata, hha, 6in. A charming compact plant covered summer or winter with lovely clusters of salmon-pink flrs; for borders, pots, baskets.

Tropaeoides, ha, 4in. Purple foliage, yellow flrs; useful for rockery and edgings.

Valdiviana, hp, 6in. Yellow flrs; free-blooming.

Complete Special Mixture of *Oxalis*. 500 seeds.

OXYURA *Chrysanthemoides*, ha, 18in. Yellow shading to white, yellow disk, free-blooming. 100s.

PANSIES, hp. These are so well and favorably known that a description of their exquisite beauty and usefulness in the garden is unnecessary. They are simply indispensable, and if I were to name a half dozen of our best seedling flowers the Pansy would be one of them. There is, however, much difference in the strains, some being greatly superior in the vigor and free-blooming quality of other plants, as well as the great size, form, variety and richness of colors and variegations. I am pleased to say that the seeds I offer are from Pansy specialists, all of the new crop, and cannot be surpassed in quality, regardless of claim or price. I challenge comparative trial. They are unrivalled.

American Beauty Blend. This is the finest blend of Pansies that can be made. It contains seeds of *Vis Extra Giant-flowd.*, *Roggli Swiss Giant* and *Bugnot's Mammoth*, including all the rich colors and exquisite variegations of these strains.

Apricot Queen, compact, free-blooming, flrs. medium size, pretty, apricot shaded yellow, dark center.

Bedding Mixture, choice mixture of all colors; for beds, Holland-grown, fine. 200s. 1-4 oz. 20 cts.

Benary's Exhibition, finest of blotched Pansies, huge frilled blooms, richest, varied colors. 50 s.

Benary's Non-Plus-Ultra, exceedingly rich mixture; blotched; frilled; wonderfully effective. 100seeds.

Cassier's Giant Blotched, largest-flowd class of blotched Pansies; saved from choice plants. 50s.

GIANT-FLOWERED BEDDING PANSY

Curled and Fringed, richest colors, finest mix. 200.
 French Giant, large, rare colors, blotched. 100 s.
 Giant-flowered, separate varieties, 200 seeds.
 Adonis, beautiful light blue with white center.
 Apolla, ruffled, bronze with dark spots.
 Apricot, self-colored, new, very showy.
 Canary, large, ruffled; yellow with black eye.
 Cardinal, magnificent cardinal-red, new.
 Dark Blood Red, fringed; one of the finest.
 Emperor Fredrick, rich purple shaded golden.
 Emperor William, rich ultramarine blue.
 Eros, deep velvety brown with gold margin.
 Germania, giant ruffled flrs; choice colors mixed.
 Gold King, golden yellow with big dark eye.
 Golden Queen, pure golden yellow, very fine.
 Indigo Blue, a remarkably fine blue Pansy.
 King of the Blacks, coal-black, very showy.
 Madame Perret, many shades of red on white.
 Peacock, blue with white edge, very beautiful.
 Quadricolor, blue, red and white, with clear edge.
 Snowflake, spotless white, odd and showy.
 Solfatare, soft sulphur yellow with blue spots.
 Vulcan, large, brilliant dark red, 5-blotched.
 Complete Mixture Giant-flow'd varieties. 300 s.
 Giant Mastadon, enormous flrs. of richest colors;
 new; saved from selected plants only. 100 seeds.
 Mette's Triumph of the Giants. A highly developed
 strain, mixture of all rich colors. 50 seeds.
 Orchid-flow'd, fine frilled flrs; light shades. 200 s.
 Roggli New Swiss Giants, Vis choice re-selected,
 the most popular of Giant Pansies, always enthu-
 siastically admired for it's exquisite colors, va-
 riegations and of huge size. 100 s.; 1-32nd oz. 50c.
 Roggli Alpenglow, cardinal shades; giant flrs. 100s.
 Roggli Berna, deep velvety blue; attractive; rare.
 Roggli Lake of Thun, blue with dark blotches. 100 s.
 Striped Mammoth Parisian, not the largest size, but
 beautifully striped and mottled; rich colors. 200 s.
 Vis all Giants, mixture of Giant-flow'd sorts. 200s.
 Vis Market Strain, large substantial blooms, show-
 ing very fine colors and markings. 200 seeds.
 Vis Super-giant. This is the last word in Pansy im-
 provement, largest flrs, longest stems, greatest
 variety in colors and variegations, most compact
 and free-blooming plants and surpassing all others
 in the many elements that go to produce a perfect
 strain. These Pansies are of surpassing beauty and
 are unrivaled. My seeds are direct from the origi-
 nator and are of the latest crop, gathered from se-
 lected plants. None better. 50 s; 1-32 oz 50 cts.
 Giant Winter-blooming. These are unusually hardy,
 and bloom very early in spring; indeed where win-
 ters are mild they bloom throughout the cold
 months with a little protection, as a cold frame or

lath house, they will bloom during the Northern
 winters. Started in August or early September, so
 as to come into bloom by winter, you may often dig
 fine flowers out from beneath the snow.

Celestial Queen, beautiful sky blue, large, fine.

Charm of March, rich velvety blue, showy.

Helios, pure golden yellow without eye.

Ice King, silvery white with dark blue eye.

Jove, violet, upper petals azure shading to white.

March Beauty, velvety dark blue, superb.

Mars, rich ultramarine blue with dark eye.

Winter Sun, golden yellow with dark eye

Woden, black, odd but very showy.

Complete Mixture all varieties. 200s. 1-16 oz. 15c
PAPAYER. These are old-fashioned flrs, but
 how showy and beautiful they are! Once in the
 garden they mostly take care of themselves. The
 large ones are as handsome as Paeonies, and quite
 as showy and pleasing, while the single flrs ex-
 hibit a wonderful variety of shades and variega-
 tions, and are always admired. In garden beds and
 borders they are truly gorgeous, and a few seeds
 scattered about the vegetable beds make bright
 and beautiful the vegetable garden without detri-
 ment to the growing plants. Poppies should a-
 dorn every home and it pays to use only the im-
 proved varieties, such as I offer. The seeds may be
 sown either in Fall or early Spring. Do not let the
 plants crowd if you would have the best results.

Ariel fl. pl., ha, 3 ft, salmon on white, blue spots.

Cardinal, fl. pl., ha, 1 ft. Rich colors in mix. 1000 s.

Danebrog, ha, 3 ft. Scarlet blotched white. 1000s.

Double Fringed, ha, 3 ft. These are the richest and
 most showy of all Poppies, and should be found in
 every garden. The flowers are large feather-balls
 and make a glorious display. Colors: White, White
 striped red, Salmon Rose, Pink, Red on white,
 Scarlet, separate or mixed. 2000 seeds.

Double Paeony-flowered, ha, 18 in. Huge double
 flrs not unlike a Paeony in appearance; the petals
 are broad and over-lapping. They are of easy cul-
 ture and very satisfactory. Colors: White, Brilliant
 Rose, Salmon Pink, Cochineal Red, Cardinal Red,
 Striped, Deep Purple, Pansy Violet, or Mix. 2000s
 Flanders Field, ha, 18 in, rich scarlet, re-sows. 2000
 Glaucium, Tulip Poppy, 18 in, vivid scarlet. 500 s.
 Iceland or Mudicaule, hp. These are beautiful per-
 ennials but bloom first season when started early.
 The flowers are large and showy, come in colors.
 Coonaria Pinks, hp, 15 in. Art mixed shades. 250s.
 Fakenham Hybrids, hp, 18 in. Finest of all Iceland
 Poppies; giant flowers on long stems, come in a
 wonderful range of colors, blooms continuously
 from May till frost if kept from seeding.

Pentstemon Giant Gloxinia-flowered

Petunia Macdonald's Dwarf Ramona Strain

Giant Tangerine, hp, 18 in. Huge fiery-orange flrs; true to color; a grand novelty.

New Sunbeam, hp, 18 in. An improved new race, large showy flowers on strong stems; fine for cutting; very fragrant; always admired; mixed colors.

Pearls of Dawn, hp, 1 ft. Flrs large, satiny, crinkled in delicate shades of pink shaded glowing orange-blush and salmon shaded pink.

Japanese Pompon, ha, 2 ft. Many colors mix. 500 s.

Lavigatum, ha, 2 ft, scarlet, black and white spots.

Mikado fl. pl., ha, 18 in, white margined wine-red.

Ranunculus-flow'd, ha, 2 ft, a lovely double Poppy of medium size, free-blooming; mix; colors. 1000s.

Rhoeas Fire King, ha, 18 in. Very free-blooming; flrs orange-scarlet with gold stamens.

Shirley, Single-flow'd, ha, 2 ft, exquisite. 1000 s.

Shirley Dwarf, Salmon shades also blue. 500 seeds.

Shirley Lilliput, ha, 1 ft, abundant small flrs. 500 s.

Shirley Ryburg, Double, ha, 2 ft; finest colors.

Shirley Cavalcade, ha, 1ft. New double Begonia-flowered; flaming orange-scarlet; very showy.

Shirley Double Queen, ha, 1ft. Delicate colors mx.

Umbrosum, ha, 18 in. Fine for sowing in grass.

Yellow Cardinal, ha, 2ft. Double, canary yellow.

Complete Special Mixture Annual Poppies 2000 s.

PARSLEY Beauty of the Parterre, the loveliest plant known for table decoration and garnishing; does well in pots, fine foliage and prettier than ferns.

PENTSTEMON Gloxinia-flow'd, hp, 2ft. Large flrs. of various colors, richly marked, like a Gloxinia.

Mette's Giant, hp, 2ft. Flowers large, Gloxinia-like, rich in color, borne in large racemes, fine for beds.

Sensation, hp, 2ft. New giant-flow'd hybrids; long spikes of big flrs in colors from pink to crimson.

Southgate Gem, hp, 2ft. Crimson-scarlet; an outstanding bedding plant; showy.

PERESIA Multiflora, hb, 3ft. Star-shaped, Aster-like porcelain blue flowers, showy, beautiful. 35s.

PERILLA Laciniatus, ha, 2ft. Large curled bronze leaves; Coleus-like; finest sort; self-sows. 1000 s.

PETUNIA. If I were asked to select the best all-round flower for the ordinary home, I would unhesitatingly name the Petunia, and especially the Dwarf Compact Single-flowered. The plants are readily started from seeds, soon come into bloom, becoming a glowing mass of exquisite, showy, and deliciously fragrant flowers, and remaining so throughout the season if not allowed to exhaust themselves by seeding. The plants will endure more neglect, suffer less from either wet or dry weather, and prove decorative to a degree surpassing that of any other flower. Then, too when once given a garden bed it will provide an

abundance of plants every Spring from self-sown seeds. Still more, if plants are cut-back and potted in Autumn, they will continue to bloom in a sunny window during Winter.

Hybrid Compact, hhp, 1ft. 1000 seeds, each kind.

Adonis, carmine-red with white throat, attractive.

Belle Etoile, white star on purplish-red ground.

Cockatoo, rich purple marked with pure white.

Erfordia, Rosy Morn, brilliant rose with a broad white throat, beautiful, profuse bloomer, fine.

General Dodds, darkest red, pots or beds, lovely.

Inflata Sapphire, new, blue, for beds and baskets.

Lord Courtney, brilliant rose with yellow throat.

Maculata, striped and blotched, red and white.

Magnifica, indescribably beautiful, mixed colors.

Marginata, flrs red with green margin, odd, showy.

Multiflora, spotted and starred, splendid mixture.

Norma, free-flowering; violet blue with white star.

Purple Prince, royal blue; indescribably beautiful.

Rose of Heaven, fiery rose, free and long-blooming.

Senator, rich violet-purple, white throat, lovely.

Snow Queen, large pure white flowers, floriferous.

Venosa, beautifully veined in prettiest shades.

Complete Mixture of above 1500 s, 1-32 oz. 15c.

Balcony Petunias. These grow in prostrate form, the branches long and drooping, especially adapted for porch boxes, pots, baskets, and urns. I offer the following: White, Rose, Dark Red, Red and White Starred, Violet Blue, and Mixed. 250 seeds.

Netted Blue Gem, the finest of blue Balcony Petunias, good for beds, porch boxes, or pots.

Miniature, 8 in. A fine novelty; each plant becomes a globe of small flowers in many fine colors.

Giant-flow'd Single. These are very much larger than the common hybrid Petunias, are more vigorous in growth and are spreading. While the flrs. are fragrant and much admired, they are not freely produced, and the plants are not desirable for showy beds. However, the flowers are so attractive that they are indispensable with all lovers of Petunias. I offer seeds of the largest and most beautiful of the named sorts, some are plain and others are elegantly fringed, appearing almost double in form; these are known as Superbissima.

Large-flow'd Plain-edged Varieties, 2ft. Sep. 75 s.

Brilliant Rose, very attractive, a beautiful color.

Elk's Pride, largest, darkest, best velvety purple.

Kriemhild, dark crimson with large white center.

Silver-edged, black blue, silvery picotee edge.

Silvery Lilac, a lovely rare shade on soft ground.

White Cloud, 12 in. New compact bushes covered with pure white blooms; beautiful; beds and pots.

Complete Mixture Large-flow'd Plain edged. 100s.

Phlox Drummondii New Giant Perfection

Portulaca Single Large-flowered

Superbissima, Ruffled Giant, Tigred Throat. 75 s.
 Alba, large white flowers, yellowish throat, fine.
 Camilla, new pink, red veins, dark throat.
 Canary Bird, Hufeld's handsome new yellow.
 Dark Copper Red, new splendid analine red, fine.
 Fimbriata, tyrian rose, flowers fringed, superb.
 German Empress, bluish white veined violet blue.
 King Alphonso, rich crimson, boldly ruffled.
 Maculata, new, copper and white, blotched; rare.
 Miranda, carmine, scarlet throat, waved, frilled.
 Prince Wurtemberg, dark crimson, black throat.
 Princess Wurtemberg, pink, veined purple, showy.
 Quadricolor, pink veined purple, yellow markings.
 Yellow Throated, purple, rose, white, yel. throat.
 Silver Rose, pink flushed rosy carmine, splendid.
 Titania, rich dark crimson, white margin.
 Complete Mixture Superbissima Petunias. 100 s.
 Grandiflora Theodosia, 2 ft, extra large flowers;
 fringed, brilliant rose, golden throat. 100 seeds.
 Macdonald's New Dwarf Ramona Strain, compact,
 free-blooming, giant fringed flrs; best for pots and
 beds; surprising array of rich colors. 100 seeds.
 Large-flowd Double. These giant hybrids are ro-
 bust in growth and develop double flrs. of enor-
 mous size, most beautiful, rare and vivid combina-
 tions of colors. They will be a revelation to those
 who know only the old-fashioned Petunias. The
 seeds here offered are of unsurpassed quality.
 Benary's Giant Double, superb mixture of all giant
 double Petunias, rich variety of colors. 30 seeds.
 Benary's Super-Giant Double Fringed. This is the
 last word in double Petunias. The flrs. are of
 enormous size and marvelous beauty, every
 bloom a prodigious feather-ball, rich in color
 and deliciously scented. It is simply a world-
 beater and stands unrivalled. If you want some-
 thing of surpassing beauty, get these Super-
 giant Petunias. New-crop seeds direct from
 Benary. 25 seeds 5cts., 125 seeds 20cts.
 Brilliant Rose, charming color, showy, fringed. 25
 Hurst's All Double, Fringed. All plants produce
 fully displayed flowers in many splendid colors;
 entirely new. 25 seeds.
 Lady of the Lake, pure white, large, fringed. 25 s.
 Hybrid Double, Small-flowered varieties, each 50s
 Azaleiflora, 14in. high, pure white, very pretty.
 Lilliput, 10in, spotted and striped, fine colors.
 Striped and Blotched, free-blooming, fine mixed.
 Hybrid Double Mixed, free-blooming, fine in beds.
 NOTE: Seeds of Double and Large-flowd Petunias require to
 be sown with special care, and those who do not have the
 patience to sow such seeds should get the small single-flowd
 compact varieties. These Double Petunias are all produced
 by careful hand fecundation, and it is criminal to get them
 and plant in a box or bed as you would Phlox or Zinnias.
 PHACELIA Campanularia, California Blue Bells, ha,
 8in. Branching little plants bearing a profusion
 of lovely gentian blue bells; for beds or pots. 500
 Congesta, ha, 2ft, blue, showy in masses. 500 s.
 Grandiflora, ha, 5ft, dark blue, rare, lovely. 250 s.
 Parryi, ha, 1ft, saucer-shaped, violet, 5 spots. 1000
 Tanacetifolia, ha, 2ft, bluish pink, fine for bees.
 Complete Special Mixture of Phacelia. 1000 seeds.

PHLOX Drummondii, ha. This is one of our
 best annual flowers. At the North plants should
 be started in beds or boxes and transplanted, but
 in the South the seeds may be sown in the Fall
 where plants are to bloom. They mostly re-seed,
 and cover the ground with volunteer plants. They
 like rather sandy, rich soil, and will grow in any
 garden. Seedlings begin to bloom when small
 and continue throughout the season. The bright
 flowers in many colors and variegations appear in
 big broad clusters. A carpet bed of the plants in
 special colors makes a glorious display. I offer
 choice new-crop seeds of the finest races, and can
 supply the colors separately or all in special mix-
 ture. They are hardy annuals, can be sown early.
 Cuspidata, 1ft, starry sorts in mixture, showy. 100s
 Fimbriata, 1ft, beautiful fringed, fine mixed. 100 s.
 Improved Grandiflora, 1ft. Splendid large flowers
 in big broad clusters; one of the finest for beds or
 borders, exceedingly showy grown in masses. All
 brightest and best colors mixed. 200s. 1-8 oz 25c.
 New Dwarf Compact, 6in. Very attractive in beds
 or pots, finest mixture of all choice colors. 150 s.
 New Giant Perfection. The latest in Annual Phlox.
 Plants grow 9in high, branch freely, and are liter-
 ally covered with huge broad clusters of showy
 flrs, rich and varied in color; making a marvelous
 display in beds or pots. Colors: Pure white, Violet,
 Yellow; Blue, white eye; Purple; Dazzling red;
 Fiery Scarlet; Rose; Scarlet, white center; Salmon
 rose. 75s. Complete Mixture, 150s., 1-16 oz 15cts.
 PHYSALIS Alkekengi, hp, 2ft. White flrs, red berries.
 Edulis, Cape Gooseberry, hp, 3ft, yel. edible fruit.
 Franchetti, Chinese Lantern, hp, 30in. Large or-
 ange-scarlet fruits in racemes.
 PODOLEPIS Chrysantha, ha, 1ft. Yellow and pink
 flowers; fine for pots and borders. 150 seeds.
 POLYGONIUM Orientale, ha, 7ft. Lovely drooping
 red spikes; very handsome; seeds start tardily. 50
 Variegatis, ha, 4ft. Variegated foliage; fine to cut.
 Ruby Queen, ha, 4ft. Bold, Canna-like tuft plants,
 highly decorative, covered with big vivid crimson
 spikes; blooms till Winter, beautiful.
 PORTULACA, Rose Moss, ha, 6in. These
 are among the most beautiful and free-blooming
 of our hardy annuals. The plants are low, spread-
 ing, and the seedlings begin to bloom when small
 and increase in size and beauty with age. The
 single flrs are cup-shaped, and the double appear
 like little double roses. In a bed the display is
 wonderfully attractive throughout the Summer.
 The plants like sandy soil and a sunny exposure,
 grow and bloom freely, and are never troubled
 with diseases or pests. They will endure more hot
 sun and drouth than almost any other flower.
 Double-flowd, Benary's Prize Strain. Orange, Rose,
 Purple, Salmon, Striped, White, 300 s., mx 500 s.
 Large-flowd Parana, distinct lovely bluish rose flrs
 in profusion till frost. 500 seeds.
 Large-flowd Single, many fine colors in mixture.
 1000 seeds 5cts, 1-16 oz 15cts.

Rudbeckia Purpurea Hybrida

Salvia Splendens Primus or Harbinger

PYRETHRUM Aureum Excelsior, hp, 6in. Dwarf, foliage deep golden yellow; fine for edgings. Golden Feather, hp, 1ft. Yellow foliage; edgings. Golden Gem, hp, 1ft, double white flrs, fine. 500s. Laciniatum Perfection, hp, 1ft, fine cut foliage. 500 Mette's Carpet of Gold, hp, 6in, improved, golden. Ptarmicaeflorum, hp, 6in. Silvery white; graceful. Selaginoides, hp, 6in. Fern-leaved, tufts of golden foliage; a good rare edging plant.

RICINUS, Castor Bean, hha. These are tall branching plants clothed with large tropical leaves often tinted rose or crimson. They are showy in groups, and always attractive. In mild climates they are perennial, and will grow twenty feet high. The Zanzibar Ricinus grows more dense and has larger foliage than the older kinds. All are handsome, and give a semi-tropical appearance to the grounds. Very easily grown, fine for backgrounds. Barboniensis Arboreus, 15ft. Green foliage, pretty. Coccineus, 7ft. New; lovely bronze foliage and glowing scarlet flowers and fruits; the best. 10 s. Gibsoni, 5ft. Dark red leaves and fruits; a good sort for a Summer hedge. 10 seeds.

Laciniatus, 8ft. New; beautiful lacinated leaves. 6s Sanguineus, 7ft. Red leaves and stems. 10 seeds. Zanzibarensis, 8ft, large-leaved; beautiful seeds of various colors and variegations, Cinerascens, Enormis, Maculatus, Niger. Sep. or Mixed. 10 s. Complete Special Mixture all varieties. 12 seeds.

RICOTIA Lunaria, ha, 9in. Showy lilac flrs. 20 s. **ROSA** Nana Polyantha, ha, 2ft. Baby Rose; blooms in 5 mos, white and pink, single and double. 15 s.

RUDBECKIA Bicolor Superba Semi-plena, ha, 2ft. Large double and semi-double flrs; golden yellow with brown markings.

Newmanii, hp, 2ft. Showy golden with dark disk. Purpurea Hybrida, hp, 4ft. Rich red, varied; long-blooming, showy and beautiful.

SALPIGLOSSIS Giant Gloxinia-flowered, hha, 2ft. The finest large-flowered, richest colored and variegated of all Salpiglossis; makes a glorious bed and is practically everblooming. Colors: Yellow, Crimson, Brown and Gold, Chamois, Deep Scarlet, Black, Light Blue, Lilac, Violet, Rose, Separate or in Complete Special Mixture. 150 seeds. New Dwarf, 1ft. Splendid colors in mixture. 150 s.

SALVIA. These are showy and beautiful in either beds or pots. The plants can be grown from seeds, thrive in a rich soil and sunny situation.

Argentea, hp, 5ft. Pretty silvery foliage, pink flrs. Carduacea, hb, 1ft. Blue with red anthers, showy. Coccinea, hha, 3ft. For pots or beds, fiery scarlet. Dichroa, hp, 3ft. Spikes of deep blue flowers, new. Farinacea, hha, 3ft. Azure flrs in long spikes, fine.

Globosa, hp, 4ft. Silvery-gray foliage, white flrs. Horminum, ha, 2ft. Blue, Red, White. 100 seeds. Nemorosa Superba, hp, 2ft. Branching, violet flrs. Patens, hp, 3ft. Intense blue, free-blooming, lovely. Ringens, hp, 2ft. Reddish purple, large spikes. Roemeriana, hb, 18in. Scarlet, very handsome. Sclarea, hb, 5ft. Showy, branching, bluish white. Tenorei, hp, 2ft. Bright blue, continuous-blooming. Turkestanica, hp, 3ft. Bright pink flrs, very pretty. Splendens. These are among the brightest and best of bedding plants. They are not only extremely showy, but retain their beauty all the season.

America, hhp, 1ft. Long spikes dazzling scarlet flrs. Bonfire, hhp, 18in. Compact erect habit, profuse. Fireball, hhp, 1ft. The name indicates the plant. Gigantea, hhp, 3ft. Fine for tall groups, specimens. Glory of Stuttgart, hhp, 18in. Showy scarlet flrs. Lilacina, hhp, 2ft. Lilac, golden-spotted foliage. Maroon Prince, hhp, 1ft. Rare, very deep violet. Primus or Harbinger, hhp, 1ft. Early, free-bloomer. Semperflorens, hhp, 1ft. Scarlet, surpasses others. Zurich, hhp, 1ft. Dwarf, compact, fine for beds.

Complete Special Mixture Salvia Splendens. 100s **SANVITALIA** Procumbens fl. pl., ha, 6in. A charming little trailer thriving in almost any situation and covered with bright double golden flowers, desirable for beds, edgings and the rockery. 100s. **SAPONARIA** Calabrica, ha, 1ft. Very free-blooming, makes a carpet of rich color. Rose, Scarlet, White. Separate or Mixed. 1000 seeds.

Officinalis fl. pl., Bouncing Bet, hp, 2ft. Double, pink flowers, fine for covering banks.

Vaccaria, hb, 2ft. A pretty and useful variety, bearing masses of showy flrs, fine for cutting. Rose, White. Separate or Mixed. 500 seeds.

Complete Special Mixture of Saponaria. 800 seeds.

SCABIOSA, New Dwarf Compact, hb, 18in.

This race is remarkable for its dwarf habit and the stooling out of the plants, thus forming a mass of big double long-stemmed flowers. Azure, Cherry red, Fiery crimson, White, Purple, Rose, Yellow. Separate or Mixed. 75 seeds.

Tall Large-flowered, hb, 3ft. Exquisite flrs borne aloft upon long, strong stems, exhibiting a great diversity of colors. Showy in the garden and excellent for cutting. Azure Fairy, Brick-red, Red and White, Rose, Scarlet, White. Separate or Mixed. Candidissima fl. pl., Snowball, hb, 3ft. Branching freely; each branch tipped with a large double flower, fine for cutting. 75 seeds.

Cattleya, hb, 2ft. A splendid novelty; great double flowers of rosy-lilac, an orchid shade.

Columbaria, hp, 2ft. A very valuable new species, rosy mauve flrs, beautiful, fine for cutting. 25 s.

Schizanthus Dr. Badger's Hybrids

Torenia Fournieri, Improved Large-flowered

Complete Special Mixture of Torenia. 150 seeds.
Fiery Scarlet, hb, 18in. Large globular double flrs of the richest scarlet; long stems; free-blooming.
Giant Loveliness, hb, 3ft. Large double delicate salmon-rose flowers on long stiff stems.
Minor Aurea fl. pl., ha, 3ft. Double, golden yellow.
New Shasta, ha, 2ft. Giant white flrs on long stems.
Peach Blossom, hb, 2ft. Big double pink flowers on long stems, an exquisite bouquet flower.

SCHIZANTHUS, Butterfly Flower. These are splendid annuals, the plants growing from one to two feet high, branching freely, and are almost smothered with delicate orchid-like bloom. The markings are white, rose, gold, crimson and violet.
Bridal Veil, hha, 15in. Pure white, very beautiful.
Chislehurst Hybrids, hha, 1ft. Large flrs in showy clusters, rich colors in charming variegations.
Dr. Badger's Hybrids, ha, 1ft. Among the finest of annuals, many rich beautiful shades mixed. 150 s.
Dwarf Hybrids, ha, 1ft. Beautiful colors mixed.
Grandiflorus, ha, 18in. A class of large-flowered
Pinnatus Roseus, ha, 18in. Rose on white ground.
Retusus Rosamond, ha, 2ft. Beautiful, rose pink.
Trimaculatus, ha, 18in. Lilac and white, gold spots.
Wisetonensis Excelsior, ha, 15in. Ideal pot plant.
Complete Special Mixture of Schizanthus 250 s.

SCHIZOPETALON Walkeri, ha, 1ft. Good Luck flr., almond scented, petals white, fringed. 100 seeds.

SCUTELLARIA Baicalensis Coelestina, hp, 18 in. Dense bushy habit; flrs blue; very free and long-blooming; fine for beds and the rockery.

SEDUM Coeruleum, ha, 3in. Charming for pots or rockery; flowers small, pale blue.

SENECIO Elegans fl. pl., ha, 18in. Very beautiful flowers in dense heads, double; fine for beds or bouquets. Blue, Rose, Violet, White, Mixed. 200 s.

SHORTIA California, ha, 6in. Golden daisy-like flowers, fine for beds and edgings; attractive.

SILENE Asterias Grandiflora, hp, 18in. Large, globular, crimson-scarlet heads; handsome.

Maritima, hp, 5in. White flowers, fine for rockery.

Orientalis Compacta, hb, 1ft. Clove-scented, rose.

Pendula fl. pl., ha, 1ft. Very beautiful, Rose, White, Red, Salmon, Deep Lilac, Separate or Mixed.

Ruberrima, ha, 1ft. Single, bright carmine-rose.

Complete Special Mixture of Silene, 1000 seeds.

SOLANUM Arboreum, hhsh, 6ft. Broad semi-tropical leaves; violet scented flowers; red fruits.

Atropurpureum, hha, 5ft. Red spines, purple flrs.

Ciliatum, hhp, 18in. Large scarlet fruits, showy.

Dulcamara, hp, 15ft. Hardy vine; flowers purple in clusters during Summer, scarlet berries in Fall.

Laciniatum, Kangaroo Apple, hha, 5ft. Large showy foliage; violet clusters, yellow fruits.

SPERGULARIA Azoroides, hha, 1ft. Pretty foliage and small bright blue flowers in profusion.

SPHENOGYNE Speciosa, hha, 1ft. Pretty daisy-like flowers; yellow with dark zone. 100 seeds.

STEVIA Eupatoria, ha, 18in. Showy flesh-colored flowers in profusion throughout Summer.

Purpurea, ha, 2ft. A Mexican branched plant with numerous heads of purple flrs; fine for bouquets.

Serrata, hp, 1ft. Small white flowers; very fragrant; produced freely throughout Summer and Fall.

STOCKS, Ten Weeks, hha. All the Stocks

are beautiful and very satisfactory for either outdoor beds in Summer or pots in Winter. Plants started in Spring begin blooming in Summer and continue until Winter. The flrs are large, double, deliciously-scented, and come in massive spikes.

Bismarck, hha, 30in. Large, full-double, richly scented, freely produced from June till October, elegant in beds or pots and fine for cutting. Colors: White, Chamois, Azure, Brilliant Rose, Dark Blue, Crimson, Blood Red, separate or mixed, 60 seeds.

Dwarf German, 1ft. German seeds grown from potted plants; finest quality. White, Canary, Rose, Crimson, Deep Blue, Light Blue, Sep. or Mx. 60 s.

Giant Old Rose, 4ft. Large trusses of richly scented double flowers, 2 inches across.

Large-flowering Dwarf, 18in. Long spikes, double.

Mammoth Column, hha, 3ft. Splendid colors mixed.

New Beauty, 30in. The finest of Stocks, profuse, dble, and of many colors, as follows: White, Rosylilac, Canary-yellow, Blood-red, Violet, Gold with Rose, Pink, Purple, Separate or Mixed. 60 seeds.

Perpetual Giant Perfection, hha, 18in. Exceedingly handsome; flrs very dble, in long spikes, mixed.

Victoria Bouquet, hha, 1ft, lovely, finest mixture.

SWEET WILLIAM, Annual, ha, 1ft. A fine hybrid showing a mass of sweet flowers throughout the Summer; splendid for beds and borders, 250 s.

SWEET WIVELSFIELD, ha, 18in. Few plants can be compared with this wealth of color and length of blooming season; flrs sweet-scented. 150 seeds.

SYMPHYANDRA Hoffmannii, hb, 1ft. Dense spikes of white bell-shaped flowers; attractive.

TITHONIA Speciosa, Mexican Sunflower, hha, 12ft. Tall, many branched plants bearing in late Summer numerous long-stemmed flaming scarlet flrs.

TORENIA Bailloni, hha, 1ft. Beautiful pot plant, or for a sheltered bed; golden, brown throat.

Fournieri, Improved Large-flowered, hha, 1ft. One of our loveliest, most easily-grown pot or border plants; blue with golden throat; lovely as a Pansy.

The Bride, lovely pink and white flrs; excellent.

Princess of Montenegro, blue, purple, and golden.

Compacta Nymph, blue with deep indigo, pretty.

Verbena Mammoth Queen

TRACHELIUM Coeruleum, hb, 1ft. Branching, free-blooming; pretty small blue flrs in large corymbs; fine pot plant. 1000 seeds.

TRIFOLIUM Incarnatum, ha, 1ft. Scarlet clover.

Suaveolens, ha, 18in. A very sweet-scented clover of easy culture, rose, pretty. 500 seeds.

TUNICA Saxifraga, hp, 9in. A pretty little perennial for edgings and rockery, free-blooming. 100 s.

URSINIA Anethoides, ha, 1ft. New, from South Africa, Aster-like, deep orange richly marked red.

VALERIANA Rubra, hp, 3ft. A lovely, showy, free-blooming border plant, flowers fragrant, in handsome clusters. White, Rose, Scarlet, Mixed. 300 s.

VENIDIUM Calendulaceum, ha, 9in. For rockeries or edgings, very profuse, golden blooms; showy. Fastuosum, ha, 30in. New, bright orange with dark center and maroon zone; flowers 4 to 5 inches across; long lacinated leaves; fine border plant.

VERBENA. The Hybrid Verbenas are among the most beautiful and useful of our flowers. Seedlings begin to bloom early and continue freely until Winter, the lovely fragrant clusters making a fine display in either beds, borders, or pots. In pots they bloom until Christmas. The common hybrids bloom more freely, and are really more showy than the Grandiflora and Colossal varieties but the flowers are not so large nor produced in such large clusters. They are all deliciously fragrant and continuous-blooming.

Mammoth Queen, hhp, 18in. These are of enormous flrs and clusters, and always call forth enthusiastic expressions of admiration. I offer finest kinds. Auricula Queen, many colors, large distinct eyes. Golden Queen, clusters of golden yellow flowers. Rose Queen, superb variety, charming soft rose. Salmon Queen, bright salmon-rose, white eye. Scarlet Queen, huge vivid scarlet, white eye, fine. Snow Queen, giant-flowered, lovely pure white.

Special Mixture Mammoth Queen varieties. 75 s.

New Mammoth, hhp, 18in. These are readily grown from seeds, easily transplanted, and give general satisfaction. The flowers are of all colors and are showy throughout the season.

Firefly, dazzling scarlet, makes a glorious display. Luminosa, luminous flame-pink shaded salmon. Purple Cloak, dark purple-red with white throat. Rose and Carmine, many pretty shades mixed. Royalty, vivid blue shades, showy in beds.

Striata, odd and rare shades charmingly striped. Miss Wilmott, bright salmon rose, large-flowered. Complete Mixture Mammoth varieties. 100 seeds.

Colossea, lovely pink shades, flowers over an inch across, in large umbels; also rose with white eye. Grandiflora Etna, intense Geranium-red with a cream-yellow eye, flowers in large trusses. 40 s.

New Royal Bouquet, 18in, upright, each plant being a bouquet of many shades and variegations.

Beauty of Oxford Hybrids, 15in. These new hybrids show colors from Rose-pink to Rose-red, and are the brightest colored yet produced from seeds. The flrs are produced in large clusters, and each flower is an inch or more in diameter. These hybrids are outstanding, and will undoubtedly become popular when better known. 40 seeds.

Dwarf Compact, 10in. These are especially desirable for beds and pots as they bloom freely and continuously. Pure White, Salmon-rose, Rose-pink. Separate or Mixed. 75 seeds.

Aubletia Grandiflora, Rose Vervain, hp, 15in. Large-flowered, reddish purple; showy; fine.

Drummondii, hp, 15in. Rosy violet in fine clusters. Erinoides, Moss Verbena, ha, 1ft. From Peru; small flowers in fine clusters. Violet, White or Mixed.

Venosa, hp, 1ft. Strong thrifty grower, largely used for bedding purposes; flrs. bright purplish-violet; makes a very effective bed if used with Alyssum.

Vinca Rosea

Wahlenbergia
"Platycodon"
or
"Chinese Bell
Flower"

VINCA Rosea, hhp, 1ft. A splendid ever-blooming plant for beds in Summer and pots in Winter; flrs Phlox-like, fine texture, rich in color and abundantly produced; endures the Winter in Florida, in the North the plants must be started early for beds. They like rich sandy soil and sunshine, and will endure dry or wet weather better than many other plants. This is one of the good things every flower garden should have. White, Rose, Carmine, White-eyed. 250 s. Mixed 500 s.

VIOLA Bosniaca, hhp, 4in. A lovely violet for the rockery; flowers deep purple in great abundance.

Cornuta, hp, 6in. These are admirably adapted for the rockery, beds and borders, as they come in bright colors and are very free-blooming, thrive in moist partial shade, have no enemies.

Admiration, very large circular purple flrs, showy.

Blue Gem or **Jersey Gem**, compact, flowers large, a pleasing shade of violet-blue; very desirable.

Blue Perfection, bright solid blue, free-blooming.

Cyclops, deep purplish violet, showy white eye.

Eureka, should be one of the first on your list; the seeds start easily and plants quickly come into bloom; rare and beautiful; flowers Heavenly blue with large white center.

Haslemere, lilac-pink, in great abundance, pretty.

Lutea, chrome yellow, pretty, showy free-flowering.

Papilio, the Butterfly Violet, flrs. bicolor, purple and white; profuse; hardy.

Puck, sage violet and canary yellow, bicolor, new, beautiful, very free-blooming.

Rose Queen, deep rosy-lilac, free, long-flowering.

Spring Messenger, bright, rich purple, beautiful.

Thuringia, flowers rich blue with fine contrasting white center, lower petals clear blue.

White Perfection, very large, perfect, pure white.

W. H. Woodgate, new; finest of all Cornutas, flrs charming blue, blooms continuously.

Complete Special Mixture of Viola Cornuta. 100 s.

Gracilis, hp, 6in. Deep purple, fine rock species of tufted habit, trailing, Spring-blooming. 50 seeds.

Little-Johnny-Jump-Up, hp, 4in. The old-fashioned violet found in old gardens, tenacious. 100 seeds.

Tufted Pansies, hp. These are valuable for beds or rockeries, and are exceedingly handsome.

Admirabilis, exquisitely blotched, superb mixture.

Ardwell Gem, large-flowd chrome yellow, choice.

David Simpson, lavender marbled crimson, fine.

Firmament, lovely sky blue, continuous-bloomer.

Nora Marrow, rosy lavender, a lovely color.

Primrose Dame, large-flowered, sulphur yellow.

Purple King, beautiful rich purple, free-blooming.

Snowden, pure white, handsome, very choice.

Complete Mixture of Tufted Pansies. 100 seeds.

VIRGINIA STOCK, 1ft. Showy everblooming annuals that bloom freely in Summer, and when grown in pots bloom well in the window in Winter; may be sown in Spring or Fall; repeated sowings keep up the display all season. Scw where plants are to bloom and thin. Red, White, Crimson, Carmine, Yellow. Separate or Mixed. 1500 seeds.

VISCARIA New Compact, ha, 8in. These are pretty border plants that may be sown in Spring or Fall; colors exceedingly bright, and a bed of the blooming plants is always greatly admired. Blue, White, Red, or Complete Mixture. 1500 seeds.

Blue Bouquet, ha, 1ft. A grand upright Viscaria, every plant becoming a bouquet of intense blue flowers, beautiful and effective in beds.

Cardinalis, Flame Flower, ha, 1ft. Beautiful rich scarlet flowers, glorious in beds, very attractive.

VITTADENIA Triloba, hp, 9in. A pretty spreading plant with rosy mauve and white flowers. 250 s.

WAHLENBERGIA or **Platycodon**, hp. One of the best hardy perennials, producing very showy flowers during the entire season. They form large clumps and are excellent for planting in the permanent borders or among shrubbery. Easily grown from seeds, which begin blooming in August if sown outdoors in April. The plants are tenacious, and once started in the garden will last for a number of years.

Grandiflora, 18in. Large-flowd, Blue or White. 75s.

Duplex, 18in. Dble, very fine, Blue or White. 40s.

Mariesi, 1ft. Dwarf, large open bell-shaped flowers. Rich Blue, Pure White, Separate or Mixed. 75 s.

Complete Special Mixture of Wahlenbergias. 100s.

WALLFLOWER. These are easily-grown and very beautiful sweet-scented flowers, but it is only recently that a race of Wallflowers has been developed that will bloom the first season. The plants grow 2ft high, producing big spikes of deliciously scented flowers, very showy in beds and good for cutting.

Early Parisian, hb, 1ft. Beautiful single-flowd varieties that bloom in four months, are very desirable for beds in Summer and pots in Winter. They are of easy culture and sure to bloom. Flrs. large, in fine spikes and very fragrant. Light Brown, Blood Red, Cream Yellow, Yellow with black bud, Mix.

Early Wonder, hp, 2ft. Developed by a famous German florist, Mr. Benary. Shows elegant dble flrs. in five months from seeds, and will bloom freely in Winter in pots when started in Mid-Summer. My seeds are direct from him, and I can supply all of the finest colors in mixture. 100 seeds.

Zinnia Bodger's Giant Dahlia-flowered

WHITLAVIA Grandiflora, ha, 1ft. Very pretty annual with lovely bell-shaped flowers, easily grown. Blue also White. 1500 seeds.

Gloxinoides, 1ft. Variegated blue and white. 1500 Complete Special Mixture, all varieties. 1500 s.

ZINNIA, hha. These are among the most important of all annuals. The seeds start readily and the plants quickly come into bloom and increase in size; are free-blooming throughout the season. The flowers are full-double, of many rich colors, and some distinctly and beautifully variegated. The plants of the various races grow from one to three feet high, branch freely, and are glorious in beds or borders. They are not troubled by insects or diseases, and are always satisfactory in growth and bloom.

Achievement, 3ft. This is different from all other Zinnias owing to the shape of its petals, which are tubular at the base, and expand in a Cactus-like form toward the tip; splendid mixed colors.

Bodger's Giant Dahlia-flowerd, 3ft. Years ago Mr. John Bodger of California began to improve the Zinnias, and since his death his sons have continued the improvements, resulting in a strain that produces enormous Dahlia-like flrs of the most varied and beautiful colors. I offer only seeds grown by Bodger which may be depended upon to give the very best results when planted.

Buttercup, rich cream-yellow, free-flowering.

Canary Bird, a delicate shade of primrose, very large and holds its color well until out of bloom.

Crimson Monarch, largest and best red, flowers often 8 in across, freely borne on thrifty plants.

Dream, a beautiful shade of soft lavender-blue, turning to purple as the flower grows older.

Eldorado, charming shade of rose on salmon, fine.

Exquisite, a most pleasing shade of tyrian rose, deepening towards the center; huge flowers.

Golden Dawn, enormous golden flrs, perfect form.

Golden State, yellow in the bud, turning to an attractive vivid orange when in full bloom.

Illumination, brilliant deep rose, self; gorgeous.

Lemon Beauty, enormous, yellow, brown shadings.

Luminosa, bright deep pink suffused salmon, new. **Meteor**, rich glowing red, suggesting the deep-toned shade of velvet; excellent.

Old Gold, glowing shade of old gold, splendid.

Old Rose, one of the most beautiful, distinct and fascinating, large flrs, charming, well named.

Oriole, immense orange and gold flrs, changing slightly as it ages, but at all times very pretty.

Polar Bear, immense, pure white, the best white yet found in Zinnias; true Dahlia form.

Purple Prince, rich deep purple, odd but showy.

Scarlet Flame, magnificent, scarlet with a delightful blending of orange throughout the petals.

Youth, beautiful soft rose self, a good forcer and shipper as it has superior lasting qualities, fine.

Separate 25 s. Complete Special Mixture 40 s.

Bodger's California Giants, 4ft. This class produces very large flat double flrs on long stems; showy in beds and fine for cutting. White, Lavender, Bright Rose, Salmon Rose, Golden Yellow, Orange Scarlet, Blood Red, Separate or Mixed.

Crispa, 2ft. Flrs. double, curled and crested petals, being twisted into most graceful forms; mixed.

Early Wonder, 1ft. Early-flowering, first of a new race, masses of lovely rose flrs on long stems. 15s

Gracillima, 1ft. Fiery scarlet flrs, beautiful. 35 s.

Grandiflora Robusta, 3ft. Huge flrs, mixed colors.

Haageana Perfection, 1ft. Compact, free-blooming, good for beds, dble orange and lovely rare shades.

Lilliput, Button-flowerd, 1ft. Branching plants, small double flowers; new and beautiful; fine for cutting.

White, Scarlet, Golden Orange, Salmon Rose, Salmon Pink. Separate or Mixed. 35 seeds.

Pumila, 1ft. Semi-dwarf, lovely for beds, branching, very free-blooming, fine for cutting. Colors:

White, Salmon Pink, Crimson, Scarlet, Mixed. 40s

Pumila Picotée Delight, 1ft. New salmon rose, very double, every petal curled, distinctly margined.

Scabiosa-flowerd, 3ft. Plants branching, free and continuous-blooming, flrs showy, really a curiosity, the outer row of petals are long and large, while the inner rows are short and tubular, giving the flower the appearance of a Scabiosa; mixed. 20 s.

Cobaea Scandens, Cathedral Bells

Sweet Pea Giant Spencer

BEAUTIFUL ORNAMENTAL VINES

BEDS of flowers tastefully disposed give brightness and beauty to a place, but it is the climbers that afford coziness and special charm to a home. They beautify unsightly spots; they break up the monotony of the grounds; they supply, like Jonah's gourd, quick shade from burning sun. A good variety of these plants should be found at every home. They are indispensable in giving a homey appearance, and imparting cheer and comfort and contentment to the inmates. The plants are readily started from seeds, and easily transplanted to where you wish them to grow. Furnish support when needed.

BEAN Scarlet Runner, hha, 15ft. An easily-grown vine bearing freely large clusters of rich showy scarlet flowers, followed by big pods of edible beans. 15 seeds; oz. 10cts.

BENINCASA Cerifera, hha, 15ft. A handsome Gourd vine, large leaves and showy golden flrs 4in across followed by white fruits 15in. long; for preserves.

BRYONIA Dioica, hhp, 8ft. A strong-growing tuberous-rooted perennial with racemes of small whitish flrs and red fruits, a good cover vine. 15 seeds.

BRYONOPSIS Laciniosa, hha, 15ft. A lovely rapid vine, pretty foliage and small flrs succeeded by charming little fruits, green with brown spots. 30.

CAJOPHORA Lateritia, hhp, 5ft. A rapid growing prostrate or climbing perennial, brick-red flrs.

CALAMPELIS Scabra, hhp, 15ft. The Glory Flower of Chili, a splendid climbing evergreen, the flrs bright and showy, in graceful clusters.

CANARY Vine, hha, 15ft. A very pretty vine of the Nasturtium family; flrs resemble a miniature Canary bird, and appear in great profusion. 12seeds.

CARDIOSPERMUM Halicacabum, ha, 15ft. Balloon Vine, very pretty, foliage soft green, flowers small white clusters, followed by balloon-like seed pods.

CLITORIA Ternatea, hha, 10ft. A curious and beautiful vine; large pea-like flrs, clear azure blue set off by a horse-shoe-shaped ring of pure white. 20s

COBAEA SCANDENS, Cathedral Bells, hha, 30ft. A beautiful, rapid-growing free-flowering vine too much neglected. It starts readily from seeds, planted edgewise, and will grow 30ft in a season, producing large graceful, showy purple and white bells throughout Summer and Autumn. Both foliage and flowers are surpassingly attractive. This vine has no enemies, and will grow in the sun or shade. It is a perennial South and will last for years. In the North it is grown as an annual. It also makes a fine pot plant for Winter-blooming when given a sunny window. Purple, White, Mix.

CONVOLVULUS Major, Morning Glory, ha, 30ft. A rapid vine bearing freely, large beautiful flrs.

throughout the season; sow early where plants are to vine. This is an old vine but is easily grown, and no flower exceeds it in pleasing texture and charming beauty. I supply the large-flowd strains in all the splendid new and old colors. White, White striped rose, White with rose center, White striped blue, Pale pink, Crimson, Dark red, Light blue, Lilac, Purple, and Mixed. 100 seeds.

Double-flowd, 20ft. Pretty dble and semi-dble flrs. **CUCUMIS** Flexuosa, hha, 20ft. Snake Cucumber, flrs yellow; fruits 3ft long, twisted and marked like a snake, when ripe they change to golden yellow. **Dudain**, 10ft. Orange fruits, very sweet-scented.

CUCURBITA Ficifolia, the beautiful Malabar Melon, showy foliage and fine large striped edible fruits. **Argyrosperma**, the beautiful silver-seeded Gourd.

CYCLANTHERA Explodens, hha, 10ft. A grand vine of rapid growth with handsome foliage and egg-size fruits that explode when ripe. 25 seeds.

CYPRESS Vine, hha, 25ft. Easily-grown, very beautiful vines in both foliage and flowers, numerous bright flrs that stay open all day and bloom from early Summer till frost. Scarlet, Rose, White, Mix.

DOLICHOS Lablab, hha, 20ft. A free-growing bean-like plant with purple flrs in great abundance, followed by reddish-purple pods that are as attractive as the flrs, a pretty vine to cover stumps, old buildings, trellises, or for shade. I supply separate colors of the following:

Giganteus, 6ft. Violet-red, resembles Sweet Pea. 12 **Japonicus** Albus, 2ft. A fine variety, white flrs. 12s **Violaceus**, 2ft. Lovely violet-colored flrs, fine. 12s. **New Dwarf** Pink, 2ft. Showy pink flrs, fine in beds. Complete Special Mixture of Dolichos. 15 seeds.

ECBALLIUM Elaterium, ha, 6ft. A handsome trailing plant with cordate leaves and golden flrs an inch across, followed by oblong hairy seed pods that when ripe detach from stem and violently eject the seeds from the stem end; curious and pretty.

ECHINOCYSTIS Lobata, Wild Cucumber, ha, 30ft. Graceful rapid vine with inflated balloon-like fruit.

Balloon Vine

Canary Bird Vine

Lophospermum Scandens

Thunbergia Alata

GIANT GOURDS or PUMPKINS. These are interesting as they often grow from 100 to 150lbs and are of various colors. They have a tender rind, edible. Etampes, big, bright red, orange flesh, thick, sweet. Gray Boulogne, gray, often 3ft across, good flavor. Potiron, mammoth yellow, keeps for Winter, good. Very Large Tours, gray and green, edible, inferior. Complete Mixture of Giant Gourds or Pumpkins.

HUMULUS Japonicus Variegatus, Japanese Hop Vine, ha, 40ft. A hardy annual vine, vigorous in growth and clothed with beautiful variegated and graceful foliage. Sow seeds early where plants are to grow; a splendid vine for covering Summer houses, old buildings, or unsightly spots. Likes a sunny situation and will grow 40 feet in a season. The flrs are small, white, unattractive, the beauty of the vine being in its wealth of graceful richly variegated foliage. 50 seeds.

IPOMOEAE. These are among the most desirable of vines. They are readily started from seeds, grow rapidly, bloom freely throughout the season, and cannot be surpassed for covering old walls, buildings, or trellises. Give strong support early. Most of the species are annual, but some are herbaceous perennials with tuberous roots. All of easy culture. **Bona Nox**, hha, 20ft. A vigorous vine bearing clusters of long-tubed bright lilac flrs all Summer, a handsome trellis or wall vine, the Evening Glory. **Coccinea**, hha, 30ft. Lovely vine with small graceful foliage and lovely scarlet flrs, somewhat like Cypress vine; open all day; of easiest culture. 20s. **Grandiflora Rubro-coerulea**, hhp, 40ft. Heavenly Blue, early-flowering; most beautiful of all Ipomoeas. Flrs large and of the most exquisite blue. **Hederacea**, hha, 12ft. The beautiful Ivy-leaved Ipomoea. Sky-blue, free and continuous-bloomer. **Huberi**, hha, 15ft. Flrs many colors, variegated fol. **Imperialis**, Japanese Morning Glory, hha, 20ft. New giant-flowd; beautiful large flrs in bright colors. **Leari**, hhp, 25ft. A rapid vine with intense blue flrs till Oct; likes a warm, sunny place and good soil. **Limbata Elegantissima**, hha, 20ft. Vigorous vine, flrs dark blue margined white; very handsome. 30 **Mexicana**, hhp, 30ft. A tuberous-rooted vine; flrs flesh deep center, produced freely in big clusters. **Nil Grandiflora**, hha, 30ft. Vigorous vine with big bell-shaped sky-blue flrs in abundance, graceful. **Noctiflora**, Moon Vine, hhp, 20ft. A splendid vine, free and long-blooming, flrs large, pure white, deliciously scented. Black-seeded or White-seeded. **Sanguinea**, hha, free growth, pretty foliage, scarlet. **Scarletina**, hha, 10ft. Pretty brick-red flrs, fine. 8s. **Setosa**, Brazilian Morning Glory, hha, 30ft. Hispid vine with big clusters of red flrs, start early. 8s. **Violacea Vera Praecox**, hhp, 40ft. Heavenly-blue.

LAGENARIA. This species includes many varieties of hard-shell gourds of various shapes and sizes, the flowers are white, showy, fragrant and pretty. **Bottle Gourd**, large, bottle-shaped with long neck. **Corsican** or **Dish**, depressed fruit, for receptacles.

Hercules Club, a vigorous vine with branched tendrils and broad leaves, the fruits are club-shaped; sometimes attains a length of 6ft, and is used by some people as food, easily grown.

Minima, small, used for pipes and children's toys.

Powder Horn, large, incurved like a powder horn.

Siphon or Dipper, a handsome vine, fruits having a long neck; used for dippers, bird houses, etc.

Sugar Trough, huge, used as troughs, lard tubs, etc.

LATHYRUS Azureus, Lord Anson's Pea, ha, 3ft. Flrs blue, solitary, long stems, a pretty variety. 25 s.

Pubescens, hp. Beautiful species from Argentine regions, pale blue flowers; likes a wall.

Rotundifolius, hp, 5ft. Copper-red flrs, long stems.

Tingitanus, ha, 6ft. Large purple and red flrs, fine.

LOASA Laterita, hhp, 5ft. A beautiful vine, red flrs.

LOPHOSPERMUM Scandens, hhp, 20ft. A lovely perennial vine with silvery foliage and large rosy tubular flrs; use for window or outdoor culture. 75

LUFFA, Dish-rag Gourd, hha, 15ft. Very handsome vine in foliage, flowers, and fruit; easily grown.

Acutangula, golden flrs and long showy fruits. 15 s

Cylindrica, handsome kind, beautiful flrs and fruit.

Macrocarpa, yellow flrs, large smooth fruits. 12 s.

Marylandica, very interesting, large showy fruits.

Sooly-qua, small-fruited sort, showy and attractive.

MAURANDYA, hhp, 6ft. Large-flowd, very free and long-blooming, graceful foliage, fine for trellises or to cover low fences. Rose, Purple, White, Mix.

MINA Lobata, hha, 20ft. Flrs bright rosy-crimson changing to orange, then to yellow, disposed in scorpioid racemes, corolla salver-shaped with a swollen tube. 25 seeds.

MOMORDICA Balsamina, Balsam Apple, hha, 6ft.

A pretty African vine, showy yellow flowers with brown spots, rich orange fruits, handsome. 30 s.

Charantia, Balsam Pear, 6ft. Similar to Balsam Apple, pear-shaped; fruits used in making salves.

NASTURTIUM Giant Fragrant. The old-fashioned Nasturtiums of our childhood have been greatly improved, but they still recall the hallowed associations of by-gone days. The vines are stronger, the flrs larger, fragrant, and the colors and markings more varied. The foliage, also, shows different graceful forms and charming variegations.

Asa Gray, beautiful creamy white, odd, effective.

Atropurpurea, brilliant deep crimson, choice.

Brilliant, fiery scarlet, dark foliage, very beautiful.

Butterfly, lovely yellow with showy salmon spots.

Cardinal, glowing scarlet, handsome dark foliage.

Chamaeleon, flaked and spotted, dark leaves.

Cloth of Gold, golden foliage, brilliant red flowers.

Edward Otto, brownish-lilac flrs, odd, attractive.

Fimbriatum, fine fringed varieties, rich colors mx.

Firefly, bright orange yellow with cardinal spots.

Golden Queen, golden foliage, sunflower yellow

Gunter's Hybrids, dark-leaved varieties mixed.

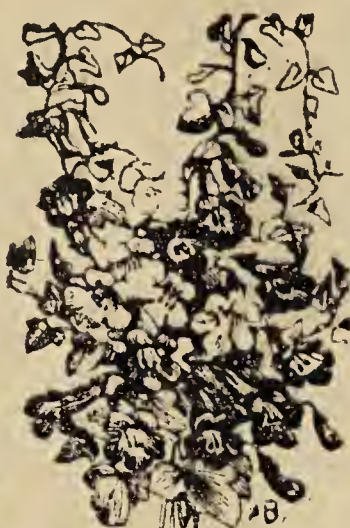

Hederifolium, Ivy-leaved, beautiful colors mixed.

Jupiter, pure orange yellow, large-flowd, attractive.

Kermesina, beautiful rich crimson, very showy.

Hercules Club Gourd

Maurandya Vine

Corsican or Dish Gourd

Ipomoea Coccinea

King Theodore, rich blood-red with dark foliage. Princess Victoria Louise, cream-yellow, red spots. Ruby King, raspberry-red, dark foliage, charming. Schillingi, flrs yellow spotted maroon, very pretty. Twilight, chamois tinted salmon-rose, charming. Complete Mixture above varieties, 50 s. oz 15cts. Golden Gleam, New Double, Sweet-scented. The most popular novelty of recent introductions, the plants are covered with a mass of large, double, deliciously sweet-scented, golden yellow flowers that are unexcelled for cutting. 20 seeds.

OVIFFERA GOURDS. These are vines with tendrils and yellow flowers, bearing small fruits of various sizes, shapes, and colors. They are easily grown, will trail, and produce their little hard-shelled gourds freely; called bitter-boxes; children's toys. Apple Gourd, shape of an apple, creamy-white. Bicolor, green and golden yellow, variegated, fine. Miniature, round, dark green, gold stripes, choice. Nest Egg, the shape and color of an egg, useful. Orange, resembles an orange in size, shape, color. Pear Gourd, pear shaped, striped yellow and white. **SWEET PEA, Christmas Spencer.** These are very large ruffled fragrant flrs of all colors that develop from ten days to two weeks earlier than other varieties; this is their peculiar merit.

Aviator, dazzling rich scarlet, showy and beautiful. Blue Bird, rich azure blue faintly tinted violet. Giant Rose Pink, extremely large, handsome. Glitters, an attractive orange-scarlet shade. Harmony, beautiful clear lavender, much admired. Madonna, largest pure sparkling white. Warbler, rich purplish-mauve; large, fine. Yarrowa, rose pink with lighter wings; showy. Complete Special Mixture 60 seeds, oz 25cts.

Cupid or Dwarf. These are bushy varieties that do not need support; they bloom profusely and are fine for beds and cutting. All the choice colors in finest mixture. 75 seeds, oz. 8cts.

Giant Spencer. These have all the good qualities of a perfect annual for general cultivation. They are of easy culture, growing in almost any soil or sunny situation, begins to bloom when small, and if freely cut they will bloom for a long period. Avalanche, elegantly frilled, pure white giant flrs. Bonfire, soft cherry-pink, white wings; huge frilled

flowers of great substance; very fine. Fortune, rich dark blue, large beautifully waved. Glen Eagles, true heavenly blue; very large, gracefully frilled flowers; long full stems. Grenadier, brilliant Geranium-red; intense large frilled flowers; sun-proof; very attractive. Huntsman, vivid scarlet, sun-proof; very large. Mary Pickford, cream-pink suffused salmon, very large frilled flowers, four to a stem; splendid. Olympia, rich vivid purple; glorious big flrs. Pinkie, clear rose-pink; mammoth flrs; long stems. Sunset, rose, amber and gold, the rich glow of sunset beautiful large waved flrs., choice variety. Supreme, soft clear pink, exquisite form and color. Tangerine Improved, rich orange-tangerine, fine. Warrior, rich velvety-maroon, large handsome. Wembley, rich lavender suffused plumbago-blue, a beautiful sort outstanding in size, form, and color. What Joy, rich deep Primrose yellow, large, exquisitely ruffled flrs., best yellow, rare attractive. The Prince, bright clear crimson, intense color. **Grandiflora.** These are large-flowered and free-blooming sorts, and this splendid mixture I offer is a studied formula containing proportions of various bright colors and shades. 75 s., oz. 8cts.

THUNBERGIA Alata, hha, 30ft. This is a beautiful easily-grown vine, blooming continuously from early Summer until severe frost, and if cut back and potted will bloom all Winter in the house. The flrs are an inch across; colors from white to rich orange, some spotted and eyed with black and white. A desirable vine, should be better known. **Alba Oculata,** white with large dark eye, pleasing. **Aurantiaca,** beautiful deep orange, very pretty. **Aurantiaca Oculata,** rich orange, large dark eye. **Bakeri,** pure white flrs attractive, fine for trellises. **Nankeen or Buff,** showy and beautiful, effective. **Oculata,** lovely yellow with black eye, beautiful. Complete Special Mixture above varieties. 25 s. **Gibsoni,** large orange flrs, seeds germinate tardily.

TRICHOSANTHES Colubrina, Serpant Gourd, hha, 15ft. A handsome vine, flowers pure white, pretty, fringed fruits 5ft. long, coiled like a serpent. 15s. **VICIA Gerardi, 4ft.** Lovely climber, blue flowers. **Snowdrift.** A quick-growing beautiful climber with pretty foliage and superb white flrs in abundance.

Some Fine Easily-grown Palms

The following splendid Palms are readily grown from fresh seeds, and are of the easiest culture. The seeds require from 2 to 6 months to germinate, so do not be impatient if the plants do not appear promptly. I offer the following splendid Palms separately or in complete special mixture.

ARECA Lutescens, an elegant graceful Palm; leaves shining green with yellow stems; beautiful.

BRAHEA Filifera, magnificent gray-green leaves with tiny thread-like filaments, robust growth.

CHAMAEROPS Excelsa, a robust Palm with obicular leaves at top of trunk, somewhat glaucous.

LATANIA Borbonica, splendid big leaves, spreading; popular, easily-grown fountain-like Palm.

PHOENIX Canariensis, one of the best for house culture; leaves arched, giving a graceful effect. **PHOENIX Robelina;** very handsome, vigorous Palm with graceful recurved leaves, fine house plant. **SABAL Palmetto,** a beautiful native Palm of Florida, big honey-producing flower-clusters; almost hardy. **SEAFORTHIA Elegans,** a splendid palm from Australia; very graceful, likes heat, and fibrous loam.

Gomphrena Globosa

Rhodanthe Manglesii

Helipterum Corymbiflorum

EVERLASTINGS or STRAW FLOWERS

The so-called Everlasting flowers compose a useful class as the flowers are straw-like, and when cut and dried in the shade retain their color and beauty for months. They are desirable for room-decoration during Winter when fresh flowers are not available. Many of these flowers are valuable for showy beds in the garden during Summer, all of them are of easy culture. Every gardener should have a big bed of these. I offer here the most desirable kinds.

ACROCLINIUM, ha, 18 in. A portion of the plants always produce single flrs from seeds, but these, while showy in the garden, may also be used for drying if cut early, otherwise the center will be discolored. Rose, White, Separate or Mixed.

AMMOBIUM Alatum Grandiflorum, hb, 3 ft. A very showy white everlasting of free growth, branching plants; flrs double; profuse, keeps well, cut early.

ASTER New Everlasting, hha, 2 ft. This Aster, unlike others, can be dried and used for Winter flrs. The plants make a showy bed as the flrs are large and attractive in color. Cut when they first open. Rose and Flesh. Separate or Mixed. 100 seeds.

CELOSIA Spicata, hha, 2 ft. A pretty garden flower and valuable everlasting from tropical Asia; flrs rosy white in fine spikes. 50 seeds.

GNAPHALIUM Foetidum, hp, 2 ft. Heads numerous, golden yellow; desirable everlasting. 100 seeds.

GOMPHRENA Globosa, hha, 2 ft. Beautiful free-blooming and continuous-blooming annuals of easy culture; splendid for beds and a first-class everlasting, retaining its form and color indefinitely; thrives in any soil and will endure drought and hot sun. It is a flower that should be generally cultivated for its beauty in beds, as well as for drying. Colors: White, Flesh, Rose, Carmine, Variegated, Separate or Mixed.

Globosa Compacta Rubra, 6 in. For pots or beds.

Aurea Superba, 1 ft. Long orange heads, showy; a beautiful everlasting that should be better known.

GYPSOPHILA Elegans, ha, 18 in. Small-flowered plants, the flowers appearing as a light cloud, being held on thread-like stems and are very numerous. Very graceful and almost indispensable for bouquets, also good for drying. Large-flowered White, Carmine, Rose. Separate or Mixed. 1000 s.

Muralis, ha, 6 in. Lovely plants for the rockery or edging; flowers rose, in profusion. 1000 seeds.

HELICHRYSUM Angustifolium, hp, 2 ft. Showy white foliage and handsome yellow flrs; fine.

Monstrosum fl. pl., ha, 30 in. Very beautiful large double flrs, start readily from seeds and are of the easiest culture; showy in beds and one of the best for drying. Will grow in any good garden soil, free and continuous-blooming. Colors: Pure White, Fiery-red, Bronze, Golden Yellow, Rose, Crimson, Salmon-rose, Sulphur. Separate or Mixed. 150 s.

HELIPTERUM Corymbiflorum, ha, 1 ft. A handsome white-flowered everlasting, the plant branching and blooming freely; flowers in corymbs. 50s.

Sanfordii, ha, 1 ft. Big corymbs of showy yellow

flowers; very attractive and desirable.

LONAS Inodora, ha, 1 ft. Small golden flowers in dense terminal heads. 300 seeds.

MOLUCELLA Laevis, ha, 18 in. Shell-like flowers; not showy but curious and always admired.

PHYSALIS Franchetti, Chinese Lantern, hp, 30 in. Large orange-scarlet balloon-like fruits in long racemes; dry and use for Winter decorations; edible when fresh; beautiful. 100 seeds.

POLYCOLYMNA Stuartii, hha, 2 ft. White, interesting, easily-grown plant, flowers dry well. 35 s.

RHODANTHE, hha, 1 ft. Excellent for pot and market plants, as well as fine for beds and drying; free and long-blooming; always admired.

Maculata, Rose also White, separate or mixed. 150s.

Manglesii, flowers rose and yellow, an elegant Australian everlasting. 150 seeds.

Complete Special Mixture of *Rhodanthe*. 200 s.

STATICE, Sea Lavender. These are of many kinds, and all are showy in the garden and excellent for bouquets, either green or dry.

Bonduellii, hha, 3 ft. Yellow, a good border species and a fine everlasting. 15 heads.

Caspia, hp, 2 ft. The most beautiful of all perennial Sea Lavenders; big sprays of lavender flowers.

Dumosa, hp, 2 ft. New, pure silvery gray; fine.

Fr. Kampf, hp, 3 ft. Intense indellible blue everlasting; full, strong, perfect spikes; earliest and finest of the *Sinuata* hybrids. 8 heads.

Incana Nana Hybrida, hp, 1 ft. Plants branching; flrs fragrant; many colors in cloud-like masses.

Latifolia, hp, 2 ft. A valuable garden flower retaining its place for years in rich soil and a sunny bed. Flrs very numerous, produced in branching panicles; blooms from June to August. A very useful showy perennial. 150 seeds.

Macrophylla, hha, 2 ft. Large-leaved, azure flrs.

Sinensis, ha, 18 in. White and yellow, fine. 100 s.

Sinuata, ha, 1 ft. One of the best; bright colors that retain their color when dried. 10 heads.

Spicata, ha, 6 in. Pink flrs in dense terminal spikes during Summer; pretty, showy.

Suworowii, hha, 18 in. Long branched spikes of bright rose flrs; strikingly beautiful. 250 seeds.

Complete Special Mixture of *Statice*.

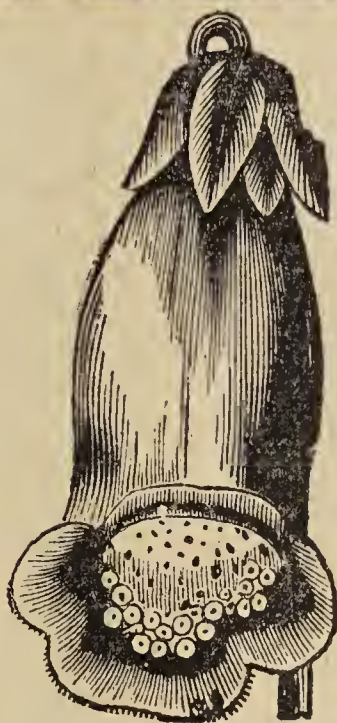

XERANTHEMUM, ha, 2 ft. Very beautiful everlasting, flrs large, double, long-stemmed and lasting. Imperial, double, large-flowered, dark red. 100 s.

Superbissima, globular flrs of great beauty. White, Rose. Separate or Mixed. 100 seeds.

Complete Special Mixture of Everlastings.

Armeria Formosa, Thrift

Digitalis, Foxglove

Pyrethrum, Painted Daisy

BIENNIALS AND PERENNIALS

THESE are valuable subjects of the flower garden, as most of them are not only showy and beautiful when in bloom, but will do service year after year for a long period, enduring cold, excessive rain and drouth, regardless of neglect and improper attention. They are easily grown from seeds, except a few which are tardy and will lie dormant in the ground for several months, or a year or two, before germinating. All are readily transplanted, and will generally thrive in the soil and exposure of an ordinary garden. When you make out your order, do not forget to select a few perennials. Once started, they will afford you as much satisfaction and pleasure as anything that you can grow. Directions for making outdoor beds and sowing seeds are sent with each package.

ACANTHUS Lusitanicus, hp, 3 ft. A statley plant with broad, dark green cut-foliage; and showy purple flowers in fine spikes. 8 seeds.
ACHILLEA Ageratum, hp, 3 ft. Heads of showy golden yellow flowers, very attractive. 150 seeds.
Filipendulina, Parker's, hp, 2 ft. Robust habit, large golden corymbs; showy.
Kelwayi, hp, 2 ft. Showy, bright red heads.
The Pearl, hp, 2 ft. One of our best garden perennials; beautiful double flowers in large heads, fine for cutting, blooms from Spring till frost.
Tomentosa Aurea, hp, 6 in. Bright golden repeated corymbs of bloom; glaucous, fine-cut foliage, dense habit, a splendid perennial for rock work.
ACONITUM, Monk's Hood, hp. These are elegant hardy perennials, the plants growing from 4 to 8 feet, showing spikes of rich colored bloom. A group of these should be found in every garden. Seeds often tardy in germinating.
Fischeri, 3 ft. Large spikes of rich deep flrs in Fall.
Lycotomum, 3 ft. Yellow, rather rare in gardens.
Napellus, 3 ft. Dark blue spikes; fine for the border and lasts for years. 15 seeds.
Napellus Praecox, 3 ft. Early-flowering beautiful new sort; flowers deep blue, rare, very desirable.
Rostratum Coeruleum, 4 ft, dark violet flrs, rare.
Tauricum, 4 ft. Beautiful deep blue flowers in dense upright racemes, handsome.
Uncinatum, 7 ft, rich deep blue, very attractive.
Wilsoni, 5 ft, from China, large porcelain blue flrs in handsome spikes, late.
ADENOPHORA Potanini, hp, 2 ft. Hardy Bell-flower, light blue, large drooping bells. 40 seeds.
ADLUMIA Cirrhosa, Allegheny Vine, hb, 20 ft. An exceedingly graceful vine with pretty foliage and clusters of lovely pink flrs in great abundance.
ADONIS Vernalis, hp, 1 ft. A splendid lasting perennial with large showy rich golden flowers, fine.
AETHEOPAPPUS Pulcherrimus, hp, 3 ft. New, from Caucasia, superb fluffy pink flowers 3 in. across.
AETHIONEMA Grandiflora, hp, 1 ft. Lovely rose flrs in long racemes, splendid. 10 seeds.
Pulchellum, hp, 4 in. An elegant hardy rock plant;

needle-shaped foliage, flowers lovely pink.
AGRIMONIA Eupatoria, ha, 2 ft. Flowers white in elongated spikes, profuse, serrated leaves.
AGROSTEMMA Coronaria, hp, 2 ft. Showy Phlox-like flowers and silvery foliage. Bicolor, Violet, Red, and White. Separate or Mixed.
Flos Jovis, hp, 1 ft. Fine rosy clusters. 100 seeds.
Walkeri, hp, 2 ft. A very attractive plant with extra large flowers of a brilliant rosy-purple.
ALSTROMERIA Chilensis, hp, 2 ft. Tuberous lily-like plants, flowers in fine racemes, pink and orange with crimson markings.
ALYSSUM Argenteum, hp, 1 ft. Silvery foliage and yellow flowers, neat for the rockery.
Montanum, hp, 3 in. Small sweet-scented golden flowers with silvery foliage, fine rock plant.
Rostratum, hp, 1 ft. A trailing hardy plant with masses of yellow flowers, for the rockery.
Saxatile Compactum, Basket of Gold, hp, 1 ft. Bears masses of small bright golden flowers in Spring, fine for beds and the rockery.
Saxatile Silver Queen, like Compactum but has sulphur yellow flowers.
Serpyllifolium, hp, 6 in. Earliest pigmy rock plant, grey foliage, yellow flowers, good.
ANEMONE Alpina Sulphurea, hp, 1 ft. A lovely variety with large sulphur flowers and pretty foliage.
Japonica, hp, 2 ft. Lovely rose and white flowers, beautiful; free-blooming; Autumn.
Narcissiflora, hp, 1 ft. White Narcissus-like flowers in fine large umbels; distinct and good.
Pulsatilla, hp, 8 in. Bears violet flowers in April; plant covered with silky hairs.
ANODA Hastata, hp, 10 ft. A new Mallow with lovely pink flrs and glaucous, almost evergreen foliage.
ANTHEMIS Macedonica, hp, 6 in. Free-blooming plant for edgings or the rockery; flowers white, very pretty, easily grown. 150 seeds.
Nobilis, Cammomile, hp, 1 ft. Fragrant cut foliage and white daisy-like flowers with a gold disk; for beds; and cutting; medicinal.
Tinctoria, Golden Marguerite, hp, 2 ft. Useful border plant; yellow shaded white; fine for cutting.

Aquilegia Haylodgensis

Aubrietia Hybrida Grandiflora

ANTHERICUM *Liliastrum Giganteum*, hp, 3ft. Flrs large, white, Lily-like, fine. 25 seeds.

AQUILEGIA, *Columbine*, hp. I have a splendid collection of these graceful, showy, and beautiful perennials, all hardy, easily-grown, free-blooming, and greatly admired. They delight in moist soil and partial shade, and are easily started from seeds, which require from four to six weeks to germinate, according to conditions.

Alpina, 2ft, blue flrs, 3in across, 2 or 3 on a stem.

Superba, 2ft, new, superb, flrs blue, white corolla.

Baicalensis, 2ft, beautiful blue, snow-white corolla.

Barr's Glory Strain, large elegant, long-spurred flowers in the greatest variety of colors, superb shades, very superior.

Benary's Improved Long-spurred, 2ft. A special strain surpassing all others, splendid.

Californica Hybrida, 3ft, sepals and petals tinged orange, long carmine spurs, canary corolla.

Canadensis, 1ft, old rose and golden yellow, 100s.

Chrysantha, 3ft, chrome yellow, long spurs, blooms all Summer, a splendid perennial. 150 seeds.

Double-flowd, 3ft, golden yellow, the best double.

Grandiflora Alba, 2ft, large snow-white flowers.

Coerulea, *Rocky Mountain Columbine*, 2ft, sky blue with white corolla, one of our loveliest, fine. 50s.

Citrina, 2ft, long-spurred, lemon yellow, fine.

Cuprea, 2ft, copper-red with straw corolla; long-spurred; an excellent Benary introduction.

Double-flowered, 2ft, white, yellow, blue, mixed.

Rose Queen, 2ft, lovely soft rose, white corolla.

Erecta Nana Atrovioleacea, 1ft, dble violet-blue. 50

Flabellata Alba, 1ft, pure white, early-flowering.

Formosa, 1ft, large dble flrs, nodding, graceful. 50

Glandulosa, 3ft, large, nodding lilac-blue white tip.

Haylodgensis Hybrids, long-spurred, splendid, mx.

Helena, 2ft, large flowers, violet-blue. 50 seeds.

Hybrida Vernalis, 2ft, semi-double, long-spurred.

Jaetschaut, 3ft, large golden flrs, peach spurs. 50s.

Nivea Grandiflora, 3ft, large semi-double. 150 s.

Olympia, 3ft, big blue flrs, lovely white corolla.

Scott Elliott's Long-spurred, mixed colors, fine.

Siberica, 1ft, large dble, blue, rose, red, mixed. 50

Skinneri, 2ft, yellow with scarlet spurs, profuse. 50

Stellata fl. pl., 3ft, double, erect flrs, mixed. 100 s.

Truncata, 3ft, old rose with yellow, early, fine. 100

Vervaneana fl. pl., rosy-lilac, variegated foliage.

Vulgaris fl. pl., 2ft, comes in many forms and colors, blooming throughout the season; can be grown a long streams or in by-ways. Mixed colors, 150 s.

Long-spurred varieties in splendid mixture. 150 s.

Complete Special Mixture all sorts, single and dble.

ARABIS *Alpina Grandiflora*, *Rock Cress*, hp, 8in.

One of the earliest and handsomest of all Spring flrs, pure white in big clusters throughout Spring, making a glorious display. A "must have."

Alpina Rosea, a new variety with rosy flowers.

Racemosa, hp, 8in, white, dwarf, large-flowered.

ARENARIA *Laricifolia*, hp, 6in. A pretty white-flowered rock plant from Switzerland.

Montana, hp, 6in. Large white flowers, very freely produced on long stems; a fine rock plant.

ARISTOLOCHIA *Tomentosa*, hp, 30ft. A handsome hardy herbaceous vine with semi-tropical foliage and golden flowers followed by pretty seed-pods.

ARMERIA, *Thrift*, hp. Charming Spring and Summer flowering hardy plants, glorious in a bed or border, lasting well, and of the easiest culture.

Dianthoides, 6in, light pink in close heads.

Formosa, 1ft, rosy-pink flowers in great abundance in Summer and Autumn; fine for borders or beds.

Gigantea Rubra, 2ft, new, lovely deep rose flowers.

Lauchiana, 6in, tufts, brilliant rose flowers; fine.

Maritima Rosea, 1ft, lilac-rose flowers; fine.

Maritima Splendens, bright rosy-magenta.

ARNICA *Montana*, hp, 1ft. Showy golden flowers, 2 inches across during July; a very handsome but rare plant; excellent for the rockery.

ASCLEPIAS *Tuberosa*, hp, 2 ft. Showy clusters of orange and scarlet flowers; Summer. 25 seeds.

ASPERULA *Hexaphylla*, hp, 3ft. The leaves small, in whorls, flowers white, tubular, panicled.

Odorata, hp, 6in. Small snow-white flowers in May and June; very sweet when dried, pretty, a useful perennial for the rockery.

ASPHODELUS *Luteus*, hp, 4ft. Yellow fragrant flrs in long racemes; Lily-like. 8 seeds.

ASTER, *Perennial*, *Michaelmas Daisy*, hp. These are fine Autumn flowers mostly blue and red shades. They are among our best perennials; some bloom well the first season. See page 28.

Alpinus, 9in. Large violet-blue heads; fine border.

Alpinus Goliath, 2ft. Large flowers, soft blue, fine.

Amellus, 2ft. Blue and rose shades mixed.

New Double-flowered, 3ft. Fine double and semi-double flowers, blue and red shades mixed. These are new and rare but the plants do not all produce double flowers, although my seeds are of the best.

Snowflake, 2ft. Flowers large white; showy.

Sub-coerulea, 9in. Very large lilac-blue flowers with gold center, fine for the rockery.

Complete Mixture of above varieties. 100 seeds.

ASTILBE *Arendsii Hybrida*, hp, 2ft. Rose shades; splendid large graceful plumes, very beautiful.

Davidii, hp, 4ft. Long graceful panicles of rosy-lilac flowers, rare and beautiful.

Campanula Carpatica

Campanula Medium Double-Flowered

ASTRANTIA Major, hp, 2ft. Pretty rose and white flowers in umbels, fine border or rock plant.

ATROPA Belladonna, hp, 3ft. Drooping, bell-shaped, purple flrs. and cherry-shaped, poison berries.

AUBRIETIA, Rainbow Rock Cress, hp. Spreading plants that form a sheet of early Spring bloom, lovely shades of red and blue, very beautiful, lasting for weeks; a gem for planting in crevices of rocks or walls, forming a cataract of color.

Eryii, 6in. Large, rich blue flowers, splendid.

Graeca, 6in. Violet, large flrs, fine Spring bedder.

Hybrida Grandiflora, 6in. Large flowers of various colors, as white, lilac, rose, dark red, blue and violet, very useful for borders.

Purpurea, 6in. Dwarf creeping plant, deep purple. Complete Special Mixture of Aubrietia.

AURICULA Kelway's New Giant, hp, 1ft. Very beautiful hardy Spring-blooming flowers, mixed.

BAPTISIA Australis, hp, 2ft. A strong-growing plant suitable for the border, dark green deeply-cut foliage and spikes of rich indigo blue flowers. 25 s.

BETONICA Grandiflora, hp, 2ft. A hardy border plant; flowers reddish purple in large heads.

BOCCONIA Cordata, hp, 5ft. Plume Poppy, panicles of chamois flowers, heart-shaped leaves.

Microcarpa, hp, 6ft. Amber buds, buff flowers.

Thunbergii, hp, 7ft. Flesh buds, coffee-colored flrs.

BOEHMERIA Nivea, hp, 3ft. Large leaves, under side covered with dense white hairs, flrs white.

BUPTHALMUM Salicifolium, hp, 2ft. Large yellow flowers, willow-like foliage; handsome.

CALAMINTHA Alpina, hp, 6in. A fine rock plant or for the edge of the border, succeeds in dry soil and in a sunny position, small blue flrs. in June.

CAMPANULA, Perennial Bellflower, hp.

These beautiful Bellflowers are hardy perennials, lasting for years. Many of them are fine for beds, and all are excellent garden flowers; they are of the easiest culture, growing in either sunny or partly shaded positions.

Alliariaefolia, 3ft, big cream nodding bells, 300 s. **Barbata**, 1ft. Queen of the Alpino meadows. Grayish-blue bells, excellent rock plant.

Carpatica, 1ft, beautiful large open long-stem bells, fine for beds and rockeries, White, Blue, Mix. 300

Garganica, 6in, rotate blue flowers, fine for window boxes or baskets, blooms all Summer, seeds small.

Glomerata Acaulis, 4in, a pretty rock plant, large close heads of deep blue flowers.

Glomerata Superba, 2ft, huge clusters, violet. 150s. **Grandis**, 3ft, large blue saucers, very showy. 150s.

Lactiflora, 3ft, fine border species, flrs light blue in terminal clusters, beautiful.

Latifolia, 2ft, very large blue bells, free. 150 seeds.

Alba, 2ft, very large pure white, profuse. 150 s.

Brantwood, 5ft, flrs trumpet-shaped, violet-purple.

Macrantha, 4ft, deep violet flrs, fine for borders.

Alba, 4ft, pure white, large, fine. 150 seeds.

Michauxioides, 5ft, azure, nodding, showy. 150 s.

Mirabilis, 2ft., pyramidal, big blue bells, fine. 25 s.

Persicifolia Grandiflora, 3ft, beautiful large open bells in July, in terminal and axillary racemes Blue, White, Separate or Mixed. 300 seeds.

Giant-flowd Double, fine blue and white mx. 100s.

Telham Beauty, 3ft, new, huge blue bells. 100 s.

Pusilla, 4in, a fine miniature rock plant, beautiful azure flowers, shining green leaves.

Pyramidalis, Chimney Bell Flower, 5ft, big branching plants forming a pyramid of long racemes laden with charming blue or white bells, fine for borders or beds, blooming freely during Summer. Blue and White, separate or Mixed. 500 seeds.

Compacta, 3ft, a dwarf form, free-blooming, mx'd.

Rapunculus, 3ft, small lilac bells, narrow spikes.

Rotundifolia, 1ft, Scotch Blue Bells, lovely. 100 s.

Olympica, 8in, graceful nodding clear blue bells about an inch across, freely produced throughout Summer and Autumn.

Superba, Giant Harebell of Scotland, rich blue.

Sarmatica, 1ft, sprays of graceful blue drooping flowers from June until August.

Turbinata, 1ft, splendid spreading perennials, free-blooming, showy, flrs. large, open bells, fine rock plant. Blue, White, Separate or Mixed. 150 seeds.

Complete Special Mixture Perennial Campanulas.

CAMPANULA MEDIUM, Canterbury Bells,

hb. These are handsome biennials easily grown from seeds, and when in bloom, are the most attractive of garden flowers. They grow two feet high, becoming pyramidal little trees literally covered with large, exquisite bells, graceful in form and rich in color.

Single: White, Lilac, Deep Lilac, Rose, Carmine, Striped, Blue. Separate 250 seeds, Mixed 750 s.

Double: White, Lilac, Deep Lilac, Rose, Carmine, Striped, Light Blue, 250 seeds, Mixed 750 seeds.

Calycanthemum, Cup and Saucer. These are very beautiful, the flowers being single, 3 inches long, while the saucers are 3 to 4 inches across. The plants form perfect pyramids, blooming for weeks during early Summer and come in the following colors: White, Blue, Rose, Striped, Lilac, Carmine. Separate 250 seeds; Mixed 750 seeds.

Praecox, Single, early-flowering. White, Blue, Rose, Striped, separate or mixed, 250 seeds.

Complete Special Mixture of all the above, 1000 s.

CANARINA Campanula, hp, 4 ft. A magnificent plant for suspended baskets with numerous large bell-shaped flowers of yellowish-purple or orange color with, red nerves and deep red border. 25 s.

Campanula Medium Single-flowered

Carnation Hardy Garden

CARNATION, hp. If I were limited to a half dozen perennial flowers, one of them would be the Improved Large-flowered Carnation. The plants start readily from seeds, stool out into fine clumps, begin to bloom in five months, and bloom continuously. If potted, they will bloom in the sunny window in Winter. The flowers are large, perfectly double, deliciously fragrant, and come in rich colors, some striped and blotched. The plants will last for years, requiring a little protection at the far North. To protect, simply place a board frame a foot high around the bed and fill it with dense, nude brush. This will protect other plants as well. Double German Border, 20in. Double flrs; free-blooming, splendid mixture. 40 seeds. Early Dwarf Prague, 1ft. A fine double German border Carnation. Mixed colors. 40 seeds. Earliest Dwarf Vienna, 14in. Flowers very double; White, Rose, Violet. Separate or Mixed. 50 seeds. Hardy Garden Carnations and Picotees, a high-class strain saved by a French specialist; plants compact, free-blooming; flrs richly-scented, mixed Perpetual or Tree Carnation, 1ft. Double, mixed. Simpson's Triumph, 2ft. Very large double blooms on long sturdy stems, new, splendid mixture. 40s. **CATANANCHE** Bicolor, hp, 18in. White, blue eye. Coerulea, hp, 18in. Flowers blue, 2 inches across. **CEBATHA** Carolina, hp, 20ft. A lovely vine; small white flrs. followed by scarlet berries that hang till Christmas, handsome. 20 seeds. **CEDRONELLA** Cana, hp, 2ft. Evergreen mint, crimson, sweet-scented flowers in spikes. 25 seeds. Canariensis, hp, 2ft. Charming lemon-scented foliage, light rose flowers, easily grown. 20 seeds. **CENTAUREA** Babylonica, hp, 6ft. Very tall winged stems, many showy golden flowers. 25 seeds. Gymnocarpa, hp, 2ft. Silvery pinnatifid foliage; rosy-purple flowers, desirable for pots or beds. Macrocephala, hp, 3ft. Large showy golden heads. Montana, hp, 2ft. Large violet-blue flrs from July to Sept., showy border species of easy culture. Ruthenica, hp, 3ft. Pinnate foliage; yellow flowers. **CEPHALARIA** Alpina, hp, 5ft. Scabious-like yellow flowers, beautiful, easily grown. 50 seeds. Tartarica, hp, 5ft. Sulphur-colored Scabious-like heads, tall robust habit. 50 seeds. **CERASTIUM** Biebersteini, Snow in Summer, hp, 9in. Excellent rockery and edging plant; has silvery white dense hairy foliage spreading four feet or

more in a thick blanket. Miniature daisy-like flrs cover the plant in a white sheet early in the season. Boissieri, hp, 1ft. Stems and leaves silvery, flowers white, large, profuse, in regular cymes; Summer. Tomentosum, hp, 9in. A very desirable low-growing plant with silvery foliage and white flowers in June, suitable for the rockery or for carpeting. **CHAMAPEUCE** Diacantha, hp, 4 ft. Deep lilac flrs. with white-spined leaves. 20 seeds. **CHELONE** Coccinea, hp, 3 ft. Rich scarlet flrs. Torreyi, hp, 4 ft. Flrs. tubular, brick-red, profuse; plants are slender and graceful. **CIMICIFUGA** Cordifolia, hp, 3 ft. Racemes of white flrs.; showy border plant. 100 seeds. **CINERARIA** Diamond, Dusty Miller, hp, 2 ft. Very handsome silvery foliage plant of easy culture; flowers yellow; showy; foliage almost white. **CIRSIIUM** Pulcherrimum, hp, 3ft. Lilac flowers. 50s. Velenowskyi, hp, 3 ft. White and violet flrs. 50s. **CLEMATIS**, hp. These species are all hardy vines except Crispa, Integrifolia and Recta, which are shrubby plants. They are free-blooming, fine for covering trellises, Summer-houses and shading porches. The seeds are mostly tardy in starting and are not always successful when planted. Crispa, 4 ft., lilac flowers, urn-shaped, nodding. Flammula, 20 ft., slender, thrifty vine; pretty white flowers in panicles; July till October. 20 seeds. Integrifolia, 2 ft., lavender-like flowers. 20 seeds. Jackmanii, 10 ft., big purple flowers.; profuse. 12s. Paniculata, 20 ft., white fragrant flrs. in great profusion; in cloud-like masses. 25 seeds. Recta, 5 ft., sweet white flrs., in corymbs. 25 seeds. Virginiana, 20 ft., flrs. white, sweet, panicked. Vitalba, 20 ft., flowers white, almond-scented. Complete Special Mixture of Clematis. 40 seeds. **CODONOPSIS** Meleagris, hp, 1 ft. A charming rock plant; handsome bell-shaped flowers, pale blue with chocolate pencillings; new Himalayan plant. **COLCHICUM** Autumnale, hbb, 1 ft. Crocus-like mauve flowers during Autumn; fine. **CONVALLARIA** Japonica, hp, 8 inches. Used in hot countries instead of lawn grass. Majalis, Lilly of the Valley, hp, 6 in. Large-flowered sweet-scented flowers in racemes. These, like most other plants, repays for being well treated, and if the bed is given a liberal topdressing of well-decayed compost in fall or early spring, it will show the effect by increased size and number of flrs.

Delphinium, Perennial Larkspur

Digitalis, Foxglove

CONVOLVULUS *Altheoides Floribunda*, hp, a pretty vine with pink flrs. 2 in. across; blooms all season.

CORONILLA *Varia*, hp, 2 ft. Lovely pink and white flrs in umbels, each umbel containing 16 to 20 flrs.

CORYDALIS *Chelanthifolia*, hp, 8 in. Foliage dense, fern-like, decorated with spikes of yellow flowers.

CRUCIANELLA *Stylosa*, hp, 6 inches. A pretty, free-blooming, trailing perennial; rose-colored flrs.

CYCLAMEN *Neapolitanum*, hp, 3 in. Numerous reddish-purple and white flrs; fine hardy species.

DATISCA *Canabina*, hp, 5 ft. A very ornamental perennial; foliage fern-like, beautiful, golden flrs.

DELPHINIUM, hp. These are among the finest of perennials. All are beautiful, hardy, and live and bloom freely for years. Prevailing colors are blue and violet with intermediate shades.

Barlowii, 4 ft., large-flowered, navy blue, 50 seeds.

Cashmerianum, 18 in., flrs. pale to deep blue.

Caucasica, 5 ft., sky blue, white center. 50 seeds.

Elatum Belladonna, 3 ft., light blue shades. 75 s.

Bellamosum, 5 ft., pretty dark blue. 75 seeds.

Blackmore and Langdon, a favorite with Delphinium growers; all the new and rare shades, mixed.

Dark Blue, beautiful rich blue shades in mixture.

Double-flow'd, finest large-flow'd, extra choice.

Fannie Stormouth, 3 ft., large azure blue. 50 s.

Goliath, Vis' Fine Strain, splendid mixture. 100 s.

Hurst's Monarch, 5 ft. A celebrated English strain of great merit; finest mixture; seeds from Hurst.

Iceburg, 4 ft. A perennial that should be in every garden, plants branching, each branch bearing a huge spike of exquisite white flowers.

Kelway's Gold Medal, very superior, magnificent

Light Blue, charming shades, large flowers. 50 s.

Non-plus-ultra, Vis Brothers' finest mixed. 50 s.

Vis' New Mastodon, 5 ft. A superior large-flow'd strain embracing the finest colors; plants vigorous; throwing up enormous spikes of bloom.

Wrexham, Hollyhock Strain, 6 ft. These are the greatest advance in Delphiniums. Their graceful spire-shaped spikes are rapidly bringing them to the front as the most popular flower for cutting or the garden. Finest colors mixed. 75 seeds.

Sibericum, 2 ft., lovely blue shades, large flrs. 100

Staphysagria, 2 ft., dark blue flrs., white eye. 50 s.

Zalil (Sulphureum) 6 ft., fine yellow, sow early in Spring or in Fall; a charming sort, 100 seeds.

Complete Mixture of all Delphiniums, 200 seeds.

DIANTHUS *Alwoodii*, hp, 18 in. A hybrid between Carnation and Pink, extremely floriferous, mix. 3s.

Caesius, Cheddar Pink, hp, 6 in. Bright pink flrs; a lovely plant for dry banks, rocks or old walls.

Cruentus, hp, 18 in. Very dark crimson, in fine

clusters; a neat border species.

Deltoides, Maiden Pink, hp, 6 in. A charming creeping variety with brilliant rose flrs. in June and July.

Graniticus, hp, 9 in. Low growing; forming a dense carpet covered in May and June with crimson flrs.

Neglectus, hp, 3 in. A charming little hardy pink; cherry-red flrs. in abundance. 10 seeds.

Rock Species, hp. A special mixture of 25 rare varieties suitable for the rockery.

DICTAMNUS *Fraxinella, Flame Flower*, hp, 2 ft. Fine border plant; seeds slow to germinate; flrs. produced in panicles. White, Rose or Mixed. 15 s.

DIELYTRA *Spectabilis, Bleeding Heart*, hp, 2 ft. Graceful plants for pots or borders; pendant sprays of beautiful heart-shaped rose colored flrs. 10 s.

DIGITALIS, Foxglove, hb. The Foxgloves are beautiful hardy biennials easily raised from seeds. The elegant nodding flowers are produced in upright racemes and are very showy in beds or borders.

Ferruginea, 5 ft., giant, yellow flrs. veined brown.

Gloxiniaflora, 4 ft, big trusses of Gloxinia-like bloom. White, Rose, Purple, Lilac, sep. or mixed.

Grandiflora, 3 ft., large chrome yellow flrs. 1000 s.

Isabellina, 3 ft., new yellow-flowered hybrids. 500.

Ivory's Spotted, 4 ft., handsome spotted flrs. 1000s.

Lutzi, 4 ft., new, salmon-rose, beautiful, 1000 s.

Monstrosa, 3 ft., large open terminal flrs; fine. 1000

Purpurea, 4 ft., white, rose, purple, spotted, mixed.

Shirley, 3 ft., giant, long upright racemes of huge flrs. in finest colors, magnificent, mixed. 1000 s.

Complete Special Mixture of Digitalis 1200 seeds.

DIPSICUS *Laciniatus*, hp, 8 ft. Rosy globe flowers.

DORONICUM *Caucasicum, Leopard's Bane*, hp, 18 in. Spring-blooming; showy golden flrs. 20 s.

DRACOCEPHALUM, *Physostegia*, hp. One of our best midsummer flowering perennials, bearing spikes of delicate tubular flrs. not unlike a heather.

Virginianum Grandiflorum, 4 ft. Large-flow'd, long racemes; Rosy-lilac or White. 40 seeds.

Gigantea, 4 ft. Large crimson flrs; handsome. 30s.

Ruyschianum Japonicum, 1 ft. Whorls of dark violet blue flrs. in June; neat border species. 50s.

Complete Special Mixture of Dracocephalum. 40s.

DRYAS *Octopetala*, hp, 6 in. A fine rock plant; flrs. Anemone-like, white with golden stamens.

ECHINOPS *Exaltatus*, hp, 7 ft. Azure heads. 25 s.

Ritro, hp, 5 ft. Violet-blue flrs., everlasting. 25 s.

Spherocephalus, hp, 6 ft. Azure spherical heads.

Complete Special Mixture above sorts. 30 seeds.

EPILOBIUM *Angustifolium*, hsh, 3 ft., crimson flrs. in big racemes; easily grown. 1000 seeds.

Fleischeri, hp, 18 in. A handsome perennial with rosy-purple flowers, resembles Evening Primrose.

Hemerocallis Betcher's Hybrids

Iris Kaempferi

EREMURUS Bungei, hp, 5ft. Yellow, red stamens. 8s. Himalaicus, hp, 6 ft. Pure white, long spikes. 8 s. Robustus, hp, 8 ft. Rose colored flrs.; fine. 5 seeds. Complete Mixture of Eremurus. 15 seeds.

ERIGERON Aurantiacus Hybridus, hp, 1 ft. Lovely hybrids of the Orange Daisy; flrs. of many colors. Coulteri, hp, 18 in. Early white daisies; showy in beds and fine for cutting. 100 seeds. Speciosus Grandiflorus, hp, 2 ft. Large-flowering; free-blooming; violet rays with yellow disk.

ERINUS Alpinus, hp, 6 in. Violet-red flowers in profusion; fine rock plant; requires care in starting.

ERODIUM Manescavi, hp, 1 ft. Geranium-like, rosy-purple flrs., long-blooming; choice. 2 seeds.

ERPETION Reneforme, Australian Violet, hp, 4 in. Pretty violet flrs; charming for suspended baskets.

ERYNGIUM Alpinum, hp, 2 ft. Lavender-blue; fine. Giganteum, hp, 3 ft. Fine border species; blue flrs. Planum, hp, 2 ft. Globular heads of rich blue flrs.

ERYSIMUM Pulchellum, hp, 6 in. New dwarf species, compact, forming dense tufts; flrs. sulphur yellow.

EUPATORIUM Fraseri, hp, 18 in. White; cutting. Grandiflorum, hhp, 2 ft. White, fine for pots. Purpureum, hp, 3 ft. Branching plants; flrs. wine-red in showy corymbs, very pretty.

EUPHORBIA Myrsinites, hsh, 4 in. Gray trailer, large heads of yellow bloom in umbels; ornamental.

Polychroma, hp, 9 in. Showy yellow bracts; very effective in early Spring.

FOENICULUM, Vulgare, hp, 5 ft. Sweet foliage.

FUNKIA Coerulea, hp, 18 in. Day Lily, broad massive foliage; attractive for borders, even when not in bloom. Flrs. blue; August and September.

GALEGA Duches of Bedford, hp, 2ft. Flowers lavender and white in terminal racemes; floriferous. Nana Rosea fl. pl., hp, 2ft. New, pink flowers; fine. Officinalis, Goats Rue, hp, 3ft. Azure flrs. 50 seeds.

GALIUM Aureum, hp, trailer; fragrant yellow flrs.

GARDENIA Florida, Cape Jasmine, hhp, 6ft. Beautiful white sweet-scented flowers. 30 seeds.

GENISTA Andreana, hp, 5ft. Magnificent hardy plant; crimson and gold pea-like flowers.

GENTIANA Acaulis, hp, 3in. An ideal plant for edgings and rock work; rich ultramarine blue flrs. Asclepiadea, hp, 18in. Showy; beautiful blue flrs. Lutea, hp, 3 ft. Showy trumpet-like yellow flowers. Septemfida, hp, 6in. Beautiful blue flowers.

GERANIUM Anemonaefolium, hp, 2ft. A branching plant with large showy reddish-purple twin flrs. Buxton's Blue, hp, 3ft. Beautiful Nemophila-blue cup-shaped flowers, slightly veined purple. Grandiflorum, hp, 1 ft. Large ultramarine blue flrs. Pratense, hp, 2 ft. Large violet-blue flrs; cut foliage.

Sanguineum, hp, 6in. Large, dark purple-red.

GEUM Atrosanguineum, hp, 2ft. Double, scarlet. Lady Stratheden, hp, 2ft. Rich golden yellow, a counterpart in all other respects of Mrs. Bradshaw. Mrs. Bradshaw, hp, 2ft. Large double brilliant orange scarlet; in flower throughout the entire Summer; splendid for cutting.

Sibericum, hp, 1 ft. A fine creeping rock plant; flrs orange in great profusion; rare.

Urbanum, hp, 6 in. Orange flrs; a fine rock plant.

GILIA Coronopifolia, hhb, 3 ft. A remarkably beautiful biennial, flrs of a rich and rare shade of red.

GLOBULARIA Trichosantha, hp, 9 in. Small blue flowers in large globular heads during Summer.

GNAPHALIUM Edelweis, hp, 6 in. Swiss Everlasting; wooly foliage and flower heads.

GUNNERA Manicata, hp, 5 ft. A waterside or moist ground plant with prodigious leaves; rare.

GYPSOPHILA Acutifolia, hp, 3 ft. A pretty species; pale pink, fine for cutting; much like Paniculata. Pacifica, hp, 3 ft. Plants branch and are smothered with thousands of exquisite little pink flowers. Paniculata, hp, 3ft. Baby's Breath. Tiny white flrs. on slender stems during July and August. Compacta, hp, 18 in. Dense white flowers. Double-flow'd, hp, 3ft. Showy in beds, fine to cut. Snowflake, hp, 3ft. New, purest white; in clusters. Repens, hp, 6in. Flrs pinkish white in great abundance; trailer; fine for the rockery.

HELENIUM Autumnale Superbum, hp, 3ft. Large pure yellow flrs; showy; fine for cutting. Hoopsei, hp, 18in. Bright orange; splendid. Praecox Luteum; hp, 9in. Flrs yellow; large; showy. Riverton Gem, hp, 3ft. Flrs opening old gold changing as they mature to wallflower red.

HELIANTHUS Mollis, hp, 3ft. A stately, very free-blooming perennial; flrs pure yellow. Perennial Mixed, hp, 4ft. Showy golden flowers.

HELLEBORUS Hybridus, hp, 18 in. Finest colors mx. Niger, hp, 1 ft. Christmas Rose, white tinged rose, blooms in Winter; germinates tardily.

HEMEROCALLIS Betcher's Hybrids, hp, 3ft. Golden Day Lily, fine border plant. 10 seeds.

HERACLEUM Mantegazzianum, hp, 6ft. Large white umbels; handsome foliage; showy. Wilhelmsii, hp, 9ft. Fine for backgrounds.

HIERACEUM Aurantiacum, hp, 1ft. Large flowers in showy clusters; orange-red; very attractive. Villosum, hp, 1ft. Yellow flrs; showy rock plant.

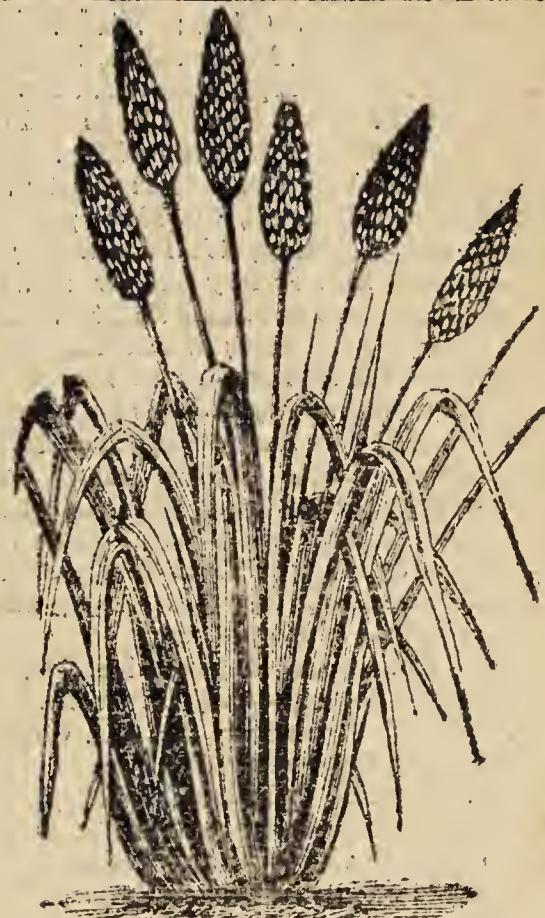

HEUCHERA Benary's Hybrids, hp, 18in. Fine brilliant colors in splendid mixture; fine rock plant. Sanguinea, Coral Bells, hp, 18in. A charming perennial with coral red flrs; excellent for bouquets.

Hollyhock Benary's Double

Lilium Regale

Kniphofia, Tritoma

HOLLYHOCK, hp. The Hollyhock was formerly very popular as a garden flower but has been more or less neglected for some years. Recently renewed interest has been shown in Hollyhocks and the single as well as the double are now prized for garden display. They are truly beautiful and showy flrs. and should have a place in every garden. A fungus sometimes affects the foliage, appearing as black spots on the underside of the leaves, such leaves should be gathered and burned and the plants sprayed with pyrox.

Benary's Prize: White, Sulphur, Golden Yellow, Rose, Scarlet, Crimson, White tinted rose, Cream, Peach, Apricot, Chamois, Dark Rose, Salmon Rose, Carmine, Light Red on yellow ground, Dark Salmon-red, and Purplish Violet. 40 s. Mixed 60 s.

Vilmorin's Extra Double: White, White with blue eye, Sulphur-yellow, Crimson, Peach, Deep Rose-pink, White edged lilac, Salmon, Salmon-pink, Rose, Mauve with violet center, White with brown center, Creamy White, Garnet-red, Magenta, Mauve-rose, Purple-rose, and Light Purple. 40 s. Complete Special Mixture, 60 seeds.

Exquisite, 5 ft., flrs. extra large, double, fringed and curled; various shades mixed. 25 seeds.

Mammoth Alleghany, 11 ft., flrs. single and semi-double, 4 to 6 in. across, curled and fringed. 25 s.

HORMINUM Pyrenaicum, hp, 1 ft. Rosettes of large green leaves; spikes of violet flowers.

HYACINTHUS Candicans, hbb, 3 ft. Drooping white bells on tall spike-like scapes; showy. 35 seeds.

HYPERICUM Elegans, hp, 3 ft. Large cup-like yellow flowers during Summer; attractive.

Oriente, hp, 9 in. Large showy golden yellow flrs.

Polyphyllum, hp, 4 in. Pretty trailing plant with silvery foliage and golden flrs; fine rock plant.

Reptans, hp, 4 in. First class rock plant, bright yellow flrs. and silvery foliage.

IBERIS Semperflorens, hp, 1 ft. Large pure white sweet-scented flowers in corymbs; late Autumn.

Sempervirens, hp, 6 in. Spreading plants completely covered with heads of pure white flrs. in Spring and Summer; useful for cemeteries and the rockery.

INCARVILLEA Delavayi, hp, 18 in. Large Gloxinia-like rosy-purple flrs; beautiful. 30 seeds.

INULA Glandulosa, hp, 2 ft. Large golden flowers.

Macrocephala, hp, 4 ft. Lemon with gold disk.

Royleana, hp, 2 ft. Large golden flowers; fine.

Complete Special Mixture of Inula 150 seeds.

IPOMOPSIS Elegans, Standing Cypress, hbb, 3 ft. Elegant spikes of rich-colored flrs. 50 seeds.

IRIS, hp. These are easily grown from seeds and there is no excuse for being without a good collection of the various kinds. The plants will bloom the second year and make a fine display. I heartily recommend this method of propagation and hope that it may become popular; for a bed of Iris can be successfully grown in sun or shade and can be depended upon for flowers every season. **Germanica**, 2 ft. Among the most showy and beautiful of Spring-blooming flrs; they are of large size, graceful form, rich in color, delicate in texture, and pleasantly fragrant. My seeds are from a splendid strain; colors ranging from white to rich blue and pink; many being variegated. 25 seeds.

Kaempferia, Japanese Iris, 2 ft. Double and single open flowers of enormous size, sometimes eight inches in diameter. The colors and texture are wonderful. When in bloom they are the pride of the garden; finest colors in mixture. 25 seeds.

Ochroleuca, 4 ft. Robust plants bearing exquisite white and yellow flowers; handsome. 25 seeds.

Pumila Hybrids, 6 in. Flowers like Germanica, in various shades of white to blue. 20 seeds.

Siberica Snow Queen, 2 ft. Lovely broad petaled blooms, pure white with a golden blotch; choice.

Siberica Superba, 2 ft. Superb showy dark blue.

Versicolor, 2 ft. Flrs. violet blue in clusters; fine. Complete Special Mixture of Iris. 40 seeds.

ISATIS Glauc, hp, 3 ft. Graceful yellow bloom in great profusion; showy in clumps. 25 seeds.

KITAIBELIA Vitifolia, hp, 7 ft. Large rosy-white flrs; beautiful; easily-grown; very showy.

KNAUTIA Arvensis, hp, 3 ft. Gypsy Rose; lilac flrs.

KNIPHOFIA Uvaria Grandiflora, Red-hot Poker, hp, 3 ft. Orange-red flowers on spikes 2 ft. high.

LACINARIA Acidota, hp, 2 ft. Spikes of purple flrs.

LATHYRUS Latifolius, hp, 6 ft. Showy everblooming vines much used for trellises and for covering stumps and old fences. Flowers like Sweet Peas and excellent for cutting. A perennial lasting for years with heavier growth each year. Colors: Red, Rose, White, Pink. Separate 15 seeds, Mixed. 25 s.

LAVATERA Assurgentiflora, hsh, 10 ft. A showy spreading plant with bright red Hibiscus flrs. 8 s.

Cashmeriana, hp, 3 ft. Handsome large rosy-mauve flowers, fine for beds and cutting.

Olbia, hsh, 5 ft. Showy rose-flowers, splendid.

Leucanthemum, Giant Field Daisy, hp.

These are splendid perennials, hardy and lasting. The flowers are large, some 5 inches across, very showy and lasting; fine for beds and cutting.

Etoile d' Anvers, 4 ft. Large white flrs; fine.

King Edward VII, 3 ft. Robust plants; large, white.

Mrs. C. Lowthian Bell, 3 ft. New, pretty white flrs.

Shasta Daisy, Alaska, 2 ft. Pure white; charming.

California, 2 ft. Showy yellow flowers, fine.

Special Mixture of Shasta Daisies.

The Prince, 2 ft. New; a charming variety, pure white flowers 5 inches across borne on long stiff 18 inch stems; showy in beds and fine for cutting.

The Speaker, 3 ft. Large white flrs. on long stems.

Uliginosum, Giant Ox-eye Daisy, 5 feet. Robust branching plants literally smothered with flowers 2 inches across; white with golden center.

Complete Special Mixture of Leucanthemum.

LIATRIS Scariosa, hp, 2 ft. Large, showy, purple flower-spikes in August; fine

Spicata, Kansas Gay Feather, hp, 2 ft. Long spikes of purplish-rose flowers, July to September.

LIGULARIA Macrophylla, hp, 4 ft. Graceful leaves; spikes of showy yellow flowers.

LILIUM Auratum, Gold-banded Lily, hbb, 4 ft. Large graceful flowers composed of six petals of a delicate ivory white color, thickly studded with chocolate-crimson spots and a gold band in center.

Giganteum, hbb, 4 ft. Long tubular white flrs. 15 s.

Humboldtii, hbb, 5 ft. A grand California Lily, flrs. large, deep golden spotted red. 20 seeds.

Martagon, hbb, 4 ft. Pyramidal heads of glossy light purplish-rose flowers, spotted black. 15 seeds.

Regale, hbb, 3 ft. One of the most beautiful garden Lilies yet introduced. Large trumpet-shaped, sweet-scented flowers freely produced throughout July. Flowers ivory-white shaded pink, with a tinge of yellow at the base of the petals. 25 s.

LINDELPHIA Spectabilis, hp, 2 ft. Pretty blue flowers in racemes; showy; a fine Boragewort.

LINUM Flavum, hp, 1 ft. Golden bell-shaped flrs.

Narbonense, hp, 2 ft. Beautiful large rich blue flrs.

LOBELIA Cardinalis, hp, 2 ft. The beautiful Cardinal Flower, spikes of bright scarlet flrs. throughout Autumn; likes moist soil and partial shade.

Fulgens, hp, 2 ft. Flrs. rich scarlet in showy racemes.

Illumination, hp, 2 ft. Large vivid scarlet flowers.

Syphilitica, hp, 2 ft. Large blue flrs; border plant.

Lupinus, hp. These are beautiful easily-grown perennials. The plants grow from two to five feet high, branch, and bear freely spikes of lovely flowers in rich and varied colors.

Arboreus Aureus, 4 ft. Yellow, fine shrubby sort.

Arboreus Snow Queen, 4 ft. White variety, pretty.

Douglasi Superbus, 3 ft. Rosy-purple and blue.

Downer's Hybrids, 3 ft. Fine range of colors.

Excelsior Hybrids, 3 ft. Splendid assorted colors.

Golden Spire, 5 ft. New, large golden spikes.

Harkness Hybrids, 3 ft. Beautiful art shades mixed.

Kelway's New Hybrids, 3 ft. A choice strain, comprising innumerable new and delicate shades.

Moerheimi, 2 ft. Pink, remarkable for its free-flowering and compact habit; a fine border plant.

Sunshine, 2 ft. The finest deep yellow yet raised.

Sweet-scented Hybrids, 3 ft. A new strain; handsome spikes of self or bicolored flowers.

Complete Special Mixture of Perennial Lupinus.

LYTHRUM Roseum Superbum, hp, 3 ft. Erect spikes of bright red flrs; a fine border plant.

Salicaria, hp, 3 ft. Rosy-purple flrs. in fine spikes.

MALVA Alcea, hp, 5 ft. Tall branching habit, numerous reddish-purple flowers, showy.

MECONOPSIS Baileyi, hp, New, from China; glorious sky-blue Poppy-like flowers with showy golden anthers; a very beautiful garden plant.

Cambrica, Welsh, Poppy, hp, 1 ft. Large yellow flrs.

Integrifolia, hb, 3 ft. The wonderful Poppy from China, beautiful primrose flrs. 4 to 6 in. across.

Paniculata, Himalayan Poppy, hb, 3 ft. A glorious

plant; flowers bright golden yellow; large, showy. Wallichii, hb, 3 ft. The beautiful blue Himalayan Poppy, easily raised from seeds in a cool house; a fine rare plant for that moist half-shady spot.

MONARDA Didyma, hp, 2 ft. A showy plant succeeding in most any soil or position; aromatic foliage; rich cambridge scarlet flrs in July and Aug.

MORICANDIA Hesperidiflora, hb, 3 ft. New, early-flowering, sweet-scented; flrs delicate lilac rose.

MORINA Longifolia, hp, 3 ft. Flowers tubular, white changing to purple; elegant foliage.

NEPETA Grandiflora Souv. Chaudron, hp, 1 ft. A new and much improved sort; flrs large rich blue.

Mussini Superba, hp, 1 ft. A new large-flowered sort with deep blue flowers; a fine rock plant.

OENOTHERA Fraseri, hp, 1 ft. Masses of fine yellow flowers from June to October; lasting when once established; the flrs. bloom during the day.

Odorata, hb, 2 ft. Large fragrant yellowish-red flrs in April and May; showy border plant.

Speciosa Grandiflora, hp, 2 ft. A fine perennial, open in daytime; flowers large, sweet-scented; white with yellow eye; beautiful.

Youngi, hp, 18 in. A glorious long-blooming day Primrose; plants branch, bloom profusely; likes moisture; flowers large golden yellow.

ONONIS Spinosa, hp, 18 in. A leguminous plant, pinnate foliage; flowers purple, pea-shaped.

ONOPORDON Acanthium, hp, 5 ft. A bold silvery foliage plant with large purple flowers.

Salteri, hb, 11 ft. A magnificent ornamental thistle with beautifully-cut silver leaves and snowy-white stems crowded with large blue flowers.

Tauricum, hb, 7 ft. Woolly foliage, purple blooms.

ORNITHOGALUM Thyrsoides Alba, Star of Bethlehem, hbb, 1 ft. Dense, erect clusters of very pretty star-like white flowers with a dark eye.

OROBUS Niger, hp, 18 in. Reddish-purple flowers.

Vernus, hp, 1 ft. Pea-like blue and lilac flowers.

OSTROWSKIA Magnifica, hp, 4 ft. The beautiful giant Bellflower; immense pale blue flrs; tuberous-rooted; a magnificent plant. 10 seeds.

PAEONY Chinese Double, hp, 2 ft. Beautiful double flrs; sown in Autumn germinates in Spring. 5 s.

Officinalis, hp, 2 ft. Single dark red, splendid.

PAPAVER Alpinum, hp, 6 in. Blooms freely in Summer; plain and fringed in many colors. 150

Orientalis, hp. These are the largest and most attractive of garden perennials. The long fringed leaves are not unlike ferns, and the showy buds that issue from the ground on strong stems three feet high develop into enormous flowers, brilliant in color and graceful in form. Once started will last for years. These are not always true from seeds Apricot Queen, 3 ft. Large showy apricot flrs; fine. Benary's Finest Large-flow'd German Hybrids, 3 ft. All the lovely rare shades in mixture.

Bracteatum, 3 ft. Glowing red, large and attractive.

Brilliant, 3 ft. Vivid fiery-red, one of the brightest.

Colosseum, 4 ft. Flrs of enormous size, vivid scarlet.

Excelsior Hybrids, 4 ft. New, a very fine mixture ranging from delicate salmon to deep crimson.

Feltham Hybrids, 2 ft. A new self-colored strain; flowers scarlet, orange, apricot, etc., but with no black blotches at the base of the petals.

Mrs. Perry, 3 ft. Orange-apricot, rare, handsome.

Perry's White, 2 ft. Fine satiny white with a crimson maroon blotch at the base of each petal. 100.

Princess Victoria Louise, 2 ft. Flrs rather small, resembling large tulips, perfect form; salmon-pink.

Queen Alexandra, 3 ft. Rosy-salmon, crimson spots.

Rembrandt, 3 ft. Magnificent orange-scarlet, fine.

Royal Scarlet, 3 ft. Giant scarlet flowers; attractive.

Salmon Queen, 3 ft. Beautiful salmon-yellow.

Complete Special Mixture of Oriental Poppies.

PARDANTHUS Sinensis, Blackberry Lily, hp, 3 ft.

Flowers star-shaped, reddish orange, tigred and spotted; does well in most any soil exposed to the sun and never Winterkills, blooms in June and July.

Papaver Orientalis

Scabiosa Japonica

PENTSTEMON *Cobaëa*, hp, 18in. Large white and purple flrs; handsome border plant.

Gordoni-Splendens, hp, 2ft. Long deep blue spikes. *Hybrida Graciella*, hp, 2ft. Graceful strain, small flowers; fine colors in splendid mixture.

Isophyllus Hybridus, hp, 3ft. Free and long-flowering; flowers on long stems; finest mixed.

Pulchellus Hybridus, hp, 15in. Pink, purple and violet bell-shaped flowers in graceful spikes.

Complete Special Mixture of Pentstemon.

PHLOX Perennial New Hybrids, hp, 2ft.

These are among our choicest perennials, succeeding in almost any soil and position and bearing large round showy flrs, the petals overlapping each other. Seeds germinate slowly, often requiring from 5 to 6 months. Finest mixed colors. 35s.

PHYTOLACA *Decandra*, hp, 8ft. Large rich red stems and bronzy leaves; white flowers in racemes followed by dark red berries relished by birds.

Kaempferi, hp, 4ft. Japanese Pokeberry, fine.

PINKS, Hardy Garden, hp. *Dianthus Plumarius* or what is known as the Hardy Garden or Spice Pinks have been greatly improved, being plain and fringed, single and double, rich-colored and variegated; blooming freely during Summer.

Diadematus Single, 1ft. Sweet-scented spotted flrs.

Diadematus Double, 1ft. Flrs double, mixed colors.

Double and Semi-double, 1 ft. Fine colors mixed.

Double French Perpetual Cyclops, 15 in. Pretty; mx.

Double Perpetual Red, 15 in. Splendid rich shades.

Double White with Distinct Eye, 10 in. Extra choice.

Dwarf Erfurt Pheasant Eye, 10in. Double, mixed.

Perpetual Pheasant Eye, 15in. Finest single mixed.

Pheasant Eye, 18in. Fringed, richly-scented mixed.

Scoticus fl. pl., 15in. Splendid Scotch double, mix.

Complete Mixture of Hardy Garden Pinks.

POLEMONIUM *Coeruleum*, Jacob's Ladder, hp, 1 ft.

Beautiful flowers nearly two inches across, in large clusters, often as many as 25 blooms included in each cluster; fine for cutting. Blue, White, or Mix.

Prima Donna, hp, 1 ft. Long sprays of azure flowers.

Richardsoni, hp, 30 in. Flowers light blue with golden yellow anthers; has a fragrance similar to ripened grapes; fine for cutting.

POLYGONIUM *Baldschuanicum*, hsh, 20 ft. A robust vine; free-blooming all Summer; pink flowers.

Multiflorum, hp, 20ft. A rapid free-blooming vine.

Sachalinense, hp, 8 ft. A graceful vigorous plant sometimes used for forage in poor soil; yellow flrs.

Sieboldii, hp, 8ft. Pretty foliage and white flowers.

POTENTILLA *Apennina Aurea*, hp, 6in. Yellow flrs.

Calabra, hp, 8in. Silvery rock garden species.

Gibsoni, hp, 1 ft. A lovely scarlet-flow'd creeper.

Hybrid Double, hp, 2 ft. Showy double flrs; mixed.

Hybrid Single, hp, 1 ft. Strawberry-like plants; flrs. yellow, brown, scarlet and rose; mixed.

Miss Wilmott, hp, 1 ft. Flowers glossy magenta-rose.

Nana Multiflora, hp, 1 ft. Showy, easily-grown little plants becoming a mass of semi-double flowers.

Pyrenaica, hp, 1 ft. Yellow; dwarf habit, distinct.

Warrensii, hp, 2 ft. New; large bright yellow flrs.

PRIMULA, hp. These hardy Primroses are excellent garden flowers and should be better known. Once started most of them will last for years and afford a showy and beautiful display every Spring, the clustered flowers appearing in many lovely colors and lasting for weeks. The seeds are often tardy in starting.

Acaulis Grandiflora, 6in. Blue, White, or Mixed.

Anisodora, 18in. Rich crimson flowers in whorls.

Auricula, finest strain from prize flrs; mixed colors.

Beesiana, 1ft. Velvety purple, gold eye, free-flring.

Briscoeii, 2ft. Like *Primula Japonica*; brick-red flrs.

Bullesiana Hybrid, 18in. Red, orange, blue, Mixed.

Bulleyana, 2ft. Bright chrome yellow, beautiful.

Cashmeriana, 1ft. Lilac, compact umbels, earliest.

Cockburniana, deep orange-scarlet, very handsome

Cortusoides, charming deep rose umbels, distinct.

Denticulata Grandiflora, 1 ft. White, lilac, rose, red in mixture; flowers in dense heads.

Farinosa, 6in. Bird's Eye Primrose, compact umbels light purple with a gold eye, avoid hot sun.

Floridæ, 4ft, new Chinese giant, lovely golden flrs.

Froncosa, 6in., silver foliage, pretty rosy-lilac flrs.

Helodoxa, 3 ft., long spikes of golden flrs in whorls.

Ipswich Hybrids, 2 ft, new strain, many odd colors.

Japonica, 2 ft, splendid, white to crimson spikes.

Lisadel, Red Hugh, fiery red flrs in large whorls.

Officinalis Hybridus, 1 ft., sweet-scented Cowslip.

Pulverulenta, 2ft., like *Japonica*, shining red flrs.

Rosea Grandiflora, 6 in, bright rose with gold eye.

Sieboldii, 1 ft, fine large-flow'd hybrids, mix colors.

Sikkimensis, 1 ft, yellow, fragrant, drooping flrs.

Veris Aurea, golden yellow in fine big umbels.

Elatior, various colors, fine umbels in Spring.

Duplex, Hose-in-Hose, 60% true, finest colors.

Grandiflora, huge flrs, big umbels, mixed colors.

Gold-edge, brown edged gold, beautiful, showy.

Munstead Strain, big showy umbels in Spring, flrs. largest in size, wonderful shades of colors.

Veitchii, 18in, umbels of deep rose flrs, distinct.

Verticillata, 1ft, golden yellow flrs, silver foliage.

Vulgaris, 6in, true yellow Primrose, profuse, Spring.

Complete Mixture of Hardy Garden Primroses.

Primula Veris Elatior

Sweet William, Double

PRUNELLA Grandiflora, hp, 9 in. A handsome prostrate perennial with large flrs in terminal clusters. Rosea, hp, 1ft. A pretty free and long-blooming plant; fine for borders; flrs large, bright rose.

PYRETHRUM Cinerariaefolium, hp, 2 ft. Lovely white daisy-like flrs; used in making Pyrethrum powder. Roseum, Painted Daisy, Vis Brothers Single, hp, 2 ft. A very popular perennial thriving in any good garden soil where there is good drainage and full exposure to the sun. Flowers large daisy-like, from white to red with yellow centers, produced freely on long strong stems, lasting well when cut.

Vis Brothers Double, hp, 2ft. Splendid double flrs. in showy rich colors; fine for cutting.

James Kelway, hp, 2ft. Bright vermilion red with golden center; very showy.

Tchihatchewii, hp, 6in. Tufts of white flowers with gold disk, profuse; plants thrive in dry unfavorable places; start seedlings and transplant.

RANUNCULUS Aconitifolius, hp, 2ft. Branching plants with pretty white cup-shaped flowers.

Asiaticus Superbissima, hp, 1ft. Showy double flrs. in handsome colors; fine for the rockery.

Claremont Hybrids, hp, 2ft. The finest Ranunculus known; starts readily from seeds; the big 5in. double flowers showing a glorious riot of colors, so numerous as to literally hide the plant.

Giant Florentine, hp, 2ft. Large flowers of the most varied colors held on long stems; greatly improved.

Gramineus, hp, 9in. Easily grown perennial with long narrow silvery foliage and large golden buttercup-like flowers.

RHEUM Collinianum, hp, 7ft. Giant ornamental fol. Excelsior or Victoria Improved, hp, 6ft. Stems make delicious sauce and pies.

Monarch, hp, 4ft. Large leaves on hugh long stems.

Tanguticum Rubrum, hp, 6ft. Large Palm-like leaves and bright red trusses of bloom.

ROMNEYA Coulteri, Matilija Poppy, hp, 3ft. Flrs. white, 5 inches across, delicate and transparent, yet enduring in a good state for several days; delightfully fragrant, blooms during late Summer and Fall. 100 seeds.

Trichocalyx, hp, 3ft. A new bush Poppy; flrs. very large, snow-white with golden stamens.

SANTOLINA Tomentosa, hp, 2ft. Silvery fol., yellow

SAPONARIA Ocymoides Splendens, hp, 1ft. An elegant trailing perennial with showy rose flowers, an excellent rock plant.

SAXIFRAGA Bedding Queen, hp, 8in. Clusters of showy carmine flowers.

Decipiens Grandiflora, hp, 1ft. Charming hybrids, the flrs. campanulate; large; of many shades from white to rosy crimson.

Encrusted Sorts, hp, 8in. A fine mixture of these handsome rock plants.

Mossy Sorts, hp, 8in. Lovely varieties with mossy

foliage and numerous pretty flrs; excellent.

SCABIOSA Caucasica, hp, 2ft. A handsome easily grown plant thriving in any ordinary soil if well drained and in a sunny location; very desirable for cutting. Blue or White.

House's Hybrids, hp, 3ft. Large showy double flrs. in many fine colors; fine for cutting.

Complete Mixture of Scabiosa Caucasica.

Japonica, hp, 2ft. Beautiful lavender flowers on long stems; free-blooming, lasting plants, showy in beds and fine for cutting.

SCOLYMUS Hispanica, Golden Thistle, hb, 3ft. Leafy spikes of golden bloom; a flower-vegetable, the fleshy roots used like Cardoon or Salsify.

SEDUM Acre, hp, 2in. Low spreading perennial; golden flrs in three-parted racemes.

Middendorfii, hp, 6in. An excellent rock plant; fleshy brown foliage and golden flowers in Summer; thrives under the most adverse conditions.

Spectabile, hp, 1ft. Large heads of carmine red flrs., superb for a border or for the rockery.

Spurium Coccineum, hp, 6in. Large umbellate cymes of brilliant deep rose flrs in late Summer.

Complete Special Mixture of Sedum.

SEMPERVIVUM, Hardy Species Mixed, hp, 6inches.

These are succulents and are admirably adapted for rockeries and for covering old walls.

SENECIO Clivorum, hp, 3ft. Large decorative foliage and rich orange flrs; a stately border plant.

Othello, hp, 3ft. An attractive Autumn-blooming perennial, purple foliage and orange flowers.

SIDALCEA Rose Queen, hp, 4ft. Beautiful rose flrs.

Rosy Gem, hp, 18in. Handsome plant with lovely spikes of rose Hollyhock-like flrs; very showy.

Stark's Hybrids, hp, 8ft. A noble perennial, throws up Hollyhock-like spikes; flrs blush to carmine.

SILENE Alpestris, hp, 6in. Shining white flowers in large panicles from May to July; likes shade.

Fortunei, hp, 2ft. Flrs bright rose; petals feathered.

Schafta, hp, 6in. A charming border or rock plant; the branches gradually becoming covered with rosy-purple flrs from July to October.

SISYRINCHIUM Anceps, Blue-eyed Grass, hp, 6 in. Lovely deep blue flrs. with darker eye; April.

SOLDINELLA Alpina, hp, 3in. A pretty little plant suitable for the rockery; leaves round; flowers pale blue, drooping.

SOLIDAGO, Golden Rod, hp, 4ft. Hardy native perennial bearing large golden plumes in Autumn.

SPERGULA Pilifera Aurea, hp, 2in. A charming little plant for edgings and rock work; foliage golden yellow; flowers small white.

SPIREA Filipendla, hp, 18in. White tinged purple.

STACHYS Alpina, hp, 2ft. Silvery foliage, flowers campanulate, dark rose, in terminal spikes.

Lanata, hp, 1 ft. Lamb's Ears. Grown for the effect of its dwarf white wooly foliage; remove flowers.

Convallaria Majalis

Helleborus Hybridus

Wallflower Large-flowered

STELLARIA Graminea Aurea, hp, 6in. White flrs; fine for the rockery or for edgings.

STENACTIS Speciosa, hp, 2ft. Lovely blue Aster-like flowers, 2in. across, during June and July; fine for cutting.

STOKESIA Cyanea, hp, 15in. A handsome perennial with flowers that appear to be a cross between an Aster and a Cornflower; rich blue; July to October.

SWEET WILLIAM, Dianthus Barbatus, hb, 18in. These are favorite garden flrs, being showy, fragrant, and long blooming. The plants stool out and become large clumps, each throwing up a number of strong stems that are surmounted with large exquisite clusters. They grow readily from seeds, and thrive in any soil or sunny situation. I offer the finest known varieties, both single and double, and they show all the beautiful new colors. Double-flow'd. Black-red, Crimson, Margined, Rose, White. Separate or Mixed.

Single-flow'd. Bright Rose, Dark Crimson, Darkest Red, Giant Auricula, Harlequin, Henderson's Perfection, Holborn Glory, Johnson's Diadem, Pink Beauty, Pure White, Scarlet Beauty, Turkey Red. Separate or Mixed.

Dwarf Compact, 9in. Large showy heads, finest mxd. Newport Pink, 18in. A very bright and beautiful variety, excellent for Summer beds and cutting, splendid shades, salmon or watermellon-pink.

SYMPHYTUM Asperimum, hp, 4ft. Prickly Comfrey; rosy-lilac bells in curved racemes.

TELEKIA Speciosa, hp, 4ft. Golden Aster-like flrs, showy and very ornamental.

TEUCRIUM Chamaedrys, hp, 6in. Spreading bright, gray foliage, flowers rose, in leafy spikes.

THALICTRUM Aquilegiaefolium, hp, 3ft. Elegant plants with Columbine-like foliage and masses of pretty pink flrs. during June and July.

Dipterocarpum, hp, 4ft. A real gem among hardy plants, graceful sprays of violet-mauve flowers brightened by a bunch of lemon-yellow stamens, showy in the garden and invaluable for cutting.

THERMOPSIS Caroliniana, hp, 4ft. Plants showy; flrs yellow in long spikes, during June and July.

TRADESCANTIA Virginica, hp, 18in. Useful showy plant; a succession of bright blue flrs all Summer.

TRIFOLIUM Repens, Dutch Clover or Shamrock, hp, 6in. A handsome hardy plant with dark red foliage and white heads of bloom.

Rubens, hp, 2ft. Large carmine elongated heads; upright growth; a handsome perennial.

TROLLIUS Europaeus, Globe Flower, hp, 18in. Free-flowering plants producing large Buttercup-like yellow flrs from May to August; germinates tardily.

Ledebouri, hp, 2ft. Large orange flrs, May to June.

UROSPERMUM Delechampi, hp, 18in. A magnificent, easily grown rock plant with golden flowers.

VERATRUM Nigrum, hp, 5ft. Blackish purple flrs in long panicles; very striking.

VEREASCUM Giganteum, hp, 10ft. Silvery foliage, and showy golden yellow flowers.

Harkness Hybrids, hb, 6ft. Tall vigorous habit; immense spikes of pure yellow flrs; splendid var. Miss Wilmott, hb, 6ft. Beautiful white flowers; fine. Olympicum, hb, 5ft. Plants tomentose, flrs yellow. Pannosum, hp, 6ft. Showy white foliage and sulphur-yellow flowers; from Macedonia.

Phoeniceum Hybrids, hp, 3ft. Very attractive border plant of various shades, including white, pink, salmon, and violet; in graceful spikes.

Wiedmannianum, hp, 3ft. Rich deep violet, pretty. Complete Special Mixture of Verbascum.

VERNONIA Novaboracensis, hp, 6ft. Brush-like purple flrs in big corymbose heads; showy.

VERONICA Amethystina, hp, 1ft. Flrs deep blue. Incana, hp, 9in. Pretty silvery foliage and Ageratium-blue flrs; a good edging plant.

Longifolia, hp, 18in. Compact clusters of blue flrs.

Prostrata, hp, 3in. Dwarf, close-growing species; sheets of brilliant blue flrs; excellent rock plant.

Reptens, hp, 2in. Plants compact mats of green studded in Spring with pretty azure flowers.

Spicata, hp, 18in. Flrs violet blue, in long spikes.

Teucrium Royal Blue, hp, 9in. Dwarf bushy habit, bright dark blue flrs; excellent rock plant.

Virginica, hp, 4ft. A beautiful plant with long graceful spikes of white flrs with yellow anthers and strong metallic foliage in whorls.

Complete Mixture of Perennial species of Veronica.

VIOLA Oederata, hp, 3in. The well-known hardy sweet-scented single-flowering English Violet, thriving best in a semi-shade; germinates tardily. Emperor William, blue, sweet-scented, for forcing. Queen Charlotte, large dark blue, showy in beds. Rose Pearl, new, compact, flrs large, bright rose; fragrant, very beautiful.

The Czar, an old favorite; Blue also White.

Complete Special Mixture of Viola Oederata.

WALLFLOWER, hp. These deserve more

attention. They are easily grown from seeds, and in a mild climate bloom freely during Winter.

The flrs. are large, of fine colors, and perfumed. Benary's Double Dwarf Branching, 1ft., mixed.

Eastern Queen, 18in. Pretty shade of salmon-red.

Feltham Early, 18in. Large brownish-red, showy.

Golden Mcnarch, 18in. Fine large golden yellow.

Kelway's Langport Strain, 2ft. Huge single flrs.

2in. across, borne on immense trusses, deep red.

Primrose, Monarch, 1ft. Beautiful primrose-yellow.

Vulcan Improved, 1ft. Large velvety crimson-brown.

White Dame, 18in. Large trusses of creamy flrs.

Complete Special Mixture of all varieties.

YUCCA Aloifolia, hp, 3ft. Fine old species, broad dark leaves, hardy and effective.

Quadricolor, hp, 4ft. Leaves reddish-tinged.

Variegated foliage, leaves whitish-striped.

Filimentosa, hp, 4ft. White flrs; long narrow foliage.

Whipplei, hp, 4ft. Fine California species distinct.

ZAUSCHNERIA Californica Macrophylla, California Fuchsia, hp, 1ft. A fine border plant, flrs funnel-shaped, large, erect, bright red in terminal spikes.

Abutilon Benary's Giant

Cineraria Large-flowered

Cyclamen Persicum Giganteum

CHOICE WINDOW-GARDEN SEEDS

There is a lot of pleasure as well as economy in growing pot plants from seeds, and the plants are more appreciated than if bought from some grower. I would, therefore, urge my friends to order a liberal supply of the choice seeds I offer. I especially recommend Begonia, Calceolonia, Cineraria, Cyclamen, Heliotrope, Lantana, Pelargonium, and Primrose.

ABRUS Praecatorius, Prayer Bean, hhp, 15ft. A beautiful foliage vine with clusters of large purple flowers and bright scarlet seeds.

ABUTILON Benary's Giant, hhsh, 2ft. Big showy bells of various colors; blooms in six months.

Hibiscus-flowered, hhsh, 3ft. Large Hibiscus-like flowers of various shades; fine for pots. 25 seeds.

New Hybrids, hhsh, 3ft. Finest colors mixed. 30s.

ACACIA Arabica, hhp, 20ft. Pretty fol., white flrs.

Dealbata, hhsh, 5ft. Neat pinnate fol., yellow flrs.

Decurrens, hhp, 5ft. Black Wattle; very floriferous.

Farnesiana, hhp, 8ft. Sweet-scented, yellow flrs.

Longifolia, hhp, 10ft. Golden Wattle, yellow flrs.

Podalryiifolia, hhsh, 3ft. Very attractive early-flowering species, bright silvery foliage and beautiful yellow flowers; excellent for cutting.

ACHIMENES, hhp, 6in. Fine showy flowers akin to Gloxinia; requires same treatment; mixed colors. Seeds small and require care in starting.

ADANSONIA Digitata, hhp, 40ft. The African Baobab Tree; leaves five-fingered; flowers white with purple anthers, 6 inches across.

AGAPANTHUS Umbellatus, Blue Lily of the Nile, hhp, 2ft. A splendid flowering pot plant; umbels of big blue bells; set pots in saucers of water in the shade during Summer.

AGATHAEA Amelloides, Paris Daisy, hhp, 1ft. A lovely Winter-blooming plant, blue Daisy-like flrs.

Coelestis, hhp, 1ft. Showy blue flowers; useful for small vases or table decoration during Winter.

Coelestis Monstrosa, hhp, 14in. New, large flrs of a beautiful blue shade; a charming pot plant.

AGAVA Americana, Century Plant, hhp. Hardy in South, pot plant North; graceful foliage. 8 seeds.

AGERATUM Conspicuum, hhp, 4ft. White clusters; Winter-blooming pot plant; fine for cutting.

Lassauxii, hhp, 1ft. Rosy-mauve flrs; fine to cut.

AMARYLLIS Hybrida, hbb, 18in. Large Lily-like flrs, from pure white with varied markings to the richest self colors of rose and red; mixed. 8 seeds.

ANGELONIA Grandiflora, hhp, 3ft. A very beautiful branching pot plant with square stems and spike-like racemes of pretty, fragrant violet-blue flrs.

ANTIGONON Leptopus, Queen's Wreath, hhp, A beautiful free-blooming Summer vine; hardy South but needs protection North; lovely rose-pink flrs.

ARALIA Sieboldi, hhsh, 5ft. A handsome window plant with broad, shining, deeply lobed leaves and umbels of yellowish flowers, an inch broad.

Sieboldi Moseri, hhsh, 3ft. An improved Sieboldi, more dwarf in growth and has dark green foliage.

ARDISIA Crenulata, hhp, 6ft. Red flrs followed by bright coral-red berries in clusters.

ARISTOLOCHIA Elegans, Calico Flower, hhp, 8ft.

One of the most easily-grown pot vines; start^s readily from seeds and blooms the first season, the peculiar and attractive flrs 3in. across being red, white, yellow, purple, brown distinctly contrasted.

Fimbriata, hhp, 6ft. A pretty vine with graceful foliage and purplish-yellow odd-shaped flowers.

ASPARAGUS Falcatus, hhp, 3ft. Beautiful

vigorous plant, shining dark green foliage.

Plumosus Nanus, hhp, 18in. Elegant foliage, fine.

Plumosus Robustus, hhp, 10ft. Window vine, lovely.

Scandens Deflexus, hhp. New, a charming plant for suspended baskets.

Spinosus, hhp, 30ft. For pillars, sweet white flrs.

Sprengeri, Emerald Feather, hhp, 6ft. One of the best plants for window boxes when planted near the edge where it can droop over the side.

Tenuissimus, hhp, 5ft. Rare, very fine for pots.

Verticillatus, hp, 15ft. Blooms freely and has an abundance of red berries in late Summer. 10 seeds.

Virgatus, hhp. A remarkably elegant feathery-looking pot plant from South Africa. 3 seeds.

Complete Special Mixture of Asparagus.

BASELLA Tuberosa Alba, hhp, 1ft. A pretty basket plant with handsome white flowers.

BEGONIA Gracilis, hhp, 1ft. Graceful free and ever-blooming pot plants for Winter; mixed.

Gloire Louveciennes, white flushed rose.

Luminosa, bronze foliage, fiery scarlet flowers.

Semperflorens, hhp, 1ft. Plants compact and are literally covered with showy flowers which droop gracefully in large panicles, finest mixed colors.

Bedding Queen, lovely giant pink flowers.

Christmas Cheer, a very desirable plant for beds in Summer and pots in Winter; plants become globes of charming crimson-scarlet flowers.

Compacta Atropurpurea, 6in. Rich red flowers and glossy bronze-red foliage.

Erfordia Superba, charming pale rose.

Glory of Erfurt, compact everblooming sort with crimson-red flowers almost three inches long and one and a half inches across; beautiful.

Rosea, flrs. deep rose-pink, very free-blooming.

Triumph, beautiful bedder, flrs. white flushed pink.

Vernon, showy blood-red flrs; bronze foliage.

Complete Mixture of Gracilis and Semperflorens.

Tuberous-rooted, hhp, 1ft. These are valuable for Summer decoration or window gardens; large flrs. often 6 in. across, colors ranging from white to crimson and shades of bronze, orange and rose. Double-flowered, beautiful double flowers in fine mixed colors; about 80% true from seeds.

Orange, large, showy orange flrs; very choice.

Single-flowered, rich and varied colors in mixture.

Complete Mixture of Tuberous-rooted Begonias.

BIGNONIA Tweediana, hhp, 10ft. A showy vine from Buenos Aires, lovely trumpet-shaped golden flrs.

BORONIA Megastigma, hhsh, 1ft. Deliciously fragrant drooping bell-shaped purple and gold flrs.

BOSEA Yervamora, hhp. A beautiful pot plant with dense clusters of red berries.

BOUSSINGAULTIA Baseloides, Maderia Vine, hhp, 40ft. A quick-growing vine with red-tinged stems and shining foliage. Flrs white, deliciously scented, in large racemes; very desirable.

BOUVARDIA Jacquinii, hhp, 3ft. Beautiful pot plant with pretty scarlet flowers.

BRUGMANSIA Suaveolens, Angel's Trumpet, hhp, 3ft. Free-blooming, sweet-scented white flowers 7 inches long, blooms several times during Summer, hardy South but needs protection North.

CALCEOLARIA, HHP. These are of easy culture from seeds and a windowful of the blooming plants is a sight of surpassing beauty. The unique pocket-like flrs are entirely different in form from any other flower and the colors range from yellow to pink and red some being tixed, spotted.

Albert Kent, 15in. A beautiful plant with immense trusses of graceful flrs of the most charming colors.

Clibrani Profusa, 18 in. An excellent pot plant bearing a profusion of small golden flrs; very handsome and attractive. 100 seeds.

Grandiflora Tigrina, 15in. Beautiful, flrs showy tixed and spotted; most brilliant.

Kelway's Perfect Model, 1 ft. The finest strain of Large-flow'd Calceolarias in existence, the flrs are well rounded and of the most excellent colors.

New Dwarf Compact, 9in. Lovely clusters of many colors, selfs and spotted, beautiful. I especially recommend this strain as the plants are more convenient to handle than the taller varieties.

Olympia, 15in. Golden yellow blotched brown.

Racemosa Hybrida, 18in. Free-branching; flowers canary and intense red with many shades.

Complete Special Mixture of Calceolaria. 100 s.

CALLA Aethiopica, hhp, 3ft. Old-fashioned white.

Devoniensis, 3ft. Large-flow'd pure white, pretty.

CAMELLIA Japonica fl. pl., Japanese Rose, hhp, 20 ft. Large double flrs, finest mixed colors. 4 seeds

CARDULOVICA Palmata, hhp, 5ft. Large Palm-like leaves 2 ft. across, cut into graceful segments and held upon long stems.

CARICA Papaya, Tree Muskmellon. hhp, 10ft. Showy fragrant greenish flrs. followed by large edible fruits which are very delicious when ripe.

CASSIA Corymbosa, hhp, 6ft. Very handsome pinnate foliage and a profusion of showy yellow flrs.

Floribunda, hhp, 3ft. Golden flrs in clusters, pretty.

CASUARINA Equisetifolia, hhp, 15 ft. From Australia; an ornamental evergreen pot plant.

CELSIA Arcturus, hhp, 4 ft. Long spikes of golden yellow flrs, July to September; lovely pot plant.

Cretica, hhp, 18in. Large yellow flrs spotted brown.

CENTROSEMA Grandiflora, hhp, 6ft. A magnificent vine with rosy-violet to reddish-purple flowers.

CHORIZEMA Illicifolium, hhp, 3ft. Holly-leaved; flowers yellow striped red; March to October.

CHRYSANthemum Comtesse de Chambord, hhp, 2 ft. White Paris Daisy; choice pot plant; to cut.

Indicum fl. pl., hhp, 3ft. Early-flowering double Chinese varieties in splendid mixture.

Japonicum fl. pl., hhp, 4 ft. Finest double Japanese sorts from select varieties; mixed.

Japonicum Improved, hhp, 2 ft. Single flrs in a wide range of colors; early-flowering.

CINERARIA, hhp. These improved Large-flowered Cinerarias are magnificent plants for the house or conservatory during the Spring months. The plants are of neat habit, the foliage large and attractive; the flrs are of velvet-like texture, in every color of the rainbow, and cover the plant with a sheet of exquisite bloom. The star-shaped varieties with twisted petals are also attractive.

Benary's Superb Strain, 15in. Showy large flowers from prize varieties; finest mixed. 50 seeds.

Berlin Market, 15in. New, each plant becomes a bouquet of medium flrs. in the richest colors; for house or market. 50 seeds.

Kelway's Perfect Model Single, 15 in. Free-blooming, graceful plants with large flrs of the most wonderful colors and variegations. 50 seeds

Kelway's Perfect Model Double, 15in. From finest double flrs, many rich colors. 50 seeds

Kelway's Stella, 1ft. Dwarf; flrs cactus-shaped, many showing a distinct white edge. 50 seeds.

Kelway's Stellata, 3 ft. A profusion of small star-shaped flrs in many fine colors; fine to cut. 50 s.

Nana Multiflora, 1 ft. Benary's splendid new varieties, remarkable for its compact habit and glorious mass of bloom; small flowers. 50 seeds.

Polyantha Radiata, 1ft. Small starry flrs in great profusion; fine pot plant.

Vilmorin's French, 15 in. The skillful development of years of selection and hybridization in splendid colors and variegations. Colors: Antique Rose, Glowing Scarlet, Royal Blue, Striped, White. Separate 50 seeds. Mixed 100 seeds.

Complete Mixture, large-flow'd varieties. 100 s.

CLIANthus Dampieri, Australian Glory Pea, hhp, 2 ft. A very beautiful plant for window or garden; flrs scarlet and black in clusters; very attractive.

Puniceus, hhp, 5ft. Brilliant red with white spots.

COLEUS, hhp. These are extremely beautiful foliage plants, the leaves being variegated and of the richest colors. They are easily raised from seeds and are indispensable for beds, borders, pots, and window boxes. My seeds are of the finest strains and are sure to afford much pleasure.

Benary's Exhibition, 2 ft. Extra choice; saved from Benary's splendid collection. 20 seeds.

Kelway's Unique, 2 ft. Elegant twisted foliage. 50s.

Pyrenean Giant, 3 ft. Giant varieties in mixture. 50.

Striped Empel, 2ft. Lacinated leaves striped green, white, gold and brown. 50 seeds.

Thyrsoides, 2 ft. Pretty foliage and lovely spikes of azure bloom in Winter; rare. 10 seeds.

Vilmorin's Large-leaved, 2 ft. Large, variegated.

Complete Special Mixture of Coleus. 100 seeds.

CONVOLVULUS Aureus Superbus, hhp. A rapid vine with beautiful golden flowers. 12 seeds.

Mauritanicus, hhp. A lovely trailing vine for hanging baskets; rich blue flowers. 25 seeds.

CORDYLINE Australis, hhp, 3ft. Hardy South, an elegant pot plant North; leaves long, handsomely striped; lovely sweet-scented white flrs in panicles.

CYCLAMEN Persicum Giganteum, hhp, 1ft. These are beautiful plants for the window in Winter, the exquisite flowers being of many lovely colors and produced in great abundance for many weeks; seeds show plantlets in about 4 weeks, and plants begin blooming in 18 months. Every seed, as a rule, will produce a plant. The foliage is often as beautifully marked as a Begonia. Colors: Bright Rose, Pure White, White with red eye, Salmon Rose, Carmine Red; Separate 10 seeds. Mix. 12 s.

Grandiflorum, large-flow'd, finest mix. colors. 12s.

Papilio, Butterfly Cyclamen, large flrs with frilled and fluted petals, the edge of the flrs being of a different color to the flower. 10 seeds.

CYPHOMANDRA Fragrans, hhp, 8ft. A handsome semi-tropical plant; broad showy leaves and white flrs succeeded by scarlet fruits in great numbers, having the appearance and taste of tomatoes; a good substitute; grow in pots and protect in Winter in a frost-proof room or cellar; water sparingly during resting period. 15seeds.

DASYLIRION Longifolium, hhp, 5ft. A magnificent evergreen pot plant with panicles of beautiful white lily-like flowers; very attractive.

DIOCLEA Glycinoides, hhp. A beautiful climbing pot plant with large racemes of scarlet flowers.

Freesia Tubergenii

Gesneria Hybrida

DOLICHOS Lignosus, hhp, 6ft. A magnificent ever-green climber with purple-red flrs, excellent for suspended baskets. 25 seeds.

DRACAENA, hhp, 2ft. A pretty sub-tropical plant much used for pots; mixed colors. 30 seeds.

ECHEVERIA Secunda Glauca, hhp, 1ft. Rosettes of succulent leaves; yellow and red flowers.

Mixed Species, hhp, 1ft. Succulents with urn-shaped leaves and various colored flowers.

EPACRIS Hybrida, hhp, 3ft. A fine Winter-blooming pot plant. Finest mixed colors.

ERIODENDRON Anfractuosum, hhp, 70ft. A Florida tree with magnificent flrs resembling a *Speciosum* Lily, large clusters, in bloom for weeks. It is not known how far North it is hardy, although it has withstood the freezes of Florida. This is the most beautiful tree I ever saw. Seeds start promptly. 8s.

ERYTHRINA Crista Galli, hhp, 6ft. Long terminal spikes of red flowers; beautiful. 4 seeds.

Corallodendron, Coral Tree, hhp, 15ft. Scarlet. 2s.

EUCALYPTUS Amagdalina, Pepper-mint Tree, hhp, 470ft. The largest tree in the world.

Citriodora, hhp, 3ft. Foliage citron scented, very distinct; suitable for pots.

Ficifolia, hhp, 3ft. Scarlet-flowering Gum. A showy sort with pretty Fig-shaped leaves and large scarlet and pink flowers.

Globulus, Blue Gum, hhp, 50ft. Fine glaucous fol.

Resinifera, Red Gum, hhp, 25ft. A handsome sort.

Stuartiana, Apple-scented Gum, hhp, 10ft. For pots.

Complete Special Mixture of Eucalyptus.

EUSTOMA Russelliana, hhp, 3ft. Elegant pot plant with rich deep lilac flrs with black center and yellow stamens; very beautiful. 30 seeds.

EXACUM Affine, hhp, 6in. A compact free-flowering plant of the Gentian family; flowers blue with gold stamens; finely scented.

FABIANA Imbricata, hhp, 3ft. Pure white funnel-shaped flowers in great profusion; hardy ever-green but needs protection North.

FERNS, Greenhouse Varieties in splendid mixture. Open Ground Species, choice mix. of hardy sorts.

FRANCOA Ramosa, Bridal Wreath, hhp, 18in. Pure white flowers; very neat species. 50 seeds.

Ramosa Rosea, hhp, 18in. Beautiful rose flowers.

FREESIA Hybrida, hhbb, 1ft. Remarkably fine new hybrids with large flrs; easily raised from seeds.

Ragioneri, hhbb, 1ft. Beautiful large-flowered hybrids in many fine colors; blooms in Autumn from Spring-sown seeds.

Tubergenii, hhbb, 1ft. Flowers of the largest size and finest colors produced very freely on long strong stems, lasting well when cut.

FUCHSIA, hhp, 2ft. An excellent pot plant and fine

for shady places where few other plants will answer. Seeds germinate tardily.

Corymbiflora, beautiful scarlet flrs in clusters.

Fulgens, long racemes of drooping scarlet flowers.

Hybrid Double, finest double-flow'd mixed. 10s.

Hybrid Single, single-flow'd sorts in splendid mix.

Procumbens, blue flowers during Winter; pretty species for hanging baskets.

Complete Special Mixture of Fuchsia. 15 seeds.

GESNERIA Hybrida, hhp, 20in. These are elegant plants akin to Gloxinias, Spring seedlings blooming in late Autumn. Both foliage and flowers are beautiful, the flrs in many fine colors, often spotted. Cover the soil with chopped tobacco stems to ward off insects and act as a fertilizer; shade from hot sun during Summer.

GLORIOSA Superba, hhp, 6ft. A very beautiful bulbous, Lily-like plant with reddish-orange flowers; from tropical Africa. Do not order this unless you know how to treat it. 2 seeds.

GLOXINIA, hhp, 1ft. These are easily grown from seeds and when sown in Spring the plants will begin blooming about Christmas and will remain in bloom during the Winter. The flowers are large, bell-shaped and of the most brilliant colors.

Benary's Giant, an improved strain of surpassing beauty, the flowers are of enormous size, and the new, rich colors and variegations are amazing. They are altogether unrivalled. My seeds are direct from Benary, and can be relied upon for vitality and quality, Gloxinias being one of his specialties. I offer the following named varieties.

Cyclops, wine red, bordered white, spotted throat.

Danube, pure white with heavenly blue border.

Frederick Benary, brilliant scarlet, white throat.

Goliath, violet with blue border, spotted throat.

Rhine, pure white with lovely pink border.

Complete Mixture of Benary's Giant Gloxinia. 100.

Crassifolia, large flowers; extra choice mixture.

Imperialis, *Sinningia*, finest dark-leaved variety, flowers beautiful, erect, often spotted.

Vallerand's, spotted, margined, and stained; superb varieties in splendid mixture.

Vilmorin's French, from a superb collection of perfect forms, containing practically every color and combination of shades; exceptionally good. 100s.

Complete Special Mixture of Gloxinia. 100 seeds.

HEBECLINIUM Macrophyllum, hhp, 4ft. Large branching plants from tropical America; lilac flrs in big corymbs, very profuse.

HEDYCHIUM Gardnerianum, hhp, 4ft. Pretty foliage and clusters of sweet-scented white flowers.

HELIANTHELLA Uniflora, hhp. Pretty light yellow Aster-like flowers; very attractive.

Asparagus Sprengeri

Lantana Dwarf Compact

HELIOTROPE, hhp, 1ft. Easily-grown free-blooming plants for pots or beds; flrs in small clusters, from white to royal blue, deliciously scented. **Cyclope**, umbels of large flrs in the prettiest shades. **Fire Queen**, crimson-red flowers, dark foliage. **Lemoine's Giant**, large clusters of giant flrs; mixed. **Louise Delaux**, giant-flowered, rose; very pretty. **Madame Bruant**, deep lilac flrs; a superb variety. **Peruviana**, showy light blue flowers; excellent. **Queen Marguerite**, large umbels of dark blue flrs. **Roi des Noirs**, rich deep violet; fine variety. **Triumph de Liege**, large-flowered; light lilac. **White Lady**, large pure white flrs; distinct; good. **Complete Special Mixture of Heliotrope**, 150 seeds. **HYPERICUM Canariensis**, hhp, 18in. A handsome pot plant with golden yellow flowers; fine. **IMPATIENS Balfouri**, hhp, 2ft. The **Orchid Balsam**; flrs white with carmine-rose; seeds start tardily. **Nana Amabilis**, hhp, 10in. Flrs striped and shaded carmine-rose on silvery-white ground; red eye. 30. **Holsti Hybrids**, hhp, 2ft. A great variety of colors, fine for the conservatory or sheltered beds. 35s. **Queen Carlo**, hhp, 18in. Lovely old rose. 25 seeds. **Sultani Hybrids**, hhp, 2ft. Finest mixed colors. 35. **INDIGOFERA Tinctoria**, hhp, 5ft. Flowers pink. **ISOLOMA Hybrida**, hhp, 1ft. Splendid pot plant. **JACARANDA Mimosifolia**, hhp, 5ft. Feathery foliage and pretty blue flowers. **KALANCHOE Crenata**, hhp, 3ft. Yellow, red throat. **KENNEDYA Bimaculata**, hhp, vine; blue, white spots. **Comptoniana**, hhp, vine; bluish-purple flrs; fine. **LANTANA Choice New Hybrids**, hhp, 3ft. Beautiful flrs of various colors; fine for pots or beds. **Nana Compacta**, hhp, 1ft. Large-flow'd, ever-blooming plants of bushy habit; for pots or beds, flowers of the richest and most varied colors. **LAVATERA Arborea Variegata**, hhp, 2ft. Splendid variegated foliage plant, green and creamy white. **LAVENDULA Pinnata**, hhp, 15in. Graceful pinnate foliage and fragrant rich blue flowers. **LISIANTHUS Russelliana**, hhp, 3ft. Elegant pot plant with rich deep lilac flrs with black center and yellow stamens; very beautiful. 30 seeds. **LOTUS Jacobaeus**, hhp, 2ft. Dark purple pea-like fl. **MACKAYA Bella**, hhp. Pale lilac flowers. 5 seeds. **MALVA Capensis**, hhp, 10 ft. Flrs purple, showy. **MANDEVILLEA Suaveolens**, hhp, vine; white flrs.

MEDEOLA Asparagoides, Smilax vine, hhp. Handsome shining foliage; fine for cutting. **Myrtifolia**, Baby Smilax, small foliage; fine. **MELIANTHUS Major**, hhp, 3ft. Handsome silvery foliage and spikes of pretty brownish-orange flrs. **METROSIDEROS**, **Tomentosa**, Bottle Brush, hhp. Red flrs in terminal racemes; a fine pot plant. **MIKANIA Scandens**, hhp, A vigorous trellis-climber; flrs, yellowish white in large heads. **MUSA Ensete**, Banana Plant, hhp, 5ft. Magnificent foliage-plant. 2 seeds. **MYRTUS Romana**, hhp, 5ft. Evergreen, richly scented foliage and pretty white flowers. **NAEGELIA Zebrina Discolor**, hhp, 18 in. Flrs fiery-red and yellow spotted brown; variegated foliage. **NERIUM Oleander**, hhp, 10ft. Lovely flrs; mixed. **NERTERA Depressa**, hhp, 9in. A charming pot plant covered with showy scarlet berries. 10 seeds. **OCHNA Multiflora**, hhp, 4ft. Flrs golden; fruits the size and color of a Strawberry. 2 seeds. **OXALIS Floribunda**, hp, 9in. Flrs in clusters on long stems. Rose and White. Separate or Mixed. 50 s. **PASSIFLORA Alba**, hardy vine with fine white flrs. **Coerulea**, hardy vine; showy blue flowers. 30 s. **Eduilis**, hardy vine, blue and white flrs; showy; delicious purple egg-shaped edible fruits. 15 seeds. **Gracilis**, hardy vine, flrs white striped blue. 15s. **Complete Special Mixture of Passiflora**, 30 seeds. **PELARGONIUM**, **Fancy and Spotted**, Pansy Geranium, hhp, 2ft. Showy mixed colors. 3 seeds. **Odoratissimum**, Apple-scented Geranium, 8 in. Valued for its fragrant foliage. 50 seeds. **Zonale**, Extra Choice, large-flow'd, finest mixed. **Zonale**, **Sluis Brothers** finest mixture. 15 seeds. **PHALANGIUM Lineare fol. Variegatis**, hhp, 2ft. A pretty striped grass-like plant, white Lily-like flrs. **PHASEOLUS Caracala**, hhp, a twining vine from India with large yellowish-purple flrs. and spirally twisted seed-pods. **PHORMIUM Veitchi**, hhp, 2ft. An elegant variegated-leaved pot plant of easy culture. **PHYSIANTHUS Albens**, hhp, an easily-grown climbing Asclepiad, flrs bladder-like, red tinged white. **PITTOSPORUM Tobira**, hhp, 8ft. A fine evergreen pot plant with clusters of sweet white flrs. 20 s. **Undulatum**, hhp, 6ft. Leathery foliage and clusters of fragrant white flowers. 20 seeds.

Pelargonium Zonale

Chinese Primrose Star Sorts

Primula Obconica

POINCIANA Gillesi, hhp, 3ft. Beautiful scarlet flrs.

Pulcherrima, hhp, 3ft. Showy orange flrs. 5 seeds.

POINSETTIA Pulcherrima, hhp, 6ft. The beautiful Christmas flower; started in Spring seedlings. bloom for Christmas. 2 seeds.

PRIMULA or Primrose, hhp. These half hardy Primroses are among the most easily grown, showy and beautiful of window plants and deserve a place in every home. The plants are readily grown from seeds, thrive under ordinary care and come into bloom in a few months after they are started. I offer the finest quality of seeds and send cultural directions with them.

Chinese Giant Fringed. Anyone can grow these successfully from seeds, and a windowful of the blooming plants is an object that attracts the attention and admiration of all who see it. My seeds are of the finest strains and come in the following splendid named varieties:

Coccinea, glittering red, one of the showiest.

Coerulea, exquisite light blue, extra choice.

Emperor, splendid copper-red; excellent.

Empress, new, reddish-magenta; showy.

Exquisite, beautiful pale pink, a choice variety.

Kermesina, brilliant crimson, wonderfully showy.

Lady Randolph Churchill, beautiful pure white.

Marquis of Lorne, charming bright rose; fine.

Soleil de' Empel, white with a lovely gold eye.

Separate 20 seeds, Complete Mixture 25 seeds.

Chinese Choice Fringed. These are also fine, and come in the following choice varieties:

Alba Magnifica, large white flowers with gold eye.

Azurea, magnificent light blue flrs; very rare.

Defiance, rich carmine-red with brown eye.

Duchess Hybrids, various rich colors, dark center.

Enticelante, large-flowered, rich scarlet.

Filicifolia, fern-leaved, white also mixed.

Morganrote, beautiful red shades, handsome.

Sedina, brilliant dazzling red, very showy.

Striata, white striped carmine-mauve.

The Duchess, white with a carmine center.

Separate 25 seeds. Complete Mixture. 30 seeds.

Chinese Star Sorts. These are more free-blooming than the Giant Fringed, embrace as many colors, and are more easily cared for. They will succeed under adverse conditions and are as attractive as the Giant Primroses, and more satisfactory.

Auricula, white with distinct mauve eye, showy.

Celestial, lovely porcelain blue flowers; distinct.

Coral, beautiful creamy-pink, one of the best.

Giant Carmine, bronze foliage, carmine flowers

Harlequin, light rose with pink flakes.

King of the Blues, rich dark blue; pleasing.

Lord Robert's Star, fiery red, one of the showiest.

Purity, dark stems and foliage; white flowers.

Ruby Star, darkest blood-red; large clusters.

The Bride, giant pure white flowers; handsome.

Vesuvius, brilliant red, one of the brightest.

Separate 25 seeds. Complete Mixture. 50 seeds.

Chinese Double. These are showy plants when in bloom, but are not as admirable as the Fringed Single Primroses as they lack the graceful form of those varieties. White, Striped, Pale Pink, Bright Red,. Separate 15 seeds. Mixed 20 seeds.

Floribunda Grandiflora, 1 ft. An improved variety bearing beautiful golden yellow flrs; an excellent Winter-bloomer, blooming for a long time.

Forbesi, Baby Primrose, 1ft. A lovely little Primrose blooming in 3 months after sowing; free-blooming, graceful, beautiful, lilac flrs in abundant clusters.

Kewensis, 1 ft. A new hybrid; splendid foliage and large golden flowers; a choice Winter-bloomer.

Malacoides. Here is a lovely Primrose that starts readily from seeds, and seedlings bloom in about 4 months. The flowers are not large, but are produced in compound whorls; showy and beautiful.

Fraicheur, large-flowered, light lilac, very pretty.

Gayety, flowers double, dark red, beautiful.

Kermesina, dazzling red, large-flowered.

Snowflake, flowers double, pure white.

Superba Rosea, lovely rose flrs; improved sort.

Complete Special Mixture of Primula Malacoides.

Obconica, New Giant-flowered. These are readily

started from seeds, and are in bloom for weeks, eliciting the admiration and praise of all beholders. My seeds are from reliable growers and can

be depended upon to produce the largest, richest-colored and most beautiful flowers. Colors:

Apple Blossom, Blood Red, Blue, Crimson, Deep Rose, Fire Red, Fringed Mixed, Lilac, Pure White, Salmon Queen, Red Chief. 50 s. Mixed 75 s.

Fastbender's Red, new, huge flrs, rich glowing red.

Mohnstein's Red, new, carmine-rose; charming.

REHMANIA Angulata, hhp, 2ft. Flrs large rose with golden yellow throat and purple spots.

RHAGODIA Nutans, Australian Red-berry, hhsh. Grayish green foliage; pretty clustered fruits.

RHODOCHITON Volubile, hhp, vine with purple-rose flrs and dark crimson corolla; free-blooming.

RIVINA Humilis, hhp, 2ft. A pretty pot plant of easy culture; flrs white followed by scarlet berries in handsome racemes. 15 seeds.

Humilis Aurantiaca, white flrs with golden berries

ROCHEA Falcata, hhsh, 18in. A pretty succulent pot plant with showy scarlet flowers.

RHYNCHOSPERMUM Jasminoides, hhp. A fine pot plant with variegated foliage, sweet-scented.

SAINTPAULIA Ionantha, African Violet, hhp, 3in.

Charming rich blue flrs an inch across; produced in clusters. The seeds are small and require care in starting, treat plants same as Gloxinias. 25 s.

SAXIFRAGA Sarmentosa, Aron's Beard or Creeping Sailor, hhp, 9in. Showers of uneven-petaled white flowers with pink spots; very useful for suspended baskets; beautiful.

SCHOTIA Latifolia, Elephant Hedge Bean, hhp. A handsome vine with rose flowers in terminal panicles; pods edible when roasted; rare.

Impatiens Sultani Hybrids

Rivina Humilis

Solanum Marginatum

SEQUOIA Sempervirens, California Red Wood, evergreen; largest tree in America.
SKIMMIA Japonica, hhp, 4ft. Beautiful hot plant with sweet white flrs and scarlet berries.
SOLANUM Capsicastrum, hhp, 1ft. Small white flrs and pretty red cherry-like fruits.
Darmstadtia, hhp, 1ft. Large scarlet berries in Winter.
Fra Diavolo, hhp, 2ft. A mass of rich red berries.
Marginatum, hhp, 4ft. Flrs white with purple center pretty yellow fruits an inch in diameter.
Pseudo-capsicum, Jerusalem Cherry, hhp, 3ft. Splendid pot plant with scarlet fruits.
Seaforthianum, hhp, vine, pretty blue flowers.
STEPHANOPHYSUM Longifolium, hhp, 2ft. An elegant Winter-blooming pot plant; showy scarlet flrs.
STEPHANOTIS Floribunda, Clustered Wax Flower, hhp, 1cft. Pure white flrs, deliciously fragrant and produced freely in large bunches; fine for cutting.
STREPTOCARPUS Hybrids, hhp, 1ft. Easily grown from seeds, the flrs are 2in. or more long and show all the leading colors from white to blue, crimson.

SUTHERLANDIA Frutescens, hhsh, 3ft. Scarlet flrs. in showy racemes, beautiful silvery foliage.
SWAINSONIA Grandiflora, hhp, showy Winter-blooming vine, flrs in racemes, mixed colors. 25 s.

TACSONIA Van Velzemi, hhp. A beautiful vine with large scarlet flrs and edible fruits.
TECOMA Smithii, Trumpet Flower, hhp, 3ft. Winter-blooming; flrs yellow with a spotted throat.
TEMPLETONIA Rotunda, Coral Bush, hhp, 3ft. A fine pot plant with red pea-shaped flowers.
TEPHROSIA Grandiflora, hhp, 2ft. Everblooming pot plant with red pea-like flowers.
TETRANEMA Mexicana, Mexican Foxglove, hhp, 1ft. Elegant tufts of graceful foliage with clusters of purplish violet flowers. 100 seeds.
THEA Sinensis, hhsh, 6ft. Large showy flowers; the leaves when treated become the tea of commerce.
TROPAEOLUM Coccineus, hhp. Showy pot plant. Minus, hhp, 1ft. Small orange flrs tinged red.
Speciosum, hp, vine with bright scarlet flowers. Known as Flame-flowered Nasturtium. 5 seeds.
TYDAEA Grandiflora, hhp, 1ft. A beautiful Gesneraceous plant with large rich-colored flrs, mixed.
VERBENA Citricdora, Lemon Verbena, hhp, 2ft. Sweet-scented foliage; showy white flowers.
VERONICA Hybrida, hhp, 3ft. Greenhouse varieties in splendid mixture. 250 seeds.
WIGANDIA Macrophylla, hhp, 5ft. An elegant pot plant with large showy leaves and beautiful lilac cup-shaped flowers in attractive spikes.

Culinary and Medicinal Garden Herbs

Every kitchen garden should contain a bed of the herbs I offer to be used in flavoring and making more palatable the food prepared for the table; also to be used for teas as remedies for the various ills to which the family is subject. Do not fail to add a few of these herbs to your order. Some of the plants are well worth growing as flowering or ornamentals, and will last for years once established.

ANGELICA Archangelica, 5ft, large-leaved, umbels of small white flowers; roots used as a tonic.
ANISE, 1ft., annual, umbels of white bloom, seeds used for flavoring, also for tea to relieve colic.
ARTEMISIA Vulgaris, 4ft., recommended for poultry yards to promote the health of fowls.
BASIL, Sweet Purple Bush, 1ft., handsome as a pot plant, fragrant. Used as a flavoring in soups.
BALM Melissa, 2ft., perennial, whitish bloom, lemon flavor; used for tea in sickness. A bee plant.
BORAGE, 2ft., perennial, flowers blue, paniced, drooping, leaves used for flavoring, bee plant.
CARAWAY, 1ft., biennial, white umbels, fragrant seeds, used for flavoring bread, meats, liquors.
CATNIP, hp, 3ft., tea from leaves aids digestion.
CORIANDER, 2ft., annual, white, seeds to flavor.
CUMIN, 6in., annual, rosy-white, seeds to flavor.
DANDELION, Thick-leaved, prolific, very desirable. Improved Broad-leaved, larger leaves and larger flowers, early, fine Winter salad when forced.
DILL, Anethum, 2ft., biennial, yellowish umbels; leaves used for pickles and flavoring sauces.
ELECAMPANE, 3ft., perennial, golden bloom, tea made from the roots used in bronchial troubles.

FENNEL, 4ft., biennial, fragrant, fine for salads.
HOREHOUND, tea of leaves good cough remedy.
HYSSOP, 2ft., per., a pretty flowering plant, blooming throughout Summer, leaves used for a tea.
LAVENDER, 2ft., per., flrs fine blue, in spiked whorls, used to dry for perfume, which is excellent.
LOVAGE, 1ft., per., pot herb, yellow umbels.
LIQUORICE, 4ft., flrs pale blue in spikes, roots long.
MAJORAM, Sweet, 2ft., annual, flrs purple, in spikes. Pot, 2ft., perennial, flrs purple in panicles, branches used for culinary purposes.
PENNYROYAL European, 1ft., flrs purple in whorls.
ROSEMARY, 3ft, hardy evergreen shrub. Flrs pale blue in axillary spikes; used to relieve headaches.
SAGE Broad-leaf, 1ft., sub-shrub. Flrs blue in whorls, profuse. Leaves and stems used for seasoning.
SAVORY, Summer, 18in., flrs lilac in whorls. Winter, 1ft., dwarf hardy evergreen, lilac flowers.
TANSY, Macrophyllum, 4 ft., dense yellow flrs.
THYME French, 6in., handsome perennial often used as an edging. Flrs lilac in dense clusters.
WINTER, Broad-leaf, English or German, for cocking.
WORMWOOD, Absinthum, 1ft., very bitter, tea of the leaves used as a vermifuge in children.

Annual Scabiosa.—These have been so improved that they are twice the size of the original. They also come in a variety of handsome colors, as crimson, purple, rose, bright blue. The flowers are fine for bouquets as they have long strong stems and last well when cut. They are of the easiest culture. English Garden

Annual Scabiosa.—Sow seeds of these in April to bloom from August till December. The flowers are especially valuable late, as they will endure severe frost. Good flowers can be gathered until freezing weather. Started in August the young plants are hardy and will make a fine display of early Spring flowers. English Garden

The Beautiful and Popular Scabiosa

THE above engraving represents flowers of the new and beautiful Sweet Scabiosa, which is a great improvement over the old-fashioned Scabiosa formerly seen in our grandmother's garden. The plants grow three feet tall, and become a waving mass of these exquisite flowers borne aloft on long, strong stems, and exhibiting a great diversity of colors, as White, Rose, Scarlet, Brick-red, Azure Fairy, Red and white, Separate or mixed. When started from seeds in early spring and set eight inches apart in a bed, the plants make a grand garden display during late Summer and Autumn, or, started in Autumn they will endure the winter and begin to bloom early the next season. The flowers are especially adapted for cutting, and the white, blush and pale blue flowers are prized for funeral as well as room decoration. The dwarf sorts thrive in pots, and are fine for winter-blooming in the window. I especially admire these beautiful annuals, and earnestly urge their culture. 5cts.

Scabiosa Candidissima Flora Plena

This is the handsome Snowball Scabiosa. The plants grow three feet high, branching freely, each branch tipped with a lovely big double pure white flower. It is beautiful in the garden and fine for cutting. The plants are readily grown from seeds, and easily transplanted. A splendid annual, but little known; of easy culture. 75 seeds 5cts.

AQUATIC SEEDS, FINEST VARIETIES

I take pleasure in presenting this descriptive list of plants, many of which are rare and beautiful. Those who have lakelets or water gardens will find it of interest. The seeds were all obtained this season.

ALISMA Plantago, 2ft. A graceful bog plant, leaves all radical, flrs. 3-petaled, rose, in whorls; July.
BUTOMUS Umbellatus, 2ft. Water Gladiolus, rosy flowers in umbels on naked stems, leaves narrow.
CALTHA Palustris, 6in. Tufts of pretty foliage adorned with lovely golden cups in Spring, bogs.
CAREX Pendula, 4ft. A graceful Sedge, the leaves broad, flrs in long, drooping, cylindrical spikes.
CYPERUS Alternifolius, 2ft. Umbrella Plant, an elegant Sedge, for pots as well as water margins.
Papyrus, 6ft. Egyptian Paper Plant, tall graceful plumes, hardy South, protect at the North.
DROSERA Rotundifolia, 4in. Circular leaves encircled by red hairs, flrs white on erect scapes, hardy.
IRIS Pseud-acorus, Water Flag, 2ft. A hardy bog plant, flrs large, bright yellow and orange, fine.
LYCOPUS Europaeus, 2ft. Marsh Horehound, a broad serrated-leaved perennial, unattractive flrs.
MENTHA Aquatica, Water Mint, 2ft. A hardy mint, ovate leaves and dense terminal spikes of flrs.
MENYANTHES Trifoliata, Bog Bean. A handsome plant found in the marshes of England, flrs. white suffused with pink and beautifully fringed, hardy.
MYOSOTIS Palustris, 6in. A very pretty continuous-blooming hardy perennial marsh Forget-me-not,

the flowers are lovely blue, in pretty clusters.
NELUMBIUM Speciosum, 3ft. The great Egyptian Bean of Pythagoreus, elegant umbrella foliage held above the water and huge rosy-tipped, tulip-like, richly-scented flowers a foot in diameter.
NUPHAR Luteum. Big fleshy round leaves and showy golden flowers the size of a duck egg.
NYMPHAEA Alba, the well-known white Water Lily.
Coerulea, the blue Water Lily, a lovely free-blooming plant, handsome; needs Winter protection.
Lotus, a tender Water Lily, the true Egyptian Lotus.
Pygmaea, a handsome hardy species from Central Asia, fragrant white flrs, from June till September.
Rose Hybrids and **Blue Hybrids**, two fine races of Water Lilies, separate or mixed.
 Splendid Special Mixture of many sorts.
PARNASSIA Palustris, 6in. An elegant bog plant, grass-like with showy white veined flowers.
SAGITTARIA Sagittifolia, 1ft. Erect racemes of showy white flowers, leaves arrow-shaped.
SCOPARIUS, very ornamental Rush; bog plant.
SIUM Latifolium, 5ft. Water Parsnip, an umbelliferous plant, flowers white, in compound umbels.
TYPHA Latifolia, Cat-o-nine-tails, 5ft. A handsome hardy water plant; flowers in dense spikes, brown

THE FINEST ORNAMENTAL GRASSES

All grasses are more or less graceful and beautiful, but the following are among the finest and most admired. A bed of the choicer ones will afford much satisfaction and pleasure. Clumps of the taller ones are elegant as single specimens, while such kinds as *Agrostis*, *Eriza*, *Hordeum*, *Lagurus*, *Tricholaena*, and many others are fine for bouquets in Summer, and when dried may be artistically used with everlasting for Winter decorations. Some are annuals and some perennials, and all are of easy culture from seeds. *Stipa Pinnata* is prized as a pot plant.

AGROSTIS Laxiflora, 2ft. Slender, wide panicles.
Nebulosa, 1ft. Cloud Grass, cloud-like panicles.
Pulchella, 1ft. Hair Grass, lovely bouquet, annual.
ANTHOXANTHUM Odoratum, 1 ft. Sweet Vernal.
Gracile, 9in. Fine for edging of beds or borders.
ARUNDO Donax Variegata, 10ft. Striped leaves.
AVENA Sterilis, 2ft. Drooping spikes, elegant grass.
BRACHYPODIUM Gracile, 1ft. Trembling, lovely.
BRIZA Maxima, 2ft. Big Quaking Grass, elegant nodding panicles, good to cut or dry, fine annual.
Media, 1ft. Filmy panicles of shining purple spikelets, tremulous with the slightest breeze, lovely.
Gracilis, 8 in. Spikelets on hair-like stems, pretty.
BRIZOPYRUM Siculum, 11ft. Annual, many-flowed, two-ranked, flat spikelets on decumbent stems.
BROMUS Brizaformis, 2ft. Fine biennial, bouquets.
Madritensis, 2ft. Long dense panicles, small spikes.
Macrostachyus, 2ft. Long ornamental spikes, fine.
CERATOCHLOA Pendula, 3ft. Panicles 10 in. long.
CHLORIS Barbata, 1ft. Spikes 2in. long, from India.
CHRYSURUS Cynosuroides, 6 inches, a low annual with silken plumes that become golden when ripe.
COIX Lachryma, 3ft. Job's Tears. Used for beads.
Aurea Zebrina, massive foliage blotched golden.
DIPLACHNE Fascicularis, 2ft. A marsh grass, fine.
ELEUSINE Oligostachia, 1 ft. Fine Winter bouquets.
ELYMUS Giganteus, Giant Bunch Grass, clumps.
ERAGROSTIS Abyssinica, 3ft. Fragrant, panicles loose, open, the hair-like drooping branches tipped with spikelets. Used in Africa for bead making.
Elegans, 10in. Love Grass, white spikelets, fine.
Maxima, Giant Love Grass, big diffuse panicles set with pretty small spikelets, excellent for bouquets.
ERIANTHUS Ravennae, 6ft. Plume Grass, elegant hardy plant, leaves long, graceful, feathery plume.
EUCHLAENA Luxurians, 12ft. A very handsome annual with 20 stems springing from a single seed, each tipped by dense panicle, leaves long, broad.
EULALIA Zebrina, 4ft. Striped hardy perennial, fine.
FESTUCA Glauc, 1ft. Fine for edging or border.

Rigida, 10in. Tufted grass, fine for rockeries.
Stipoides, 2ft. The Feather Grass-like Fescue, fine.
GYMNOTHRIX Latifolium, 10ft. A noble perennial, big clumps, graceful nodding spikes, splendid.
Japonicum, 3 feet. Silvery spikes, purple anthers, long prominent bristles, splendid hardy perennial.
GYNERIUM Argenteum, 2ft. Pampas grass, elegant hardy perennial, immense silvery plumes, silky.
Roseum, exquisite big fluffy rosy plumes, hardy.
HORDEUM Jubatum, Squirrel-tail, spikes long, fine.
ISOLEPIS Gracilis, bog plant; drooping, slender foliage, hiding the pot; a splendid plant.
KOELERIA Setacea, 2ft. Tufted perennial grass with spikelets in panicles, for bouquets, green or dry.
LAGURUS Ovatus, 1ft. Hare's-tail, fluffy white heads, showy in gardens from July to Sept, fine.
LASIAGROSTIS Gracilis, 2ft. Annual, very pretty.
MELICA Altissima, 3ft. Tall Pearl Grass, handsome.
ORYZA Sativa, 2ft. Rice, chief food of China.
PANICUM Altissimum, 6ft. Guinea Grass, splendid.
Capillare, 2ft. Panicles large, numerous, bouquets.
Plicatum Variegatum, an exquisite basket plant.
Sulcatum, 3ft. Palm-like foliage, used for pots.
Virgatum, 5ft. Hardy, very ornamental, panicles graceful, drooping, purple, admirable for borders.
PASPALUM Elegans, 3ft. Elegant Millet Grass.
PENNISETUM Longistylum, 1ft. Half-hardy annual.
Macrourum, 4ft. Very ornamental hardy perennial.
Rueppelianum, 4ft. Fine big purple plumes, hardy.
POA Pilosa, 1ft. Filmy brown panicles, hardy per.
POLYPOGON Monspeliensis, 2ft. Panicles dense.
SETARIA Nigra, 4ft. Panicles of small bloom heads.
SORGHUM Nigrum, 5ft. Black Millet, for bouquets.
STIPA Pennata, 2ft. Per. Feather Grass, for borders.
TRICHOLAENA Rosea, 2ft. Fine fluffy rosy plumes.
UNIOLA Latifolia, 3ft. Panicles loose, fine for vases.
ZEA Japonica Quadricolor, 3ft. Striped in 4 colors.
Gracillima Variegata, 3ft. A beautiful striped sort.
Perfecta Gigantea, 5ft. Striped in 4 colors.
 Complete Special Mixture of Ornamental Grasses.

PARK'S SPECIALTIES

Begonia

GRACILIS. This class is so called because of its graceful plants which are most desirable for pots because of their free-blooming, varied colors, and showiness. They do well in shady beds and are fine blooming plants.

Passiflora

COERULEA. The well known blue Southern Passion Flower. The plants are lovely climbers, blooms freely, and are lasting perennials. The Passion Flower is of surpassing beauty, nothing handsomer; edible fruit.

Calceolaria

GRANDIFLORA. A very beautiful window plant. Started in Spring or early Summer they will bloom next Spring. Flowers richly spotted, exquisite in form and profusely borne. Seeds start in 3 weeks; plants thrive in rich porous loam. This is a first class strain. Mixed.

Lantana

NEW Dwarf. These Lantanas are popular bedding plants, enduring the hottest sun and completely covered with bloom throughout the season. They are hardy perennials South, but are pot plants at the North. They are increasing in favor and becoming better known.

Cineraria

GRANDIFLORA. 1ft. Undoubtedly the most gorgeous of window plants when in bloom, easily grown from seeds. Plants show immense heads of rich bloom surrounded by lovely foliage. The flowers are rich in color, delicate in texture and mostly variegated. Finest mixed.

Primrose

VILMORIN'S Star. The most easily grown and desirable of Chinese Primroses for window decoration. Plants have handsome foliage and produce an abundance of exquisite flowers in the most beautiful colors. My seeds are of improved varieties from Vilmorin.

Coleus

FINEST Mixture. I offer seeds of the finest English, French and German Coleus in special mixture. The foliage and variegations are very attractive, and the plants will show a great diversity of colors. Plants are not difficult to grow and thrive in any sunny place.

Verbena

DWARF Compact. I offer the finest strain of dwarf compact Verbenas. The plants are splendid for either pots or beds. Blooming profusely, with large clusters showing the richest and most varied colors. These Verbenas are far superior to the common hybrid varieties.

Cyclamen

GIGANTEUM. I offer the finest French strain of these magnificent window plants. They bloom abundantly. Each flower held aloft on a strong stem with large upturned petals of rich texture and pleasing color. Complete special mixture of all colors. 12 seeds.

Lavatera

ARBOREA Variegata. This is a splendid variegated pot plant but hardy at the South. The foliage is light green and creamy white, in distinct blotches, and very attractive. The plants increase in rich variegation with age. Seeds start quickly; plants grow freely.

Gloxinia

FRENCH Hybrid Gloxinias are easily grown from seeds. I offer the finest strain grown by Vilmorin of Paris. The hybrids show many large rich colored fls. in great variety. Started in Spring the plants will bloom the following winter. A splendid pot plant.

Petunia

HYBRID Double. This is the small Petunia, but blooms more freely and requires less care than the giant sorts. Plants are hardier and really more showy. Colors range from white to purple. They should not be displaced by the giants. The seeds germinate quickly. 50s.

Aquilegia

COERULEA. This is a long-spurred Columbine. The flowers are large and of the most exquisite blue and white colors, strikingly contrasted. It is really the most beautiful of all Columbines. Plants grow 2 feet high, perfectly hardy, bloom freely, and are lasting when started.

Leucanthemum

FINEST Mixed. Perfectly hardy, free-blooming plants. The flowers large, mostly pure white with yellow center. Very showy in beds and fine for cutting. Thrives in any garden. My mixture contains the finest known varieties. Plants easily grown from seeds.

Auricula

BEAUTIFUL beyond description, are the big clusters of Kelway's New Giant Auricula, each flower 1½ in. across, exquisite in color and variegations. I offer seeds of this grand plant direct from Kelway, the originator. Treat as a Primrose, for best results.

Lychnis

CHALCEDONICA. This is a very attractive hardy perennial 2 ft. high. The plants branching slightly and tipped with large heads of showy flowers. Found in Russia and Siberia, thrives in a cool climate. I offer the Improved Large-flowered flaming scarlet variety.

Bellis

ENGLISH Daisy. I offer seeds of Hufeld's Giant Double Daisy, not unlike a double Aster, in size form and general appearance. Plants are hardy, bloom abundantly and continuously for weeks and make a beautiful bed or border. Seeds from Mr. Hufeld.

Oenothera

YOUNGI. An elegant Evening Primrose with large bright lemon-yellow flowers in great profusion, open during the day. Makes a showy bed or border. The plants are strong, branching and hardy. Plants start readily from seeds and bloom throughout the Summer.

Carnation

GRENADIN. This lovely hardy Carnation blooms in 6 months, withstands the Winter and blooms for several years; frs. large double, white, rose, scarlet; deliciously scented. Fine for beds and desirable for cutting. A splendid Carnation that should be better known.

Pyrethrum

ROSEUM. One of our best hardy perennials, forms a mass of lovely cut foliage from which two feet stems push up, bearing very large Aster-like flowers of splendid colors from white to rich crimson. I offer Vis Bros. Improved Strain. There is no better at any price.

Campanula

TURBINATA. One of the most beautiful and lasting of Campanulas. Spreading hardy plants with showy blue and white bells. Deserves a place in every garden. Blooms freely during Spring and early Summer. A good perennial and desirable rock plant. Mixed colors.

Saponaria

OCYMOIDES. A hardy perennial one foot high, producing it's lovely Phlox-like clusters in wonderful profusion, thus hiding the foliage. Showy rose frs. in bloom for Decoration Day. A carpet of lovely flowers. Every flower lover should have it.

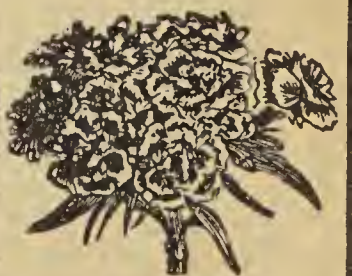

Delphinium

An outstanding hardy perennial. Plants 5 to 7 ft. high with long erect wreaths of bloom, white and shades of blue often with rose variegations. Plants hardy, lasting and blooming throughout the season. I offer Vis Mastodon and Hurst Monarch Strains.

Sweet William

IMPROVED. Almost everyone knows the Sweet William, but few are acquainted with the Improved large-flowered varieties. The frs. are of finest colors and variegations, coming in big heads that are deliciously scented, very profuse. Finest large-flowered in mixture.

THE FINEST TREES AND SHRUBS

I offer new seeds of all of the following Trees and Shrubs, but I will say, right here, that many kinds of Tree and Shrub seeds are tardy in starting. Some are nuts and need to be filed before planting; others have impervious covering which retards germination. All should be sown in a retired bed which will not be disturbed for two or three years. Some will start in a reasonable time, and these can be removed. Germination, however, is variable and always more or less tardy.

- ACACIA Julibrissin, Albizzia, 30ft. A hardy leguminous tree bearing paniculate heads of white flrs; has beautiful pinnate foliage, very handsome.
- ACER Pseudo-platanus Rubrum, 50ft. Leaves Sycamore-like, purple beneath, the breeze giving a variable appearance; a rare handsome Maple.
- Sacharinum, the well-known Sugar Maple.
- AILANTHUS Glandulosa, Tree of Heaven, 40ft. Beautiful massive foliage and greenish-white terminal panicles of bloom; makes a fine specimen.
- AKEBIA Quinata, 30ft. A fine Japanese evergreen hardy vine, flowers brown, very fragrant and are freely produced in Spring, not hardy far North.
- ALNUS Glutinosa, 50ft. A fine, quick-growing tree, handsome foliage and pretty flrs in early Spring.
- AMELANCHIER Botryapium, 8ft. A very bunchy shrub with masses of showy white flrs in early Spring, followed by clusters of palatable fruit.
- AMORPHA Fruticosa, 8ft. A pretty native, the flowers are purple and grow in spikes.
- AMPELOPSIS Veitchi, a robust hardy woodbine, clings to walls, bright-colored foliage in Fall.
- ARALIA Spinosa, 10ft. A handsome native, the flowers are white in big umbels, splendid.
- ARBUTUS Unedo, Strawberry Tree, 8ft. Flowers in drooping racemes, fruit scarlet, edible, blooms in late Autumn, at which time previous year's fruit is ripe; flrs and ripe fruits are very pretty.
- ARISTOLOCHIA Siphon, 40ft. A hardy vine, leaves semi-tropical, flrs pipe-like, brown, early Spring.
- AUCUBA Japonica, 5ft. Leathery green leaves spotted white; female plants fruit freely, mixed.
- AZALEA Mollis, 3ft. Bell-shaped bright colored flowers in clusters, from Japan, hardy.
- BERBERIS Aquifolium, 4ft. A hardy shrub, flowers are yellow in crowded erect racemes, fine.
- Jamesonii, a beautiful hybrid Mahonia, should be in every collection; a rare hardy variety.
- Thunbergii, 3ft, golden pendulous flrs, red berries.
- Vulgaris Purpurea, 5ft, deciduous purple foliage, red Autumn fruit, a splendid variety.
- BETULA Alba, 50ft. The European Birch.
- BIGNONIA Radicans, Tecoma, native shrubby wall vine, flrs clustered, large, red, showy trumpets.
- BUDDLEYA Variabilis, Butterfly Bush, 8ft. Hardy Summer-blooming, flrs lilac in showy spikes.
- BUXUS Sempervirens, a dense hardy evergreen shrub, used for edging and single specimens.
- CALLICARPA Americana, 5ft. A hardy native shrub laden with clusters of purple berries in Autumn.
- CALYCANTHUS Floridus, 5ft. The sweet native shrub; flrs brown followed by large seed-fruits.
- Praecox, a beautiful Winter-blooming shrub, flrs purple, very fragrant, axillary and terminal.
- CARAGANA Arborescens, 15ft. A Siberian Pea Tree, golden flrs in April, hardy leguminous tree.
- CARPINUS Betulus, European Hornbeam, 50ft. Good hedge plant if kept pruned, yellowish flowers.
- CATALPA Speciosa, 30ft. A beautiful flowering tree, big terminal panicles of large white flowers, in bloom it is very attractive; blooms quite young.
- CEANOTHUS Azureus, 30ft. A fine Mexican shrub, flrs lovely blue in cymes, give a sheltered place.
- CELASTRUS Scandens, 30ft. Hardy shrubby vine, clusters of white flrs in Spring, and a rich orange vessels with bright scarlet seeds in Autumn, fine.
- CELTIS Occidentalis, tree 50ft. Known as Sugar Berry, fruits sugary, a handsome ornamental tree.
- CEPHALANTHUS Occidentalis, 6ft. A bushy hardy shrub with globular heads of white bloom.
- CERATONIA Siliqua, 30ft. An evergreen leguminous tree, leaflets shining green, flrs red in Sept.
- CERCIS Canadensis, 15ft. Red Bud, a hardy native tree showing masses of little red butterfly-like flowers in early Spring, before the foliage, fine.
- CHIONANTHUS Virginica, Fringe Tree, 15ft., also Grandfather Gray Beard, flrs white in big showy clusters in Spring, a native ornamental tree.
- CITRUS Trifoliata, 20ft. A hardy orange tree, the fruit small but beautiful, flowers white, scented.
- CLEMATIS, Vines, Shrubby, hardy kinds, mixed.
- CLETHRA Alnifolia, 3ft. A hardy native shrub with lovely, deliciously scented white flowers in spicate racemes from July until September.
- COLUTEA Arborescens, 8ft. Flrs yellow, freely produced during July and August, a hardy shrub.
- CORNUS Florida, 15ft. The well-known Dog-wood; large white flowers in Spring; beautiful.
- Mascula, 12ft. Cornelian Cherry; umbels of golden flowers on leafless twigs in February and March, followed by red, edible cherry-like fruits.
- COTONEASTER Microphylla, an evergreen wall plant, preferred to Ivy, a profusion of white bloom in Spring, succeeded by scarlet berries.
- CRATAEGUS Pyracantha, 10ft. Evergreen Thorn, clusters of white bloom in May, and in Autumn covered with red berries that remain in Winter.
- CRYPTOMERIA Japonica Elegans. A beautiful evergreen pyramidal tree, branchlets pendulous, very graceful, bronzy crimson in Autumn and Winter.
- CYDONIA Japonica, Japan Quince, 5ft. Bright red flrs in Spring, fruit green, delightfully fragrant.
- CYTISUS Laburnum, Golden Chain, 20ft., flowers are golden yellow in pendulous racemes from April to June, leguminous, very beautiful.
- DAPHNE Mezereum, Spurge Olive, 3ft. A charming shrub, flowers red, fragrant, in clusters during February and March; give it a protected place.
- DAUBENTONIA, hhs, 6ft. A very beautiful shrub, scarlet Wistaria-like racemes, 4-winged seed-pod.
- DESMODIUM Penduliflorum, 3ft. A beautiful pendulous shrub, flowers pea-shaped, purple, free.
- DEUTZIA Crenata, fl. pl., 8ft. Fine Spring-double rose-tinted flowers in terminal panicles.
- DIOSPYROS Virginica, 40ft. Persimmon; seeds from delicious non-astringent fruit, excellent.
- ELEAGNUS Angustifolia, a handsome deciduous tree prized for fragrant yellow flrs and red fruit.
- ERYTHROXYLON Coca, 5ft. A half-hardy shrub with small axillary flowers; foliage chewed by the South Americans as a stimulant.
- EUONYMUS Americana, 6ft. Green bark, purple flowers, pink strawberry-like fruits, scarlet seeds.
- EXOCHORDA Grandiflora, Pearl Bush, 12ft. A lovely free-blooming, beautiful tree; the flowers like Cherry blooms and cover the tree in May.
- FRAXINUS Excelsior Pendula, weeping Ash.
- Ornus, the handsome flowering Ash, very pretty.
- GENISTA Tinctoria, 10ft. Flowers golden, in profusion from July till September; of easy culture.
- GINKGO Biloba, 40ft. Maiden-hair tree, fine.
- GLEDITSCHIA Triacanthos, Honey Locust, 50 feet. Greenish flrs; big red seed-pods, pretty foliage.
- GREVILLEA Robusta, a fine tree South and beautiful pot plant in the North.
- GRAPE, Chicken, 40ft. A wild grape bearing masses of palatable fruits; put up in sugar for pies.
- GRAPE, Scuppernong, 30ft. Branches freely and bears delicious large pinkish fruit in clusters.
- GYMNOCLADUS, Kentucky Coffee Tree, 75ft. Racemes of white bloom, May to July, big red showy pods, Fall, seeds browned, ground, used for coffee.

HAMAMELIS, Witch Hazel, 8ft. Golden flowers.
 HAZEL-NUT (*Corylus*) 8ft. Pretty flowers in March, with ripe brown palatable nuts in Autumn.
 HEDERA Helix, most beautiful of our evergreen climbers, leaves leathery, graceful and attractive.
 HIBISCUS Syriacus, Althea, Double, Mixed.
 HYPERICUM Calycinum, 1ft. Large yellow flowers; one of the handsomest of our shrubs.
 ILEX Aquifolia, Holly, green foliage, red berries.
 Verticillata, 10ft. Most gorgeous of all the shrubs; long rods of rich red berries till New Years.
 JUGLANS, the Butternut and White Walnut.
 KOELREUTERIA Paniculata, 15ft. A beautiful tree with pinnate foliage, big panicles of golden flrs.
 LIGUSTRUM Japonicum, 6ft. An evergreen hardy shrub with fragrant white flrs and large leaves.
 Ovalifolium, 15ft. A hardy shrub; flowers white, in clusters; free-blooming; splendid.
 LIQUIDAMBER Styraciflua, 50ft. A Maple-like tree, the foliage fragrant and scarlet in Autumn.
 LIRODENDRON, Tulip Tree, 50ft, bears large beautiful Tulip-like, red-cheeked flowers in July.
 LONICERA Caprifolium, a vigorous twining Honeysuckle; flrs yellow and blush in terminal whorls and highly fragrant yellow berries in Autumn.
 Tartarica Rosea, Bush Honeysuckle, 10ft. Flowers small, profuse, rose, red berries in Summer.
 MACLURA, Osage Orange, 40ft. A handsome large-fruited tree, often trained for hedges.
 MAGNOLIA Acuminata, 50ft. Pyramidal, large-leaved Tulip-like, yellow-tinted flrs, scarlet seeds.
 Grandiflora, 80ft. A fine evergreen native tree; big beautiful sweet white flowers in Summer.
 Soulangeana, 20ft. Big Tulip-like pink flrs, Spring.
 MELIA Japonica Floribunda, Tree of Lilac; blooms early and freely, flowers lilac; hardy South.
 Umbraculiformis, Umbrella Tree, 20ft. A dense beautiful shade tree, flowers in big lilac panicles, delightfully fragrant, drupes golden, size of marbles, hang in clusters in Winter; not hardy North.
 MORUS Nigra, Black Mulberry, 30 ft. Delicious black fruit in mid Summer; fine for birds.
 MYRTUS Communis, 6ft. Fragrant foliage with very pretty white flowers; hardy in the South.
 NANDINA Domestica, 5ft. An elegant half-hardy shrub, flrs white in terminal panicles; berries rich scarlet in clusters, remaining through the Winter.
 NYSSA Sylvatica, Blue Gum, 75ft. Shining green foliage in Summer and rich scarlet in Autumn.
 PAULOWNIA Imperialis, 40ft. A splendid early-blooming tree, flrs trumpet-like, violet, clusters.
 PEONY Moutan, 3ft. Large, mixed colors.
 PHILADELPHUS Coronarius, Mock Orange, 6ft. lovely cup-shaped white fragrant flowers, hardy.
 Grandiflorus, 8ft. Larger flrs but not fragrant, fine.
 Virginalis, 4ft. A new hardy shrub, flowers white, 2 inches across in fine clusters.
 PHOTINIA Serrulata, Chinese Hawthorn, 10ft. A handsome shrub with white flowers in showy flat panicles, leaves glossy, evergreen, red berries.
 PICEA Excelsa, Norway Spruce, 30ft. A splendid well-known evergreen; very desirable.
 PLATANUS Occidentalis, Sycamore, 50ft. A very fine tree with white bark, pretty foliage and graceful little fruit-balls that swing all winter.
 PUERARIA Thunbergiana, Kudzu Vine, vigorous splendid foliage and a wealth of Wisteria-like blue clusters in Fall; fine to cover old trees or houses.
 PUNICA Granatum, Pomegranate, 10 ft., flowers showy scarlet, fruit orange-size, yellow with pink cheek, beautiful; edible.
 QUERCUS Alba, 60ft., a handsome tree, sweet nuts.
 Coccinea, Scarlet Oak, 50ft., scarlet foliage in Fall.

Macrocarpa, Burr Oak, 60ft. Large spreading tree with large nuts and mossy cups.
 Palustris, Pin Oak, 50ft. A beautiful shade tree.
 RHODODENDRON Arboreum, 20ft. Evergreen; flowers in clusters.
 Ponticum, 10ft. Glossy foliage, large showy flowers.
 RHODOTYPUS Kerrioides, 3 feet, a graceful shrub with white Kerria-like flowers, admirable.
 RHUS Cotinus, Smoke Tree, 8ft. A handsome hardy shrub, flowers in loose panicles, becoming brown filmy and smoke-like as seeds ripen; curious, fine.
 RIBES Grossularia, Gooseberry, large-fruited.
 Aureum, 5ft., lovely sweet golden flrs early Spring.
 Nigrum, 4ft., Black Currant, edible fruits in clusters.
 Rubrum, 3ft., Red Currant, edible fruits many sorts.
 ROBINIA Bessoniana, thornless, like Black Locust.
 Pseudo-acacia, Black Locust, 50ft., lovely pinnate foliage, exquisite, fragrant, honey flowers in pendulant racemes, later laden with seed pods.
 Viscosa, 30ft., pink-colored flowers in erect racemes
 ROSA Canina, Dog Rose, 6 ft. Single, pink flowers.
 Hybrid Perpetual, in splendid variety mixed.
 Rubiginosa, Sweet Briar, pink flrs, fragrant foliage.
 Rugosa, Japan Rose, 4ft., wrinkled foliage and showy red flowers, followed by big red seed-hips.
 RUBUS Idaeus, Raspberry, 6ft., edible fruit.
 RUSCUS Aculeatus, Butcher's Broom, 3 ft. Very small flowers followed by bright red berries.

TWO GLORIOUS WINDOW PLANTS

CINERARIA Grandiflora is the grandest of all window plants when in bloom. Nothing can surpass it in attraction and beauty. No pen or artist's brush can give an idea of its magnificence. A windowful is truly glorious. It is easily grown from seeds, and if started in Spring the plants will bloom the following Winter. The colors are rich and varied from white to velvety blue and crimson, and many are variegated in the most distinct and exquisite forms. Mr. Ousey has given us some idea of the flowers in the above beautiful wood engraving. Place chopped tobacco stems or dust over the soil under the plants to enrich it and keep off insects. I offer Kelway's Perfect Model, the flowers 2½ inches across in enormous trusses, the finest in the world. Packet 5cts. See page 67.

Kelway's Calceolaria

The large flowered hybrid Calceolarias are equally as showy and beautiful as Cineraria, and even more attractive as they are not so well-known as Cinerarias. Kelways have been years in developing their model strain, and it is undoubtedly the finest in existence. The flowers come in great clusters, are rich in color, distinctly and beautifully spotted and blotched as well as plain. The plants grow one foot high and become masses of graceful bloom eliciting the enthusiastic admiration and praise of every beholder. No words can describe their fascinating beauty. They must be seen to be appreciated. The Kelway's strain includes all the colors and variegations. It cannot be surpassed. 5cts. See page 67.

NOVELTIES.--I offer the finest collection of novelties and specialties on page 6. The list includes all the best and most desirable new and choice things of this season -- read it over carefully before you complete your order.

Calceolaria. Dear Mr. Park: Two years ago I planted a packet of your Calceolarias and raised more than 20 plants. I kept four of them myself until blooming, and still have two lovely ones the second year. They are much admired by all who see them; colors, dark red with golden blotches and a pleasing yellow. The red one with golden blotches is entirely new in this locality. Each plant has had over 60 blossoms, and has bloomed continuously more than two months. They are still full of flrs. R. Larson, Freeborn Co., Minn.

Flower Book to your friends.

TEN WEEKS STOCK

MacDonald's Improved Bismarck

The Bismarck Ten Weeks Stock has for years been considered one of the most beautiful and desirable of all Stocks but recently Mr. MacDonald, the Scotch Horticulturist, by skilled and careful culture has developed and improved the race of Bismarck that surpasses the old and is to be much preferred. The plants of this improved race are vigorous, reaching $2\frac{1}{2}$ feet in height and branching near the base, each branch developing into a huge spike of rich bloom, the flowers very large, thickly set on the spike, and of the most attractive colors, thus adapting them especially for showy beds outdoors or for pots of show flowers in the conservatory or greenhouse. They are also very desirable for cutting. The plants begin to bloom early and continue until Autumn, making a beautiful display wherever they are grown. Mr. MacDonald received awards of merit and high commendations from the Royal Horticulture Society of England at the late Ten Weeks Stock show at Wisley. Being in competition with those of the most famous world growers, indicates the high quality of this fine improved strain. My seeds of these Stocks are direct from Mr. MacDonald, and are of his best strains. My mixture was prepared by him and contains the colors in careful proportion. They will make a glorious bed, and will be a source of enthusiastic pleasure to all who get them. The following were specially awarded: White, Chamois, Dark Blue, Blood Red, Lilac, Canary Yellow, Brilliant Rose, Separate or Mixed 60 seeds. See page 47.

A Fine Garden Pink

The sweetest, and by some persons thought to be the loveliest, of all garden flowers is the old-fashioned English Garden Pink, and no flower gardener should fail to have a big bed of the plants. The new varieties show many colors and variegations, and are double, semi-double, and single, but all are beautiful, fragrant and free-blooming and make the garden air redolent with sweet perfume. Some are ever-blooming and keep up the display more or less throughout the season. I am pleased to offer a mixture of a first class strain of these glorious Pinks. I cannot speak too highly of their fragrance, exquisite beauty and rich profusion. They are easily grown, perfectly hardy, and once established, a bed will last for years without special care. The engraving shows the form of the new double flowers. This is an indispensable perennial. 50 s. 5c.
